OTTAWA, Ont.

Dear Sir:

As instructed in your wire of July 22nd. 1949 I contacted Wynn's Sawmill and had them ship me sixty bale of shavings for the insulation of the walls in the Ft; Rae Indian Day School. These shavings were delivered to me in Yellowknife last week and I have covered this purchase with Voucher # 83.

Enclosed is the Voucher and Invoices for payment when a purchase order has been obtained.

These shavings will go forward by barge from here as soon as weather permits and the cost of freight will be vouchered through in the usual manner at that time.

Yellowknife, N.W.T.
August 18th. 1949.

Mr. B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Indian Affairs,
OTTAWA, Ont.

Dear Sir:

Ref. Your telegram, date Aug. 17th. 1949.

Voucher for payment of shavings, purchased from Wynn's Sawmill, forwarded to your office Aug. 17th. 1949. The lime will be purchased at Yellowknife and a voucher sent to your office for payment.

Accountable advance received at the Bank of Commerce Yellowknife and as soon as work completed at Ft. Rae an accounting will be forwarded to your office.

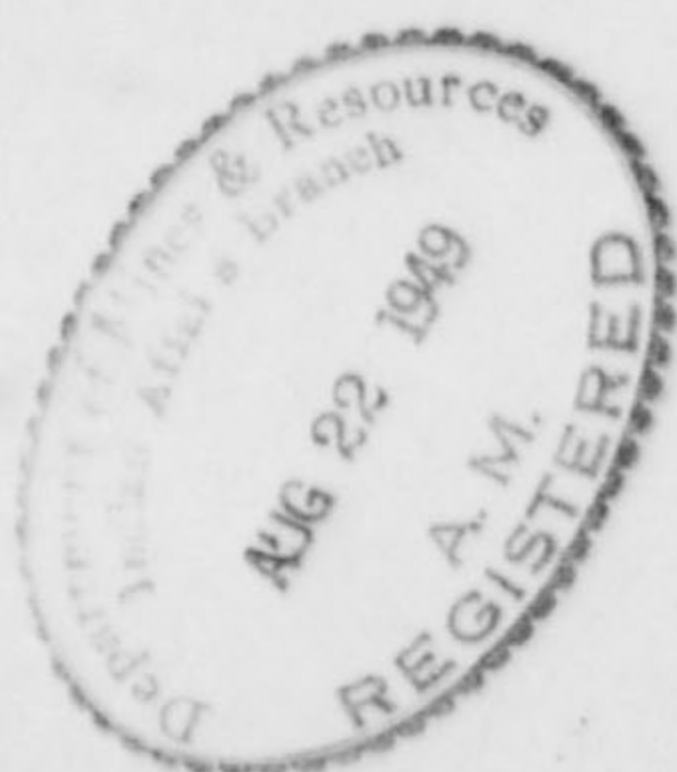

The wood for the Ft. Rae Indian Day School is being cut and brought into town by barge. As a number of Natives are doing the work the Hudson's Bay Co. advances them food and clothing and once the wood has been delivered will pay all those engaged and send us the account for the total amount which in this case is \$700.00. When the account is rendered by the Hudson's Bay I will voucher it through your office and no accountable advance will be necessary for the wood.

Repairs to Ft. Rae school will be starting tomorrow and I expect them to continue for approximately six weeks.

Yours very truly,

I.F. Kirkby

Dear Sir:

Enclosed please find Vouchers 101 to 105 completed for payment.

Voucher 102 covers hireing of barge to transport supplies urgently needed at Ft. Rae school. As no regular boat service into this location was forced to hire whatever available to make the trip.

All other vouchers are routine payments for freight or supplies received.

Mr. B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
OTTAWA, Ont.

Dear Sir:

I have engaged one foreman carpenter for the repairs to the Ft. Rae Indian Day School and as this man is subject to Unemployment Insurance it becomes a necessity for me to buy stamps for what-ever amount is required for each man employed and comes under the act. I have been informed by Mr. Johnson who is in charge of Unemployment Insurance in Yellowknife that it is necessary for me to have Authority from my branch before I can purchase stamps. As we may from time to time be doing building projects that will require local labour I request authority to buy such stamps as may be needed to comply with the Unemployment Insurance Act.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

During the past month I have been able to visit the three Indian Day Schools in this Agency as well as the Fort Resolution Residential School. As this trip was made just after the opening of the school term I believe it worth while to report on my observations at each point.

On September 22nd, I proceeded to Fort Rae to check on progress of repairs to this building. This work is nearing completion and a very good job has been obtained. The entire building has been insulated and the second story as well. This gives a manual training room for future use. The first floor has been divided into two with all old partitions removed, giving two good class rooms. The dividing partition is movable and the school will now make a good hall. All walls of first floor have been lined with gyprock wallboard and painted. Part of the second story has been lined as well, but there was a shortage of material and this will be obtained next year when the work can be completed. This gives a very good fireproof interior and very durable.

The whole interior has been painted including the ceiling. The windows, which just arrived by last boat of the season, are being put in and when the teacher returns from his holidays, the building should be complete ready for school.

The two new oil stoves have arrived as well as fuel oil, all noon lunch materials and the teachers ration have been put into Fort Rae on the last boat.

I expect to pick up the carpenter by plane before the middle of October and will then pay all wages and incidentals and send an accounting to your office.

I have seen enormous progress at all the schools since last term and I believe we can look forward with confidence to the results that will be obtained from the new type of school in the Northwest Territories.

Dear Sir:

In regards to our voucher #141, items stating "Freight to Waterways". We have written to Hudson's Bay Company for these freight bills and receive the following answer.

"In regard to the freight items, in order that we may pass on the benefit of carload rates to you, we make up a carload of freight for Waterways at our warehouse here, including therein shipments for various customers. The railroad accepts this carload on our weight and count, and we pay them for the carload, as such. They do not issue separate receipts for each shipment to the various consignees, and consequently it is not possible for us to pass them on."

We trust this explanation will satisfactorily explain the absence of freight bills.

Yours very truly,

I. F. Kirkby,
Supt of Indian Agencies.

File 139-6-1 (Ft. Rae)

Yellowknife, N.W.T.
October 15th. 1949.

Mr. B.F. Neary,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
OTTAWA, Ont.

Dear Sir:

The alterations and repairs to the Ft. Rae School have now been completed and the balance of the accountable advance as well as the statement of expenditures is enclosed herewith.

The following work was completed by Mr. James Cull and two Indian helpers.

- (1) Outside walls from ground level to top sill have been insulated with shavings.
- (2) Ceiling of second storey completely insulated with Gyproc wool bats.
- (3) First floor class rooms have walls lined with gyproc wallboard and bottom four feet of back wall protected with plywood.
- (4) Sectional partition divides the building into two good class rooms. This partition can be removed if it is desirable to make the building into one room for any purpose.
- (5) All interior partitions that formerly existed were removed as well as the old stair way.
- (6) Temporary stairway erected on outside of building to second floor.
- (7) Outside walls and roof painted.
- (8) Class rooms completely painted both walls and ceiling.
- (9) New and extra windows put in complete with storm sash.
- (10) Two oil stoves installed and tested.
- (11) Small porch over door put on for winter use.

The above work was done between August 20th. and October 13th. Mr. Cull returning to Yellowknife on the latter date.

In this district it has been the policy of the Dept. of Public Workes to pay their foreman carpenter at the rate of \$1.50 per hour and to deduct \$1.25 a day for board. The DPW supply this board at what-ever it costs and they absorb the difference.

At Ft. Rae there are no places to eat and at the start we were able to get a woman to cook for \$1.50 per day while we were to supply the food. This lasted for one month and then the carpenter was able to stay with the R.C.M. Police and we continued to supply his food while they made no charge for any work they did in preparing any of his meals. There is no doubt we received cheaper board this way than through any other arrangement.

In order to get carpenters into places like Ft. Rae we have to fly them in and out. I took the carpenter in when I was making a flight and CP Airlines brought him out on one of their regular runs. I paid this fare out of the standing advance.

Don Lafferty and Alex McKenzie who are both Treaty Indians with two dependents were hired as helpers and as both boarded at home no deductions were made from their pay for this.

At all these out-of-the-way places we are forced to pay the Indians some of their wages as they work, otherwise they will not be able to feed themselves and their families. With this in mind

arrangements were made with the Hudson's Bay Co. to advance money as the work progressed and that I would make the pay cheques for the Indians payable to the Hudson's Bay for the amount advanced. This will account for the pay cheques being made out as they are, with the extra amount due the workers paid directly to them at the end of the work.

If we donot arrange for wages of Indians to be paid this way it would never be possible to get a Native to work for more than a few days before he would quite.

Unemployment Insurance stamps and Revenue stamps for all cheques were paid for in cash and cheques were made payable to myself for the amounts.

Receiver General Cheques were made out for Income tax deducted from James Cull, Board deducted from James Cull, Employees share of Unemployment Insurance deducted and the unexpended balance of the advance sent to me here.

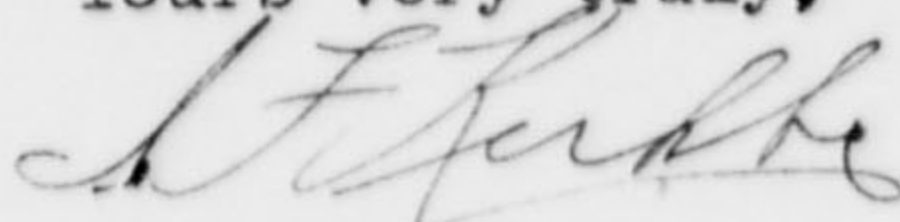

The repairs that were undertaken at this school have, I am sure, made a very good small two room school out of what was an old store. The walls were formerly covered with paper and every thing was dirty from smoke and age, it being impossible for any teacher to make it cheerful. As there was a good frame to work from we now have what I would consider is a good two room school and with the addition of combination porch and cloakroom with wash rooms for the winter months and possibly put the building on a low cement foundation this school would make an ideal manual training building at such time as a new school may be erected. As the building is on solid rock it would last for many years if a small wall is put in.

I am quite sure that the building has been put into as good condition as possible with the materials available at Rae. It will be noted that a limited amount of extra building supplies were purchased as instructed in your telegram of August 17th. These supplies as well as lime used in shavings have been vouchered through for payment from Ottawa.

The unloading of freight and hauling from Frank's Channel was made necessary by the very late delivery of windows for the school, fuel oil and some other extras. The Northern Transportation Co. could not get within six or eight miles of Rae due to low water and we were forced to hire a local man with a power scow. The Hudson's Bay paid this man and sent the accounts here for payment.

I trust this accounting is satisfactory and that all the necessary information has been included.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

I have for acknowledgment your letter of October 15th enclosing four cheques made payable to the Receiver General of Canada.

I am returning one which represents the deductions for Income Tax from James Cull. This should be forwarded to the District Income Tax Office, accompanied by a T.D. 2 form which no doubt, you can obtain at the local Post Office. Your District Income Tax Office may be at Edmonton, but I am not sure of this.

At the end of the calendar year you will be expected to give the employee a statement of the amount deducted for Tax purposes and also forward a similar statement to the local Inspector of Income Tax. Forms for this purpose will also be available from the Post Office. We only handle payments made direct from here.

Mr. P. Phelan
Chief, Training Division,
Indian Affairs Branch
Ottawa Ont.,

Dear Sir,

In sending the returns for the quarter ending Sept. 30
I have included the usual list of Day Pupils attending our classrooms.

There are at present 95 pupils in residence attending school
and with these 26 day pupils it means that our two teachers have
123 pupils to contend with. This is too many for the good of the pupils
and for the welfare of the teachers. It is I think time that the
various Branches of the Dept. of Mines and Resources took over the educa-
tion of pupils not in residence but who live around Aklaavik.

Mr McKinnon when here talked over the matter of staff and
pupils and I feel sure he agrees with me that we are carrying a
burden not in proportion to our capabilities.

Yours sincerely,

R. T. Gibson

EX'D.

It is understood that these two residential schools are bringing in day school students from the local villages and having them attend school along with the residential school pupils.

We are now informed that this is providing too heavy a load upon the teachers at these schools. At a recent meeting of officials of the Northwest Territories Bureau and Indian Affairs Branch, it was decided to open day schools at each of the residential school plants. The Department is willing to pay for teachers and to provide such extra classroom equipment and materials as are required. It is therefore our intention to pay for one teacher at each of the two residential schools on a temporary basis until a proper day school can be erected. I am sending extra copies of this letter to the Principals of both schools concerned.

Dear Colonel Neary:

Salaries of Teachers - Anglican Indian
Residential School, Aklavik, N.W.T.

I understand that you are now in the process of taking over from the N.W.T. Administration matters dealing with the education of Eskimo children.

Dr. Alderwood has been in touch with Inspector McKinnon of the N.W.T. Branch in regard to payment of salaries of certain of the teachers at our Aklavik School by the Dept. of Mines and Resources because

- (a) 40 Indian and 60 Eskimo pupils are in residence
- (b) This Administration provided a third classroom and sent in a third teacher, which relieved the N.W.T. Administration of the necessity of building a Day School. We were assured verbally at the time that the Department would pay the salary of this third teacher.

As a result of the discussion between Dr. Alderwood and Inspector McKinnon, we would like to ask that you give favourable consideration to reimbursing us, at your Departmental scale of salaries, for the services of Miss M. F. Neales, teacher in the Day School, and of Miss M. A. Harrington, teacher of Handicrafts (Woodwork and Leatherwork). Both of these have First Class Teaching Certificates.

Will you please advise me, as early as convenient, of your decision in this matter.

With reference to your letter of November 4th concerning General Turner's request for payment of the salaries of Miss M. Neales and Miss M.A. Harrington, I would comment as follows. Miss M. Neales has had thirteen years of teaching experience; Miss M.A. Harrington has had ten years teaching experience. Both teachers have Superior First-class Teaching Certificates and have taken professional courses.

I suggest we pay the salary of these two teachers, as both are well qualified and rendering excellent service.

As you know our present regulations call for the payment annually of Manual Training teachers at Residential Schools and of Day School teachers. However, if Miss Neales is teaching day school pupils at a residential school, then we could pay her salary as a day school teacher. Would you be prepared to share this cost on a fifty percent basis, in view of the Eskimo and Half-Breed children who are doubtlessly attending these classes conducted by Miss Neales?

Dear General Turner:

Your letter of October 29 was referred to Inspector McKinnon and has been the subject of discussion between us these past few days. It has been decided to classify Miss Neales as day school teacher and to establish the Aklavik C. of E. Day School. An Order-in-Council is required for this and in order to prepare the necessary forms we must have information as to the number of children who are attending this school on a day basis. As we do not receive a report as yet upon the number of children who are day pupils at this school, could you please advise me as to the number of children whom Miss Neales is teaching, who are classified as day pupils.

Dear Colonel Neary:

Salaries of Teachers,
Aklavik Residential School

On receipt of your 141-1-1 (WT) of 24th November, I asked the Principal for the information you request and he has replied that the number of day pupils is 22, being taught as follows:

by Miss Neales	7
by Miss Harrington	11
by Miss Law	4

Is the above information sufficient or do you wish further particulars in view of the apparent division of the teaching duties? As mentioned in my letter of 29th October, Miss Harrington teaches handicraft, but I was under the impression, after discussion with the late Dr. Alderwood, that Miss Neales alone taught academic subjects to the day pupils.

Mr. L.C. Hunter, Indian Agent, Fort Norman, Northwest Territories.

Aklavik Indian Day School.

You will recall our letter of December 30th 1946, concerning the establishment of day schools in the two Aklavik Residential School buildings. Representations were received from the Indians School Administration of the Missionary Society of the Church of England in Canada for the establishment of a day school at Aklavik to accommodate day school pupils who were going to an Indian Residential School. It is understood that the Administration Branch are sending in a third teacher which relieved us of the necessity of building a day school.

Therefore, steps were taken to have an Order in Council passed providing for the establishment of an Aklavik Day School. This Order in Council has now been passed and the establishment of a day school is authorized. According to a statement received from the M.S.C.C., there are twenty-two day children in attendance at this school. It has been decided to pay Miss Harrington as the day school teacher at the rate of two thirds of the normal salary allowed a day school teacher with her qualifications. Therefore, she will be entitled to a salary at the rate of \$104.00 a month. Please find attached Quarterly Returns which should be submitted by her as the teacher of a day school and also Family Allowance forms which should be submitted monthly. Would you please send the Quarterly Returns in accompanied by a voucher requesting payment of salary for Miss Harrington at the rate of \$104.00 a teaching month. This voucher should be made out in duplicate.

Ottawa, December 19, 1947.

Dear General Turner:

Aklavik Indian Day School.

I have for answer the late Canon House's letter of December 16th concerning the above. We have received also a statement of qualifications of Miss Harrington. It is noted that she holds a first class certificate and has five years experience in Indian schools. This means that she is entitled to a salary of \$1560.00 per academic year on our day school teachers' salary schedule.

In view of the fact that twenty-two day school pupils are attending this school, we would be willing to pay her two thirds of the rate normally paid to a day school teacher. Therefore, her salary for the 1947-48 academic year would be \$1040.00.

I have today written to our Indian Agent at Fort Norman informing him of this fact. I have requested that he submit a voucher covering the payment of this amount to Miss Harrington on a quarterly basis. I have also forwarded him copies of our day school Quarterly Returns and Family Allowance Returns so that these might be submitted by Miss Harrington covering the day school pupils attending the Aklavik Residential School.

Sincerely yours,

Bernard E. Neary,
Supt. of Welfare & Training.

for the period from Sept. 1st, 1947 to Jan 31st,
1948.

Also on this date I am forwarding
the Quarterly and Monthly Returns of the Aklavik,
day School, and a copy of list of sent to me by
the Principal of the Aklavik All Saints Residential
school showing the number of Day pupils in
Attendance to this school. It will be noted that
on this list there are twenty pupils attending
Day classes and on the quarterly Return of Aklavik
Day School for Sept. 30th, 1947, there are 11
pupils listed and on Dec. 31st, return there are
nine pupils listed. This therefore shows that
only half of the pupils in attendance of Day classes
are Indian children, the remainder being either
White, Eskimo or Half Breed.

Dear Colonel Neary:

Aklavik Indian Day School

Reference is made to your 141-3-1 (W.T.) of 19th
December, 1947..

So far we have not received in this office any
cheque from you covering the salary of Miss Harrington and we
have been unable to obtain any definite information on the
matter from the Principal.

It will be appreciated, therefore, if your Treasury
Branch would be good enough to furnish me with details of any
cheques issued on account of Miss Harrington's services since
the payment of such was authorized.

Yours truly,

Henry G. Cook

Dear Colonel Neary,

In future, would it be possible to have the cheques covering payment for Indian day school teaching made out in the name of the teacher signing the report but 'in care of Indian School Administration'?

As you probably know, in our Residential Schools where a grant is received for the teaching of day pupils the Administration has an arrangement with the teacher whereby a financial adjustment is made upon receipt of the cheque. If the cheques passed through this office, it would be a great convenience.

Yours faithfully,

Henry G. Cook

Superintendent.

With reference to your letter of the 15th instant, our records show that when we are making payments to the teacher at the Moose Fort Day School, the cheque goes through your office.

We have made a note on our file and in future when paying the salary of the teacher at the Aklavik Day School, cheque will also go through your office.

Yours sincerely,

It is understood that these two residential schools are bringing in day school students from the local villages and having them attend school along with the residential school pupils.

We are now informed that this is providing too heavy a load upon the teachers at these schools. At a recent meeting of officials of the Northwest Territories Bureau and Indian Affairs Branch, it was decided to open day schools at each of the residential school plants. The Department is willing to pay for teachers and to provide such extra classroom equipment and materials as are required. It is therefore our intention to pay for one teacher at each of the two residential schools on a temporary basis until a proper day school can be erected. I am sending extra copies of this letter to the Principals of both schools concerned.

RE: Aklavik Day School.

As you are aware for school year 1947-48 our department paid a salary to Miss Mary Harrington who was handling the day pupils of the All Saints School at Aklavik, N.W.T.. As Miss Harrington has now left Aklavik, Miss R. F. Lau has taken over the duties of Day School teacher, I am therefore forwarding attached "Application for Classification on 1948 Revised Indian School Teacher's Schedule." Miss Lau informs me that she signed an affidavit before the former agent, Dr. J. P. Harvey, in 1947 and that it is no doubt on file in your office.

I would request that I be advised if Miss Lau's salary is to be vouchered for from this office, and if so what amount.

Dear Mr. McKinnon:

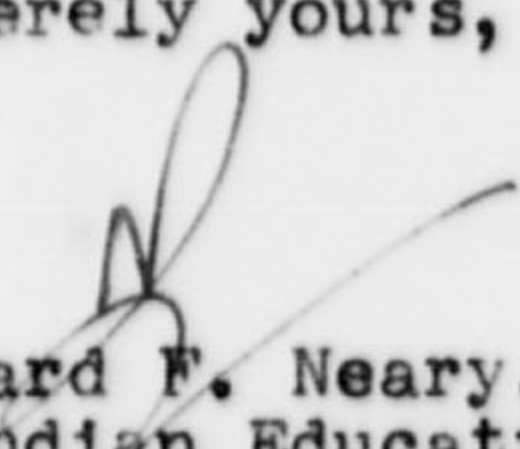

Aklavik C.E. Day School.

You will recall our previous agreement with regard to the above school. Last year, we shared the payment of salary of Miss Mary Harrington. She has been replaced now by Miss R.L. Lau. This teacher has a second Class Manitoba Certificate with two and one half years of experience in Indian schools and five and one half years of experience in Provincial Schools.

This would entitle her to classification as a Grade 2 teacher at a salary of \$1800. an academic year (she has failed to attend the required refresher course to classify her at \$1860).

Would you please advise if you are again prepared to pay fifty percent of the salary which would be allowed to this teacher.

Memorandum:

DIRECTOR OF LANDS AND DEVELOPMENT SERVICES BRANCH

Re: Aklavik C.E. Indian Day School

As you are aware, a number of Indian and non-Indian children are attending the day school operated by the M.S.C.C. in conjunction with their residential school at Aklavik.

Last year we arranged to share the payment of the salary of Miss M. Harrington. Arrangements were made with Mr. McKinnon to continue the sharing of the salary of the present teacher Miss R. Lau. Miss Lau has a Second Class Manitoba Certificate, three years' experience in Indian schools and five and a half years' experience in provincial schools. She has, therefore, been classified as a Grade II teacher at a salary of \$1,800.00 and academic year (failure to attend a required refresher course has prevented a higher salary rating). We have paid for her services for the five months, 1 September, 1948, to January 31, 1949, and a cheque for \$450.00 has been mailed to her in care of the Indian School Administration, M.S.C.C., 102 Bank Street, Ottawa.

Would you please arrange to send a similar cheque to her in care of the M.S.C.C. This will mean that \$900.00 will have been sent to her for the half academic year ending January 31, 1949.

MEMORANDUM

4-8-49

COL. NEARY

Aklavik C.E. Indian Day School

During 1949-50 academic year,
will we continue to pay Miss R.L.
Lau by voucher?

Since she is a qualified Grade
II teacher could she not be placed on
our regular salary list with a memo
sent to C.T.O. stating the salary to
which her qualifications and experi-
ence entitle her and authorizing
payment of our share of this salary.

The disadvantage of paying by
voucher is the fact that we have no
record of her in our register of
teachers, whereas if a memo is sent
to Treasury a complete record of her
can be made available.

Dear Canon Cook:

We have been advised that Miss R.L. Lau has been replaced by Mr. Ross Cooper as teacher at the above school.

In order that arrangements may be made for payment of our share of his salary for the 1949-50 academic year, it would be appreciated if you would have him complete and return immediately the attached documents:-

1. Application for Employment Form
2. T.D. 1 Income Tax Forms
3. Employee Questionnaire
4. Oath of Allegiance and Oath of Office and Secrecy Forms.

Sincerely yours,

Bernard F. Neary,

Re; Aklavik Day School.
C.E. Mission.

As reported in my letter of
October 12, 1949, the above school has been in operation
since September 1949.

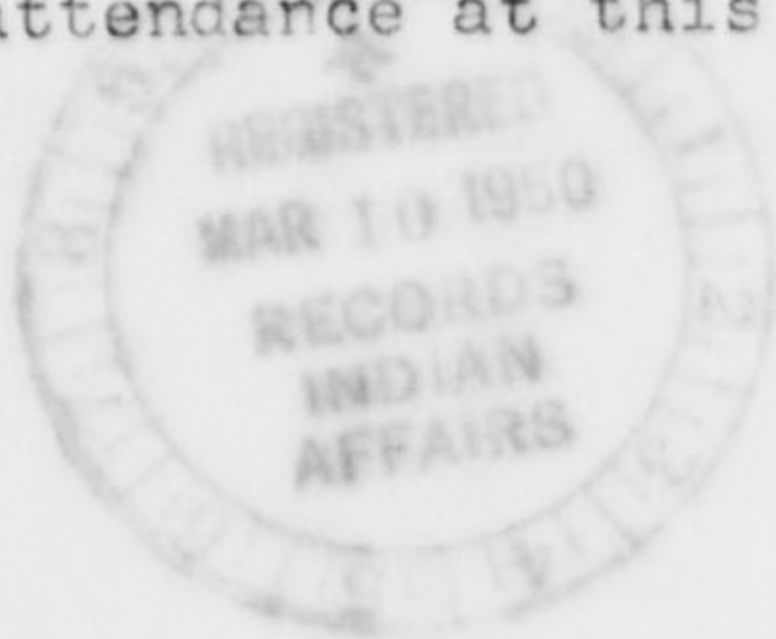

Mr. Gibson, the Principal of
the C.E. Residential School at Aklavik, informs this
office that there have been no payments made for the
salary of the Day School teacher as in former years.

May we please be advised if
a salary is to be paid and if so should the payment
be vouchered from this office.

I am informed that Mr. Gibson,
the principal, is acting as the teacher of the Day
pupils this year.

Ottawa, March 30, 1950.

Mr. E.N. Grantham,
Northwest Territories and Yukon Administration,
Department of Resources and Development,
Ottawa.

Aklavik C.E. Indian Day School

Dear Mr. Grantham:

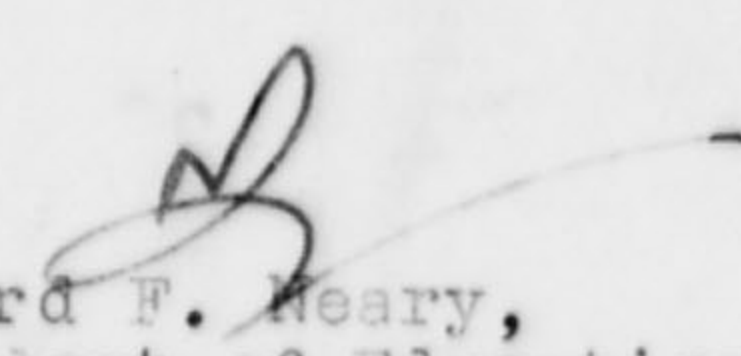

Last year the salary of the teacher at the above school was shared by Indian Affairs Branch and the Northwest Territories Administration. It is presumed that this arrangement will continue during the current academic year.

The present teacher, Mr. James Ralph Cooper, has a First Class Teaching Certificate from the Province of Quebec and has had twenty-five years' experience in provincial schools. He is therefore entitled to classification as a Grade III teacher at a salary of \$228.00 a teaching month.

We will pay for his services for the five months, September 1, 1949 to January 31, 1950, inclusive, at the rate of \$114.00 a teaching month ($\frac{1}{2} \times \$228.00$). The cheque for \$570.00 will be sent to him in care of the Indian School Administration, M.S.C.C., 102 Bank Street, Ottawa.

Would you please arrange to send a similar cheque to him in care of the M.S.C.C. This will mean that \$1,140.00 will have been sent to him for the first half of the 1949-50 academic year.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Aklavik C.B. Indian Day School

Dear Canon Cook:

As you are aware, we have been paying part of the salary of one teacher at your Aklavik residential school in order that certain children from the village could attend as day pupils. The Northwest Territories Administration has been paying the other part of this teacher's salary.

Since September 1, 1949, we find the enrolment as follows:-

September 1949	- 5
October 1949	- 4
November 1949	- 5
December 1949	- 3
January 1950	- 2.

Originally, there were some twenty day school pupils at this Residential School, but it now seems that the number has decreased very markedly.

While we were prepared to recommend the payment of a teacher's salary when twenty children were enrolled, we are not prepared to continue this arrangement with the present low enrolment.

Could you please write to the Principal of your school and find out from him the total number of Day School pupils

in attendance for each month since September. The figures above are, of course, only for Indian children. Copies of this letter are being sent to Messrs. McKinnon, and Grenham of the Northwest Territories Administration.

Dear Colonel Neary:

Re: Your File 907-1(E), Aklavik
Church of England Indian
Day School.

In reply to your letter of April 4, 1950,
I have been in touch with Principal Gibson who gives the fol-
lowing reasons for the low day school pupilage at his school:

- (a) With the anticipated opening of the new day school Mr. Bouchard and Principal Gibson asked that no beginners be sent to the All Saints' day school. Apparently no teachers were forthcoming for the new day school and it did not open on schedule.
- (b) The measles epidemic in the community made it necessary to isolate the residential school and the class rooms.

The Principal also informed that over and above the Indian pupilage figure recorded in your letter of April 4th there was an average of four white pupils and one day school pupil attending classes.

Yours faithfully,

Henry G Cook.

Aklavik C.E. Indian Day School

Dear Canon Cook:

The Department has decided to pay tuition fees at the rate of \$5.00 a month for each Indian pupil attending the above school in lieu of contributing to payment of the teacher's salary. This plan has been adopted because of the small number of Indian pupils enrolled.

We have today authorized our Treasury Branch officials to issue a cheque in the amount of \$140.00 to pay the tuition fees of Indian children for the following months:-

September	1949	- 5 pupils	\$25.00
October	1949	- 4 pupils	20.00
November	1949	- 5 pupils	25.00
December	1949	- 3 pupils	15.00
January	1950	- 2 pupils	10.00
February	1950	- 4 pupils	20.00
March	1950	- 5 pupils	25.00
Total -			\$140.00.

A subsequent cheque will be issued when Monthly Day School Returns are received for April, May and June 1950.

Yours sincerely,

Bernard F. Neary,
 Superintendent of Education.

F.G. GOODSPEED, A/CHIEF ENGINEER, PWD - OTTAWA.

I wrote you on the 6th instant in regard to purchase of a 12½ KVA A.C. Electric Generating set for Coppermine, N.W.T. I now wish to draw to your attention the necessity of similar purchases at other places where such electric generators are necessary, but with more particular reference to the situation at Fort Good Hope, N.W.T.

At Fort Good Hope, Lots 13 and 14 have been chosen for the Two-Classroom Day School and Teachers' Quarters. The building site is within possibly 100 yards of the buildings of the R.C.C.S., which are located southerly of the school site. At the Signals' Station it is necessary for maintenance men to be on duty 24 hours per day in connection with the power plant installed there. I understand it may be necessary soon to install additional units for the requirements of the R.C.C. Signals, but you can no doubt find this out from firsthand enquiry at their headquarters what they have definitely in mind.

The cost of an electric generator delivered and installed at Fort Good Hope will be about \$5,000 and it will be necessary thereafter to have probably two men on duty throughout the winter season at least, in order to give 24 hours' attention to the operation of this unit. This appears an unwarranted expense, particularly when men are now on duty for just such a purpose. Would it be possible to request that R.C.C. Signals supply electric power for school purposes at Fort Good Hope? The economy in this over a period of years would be very considerable and well worthwhile.

Fort Good Hope is situated on a bluff, possibly 70 to 100 feet above the river level and the transportation of oil in drums from the waterfront presents a problem. Further, there are little trucking facilities at this point. I believe R.C.C. Signals plan to install a pipeline and tank so that fuel oil can be pumped directly from oil tanker barge to the storage tank. With some sort of co-operation, a larger tank could be installed and a pipeline re-arranged from the river so that oil storage would be available for both the school and the several R.C.C. Signals' buildings.

It is also necessary to purchase A.C. electric generating sets at Fort Franklin and Arctic Red River. There are no Signals Stations at either place and it will be necessary to make this purchase in these two cases.

Generating Set - Fort Good Hope Day School.

The Department of Public Works has written concerning a generating set required for lighting the above school.

It is felt that the sum mentioned in Mr. Johnston's letter is very high for the installation of lighting. If the Royal Canadian Corps of Signals is unable to provide electricity as mentioned in Mr. Johnston's letter, would it be possible to substitute a less expensive type of lighting set at this school?

R. BLAIS, CHIEF ENGINEER, PWD - OTTAWA.

In letter No.49, on April 8th, I wrote you regarding the necessity of purchasing an electric generator, A.C. power, for Fort Good Hope, N.W.T., in connection with the school project there, unless arrangements could be made with Royal Canadian Corps of Signals to supply electric power. I realize there has been little time possibly, in the interval for Royal Canadian Corps of Signals (Department of National Defence) to be approached and a decision reached in this matter. I would, however, point out that I must shortly make an expenditure involving some \$6,000 unless some arrangement can be made otherwise in this matter. It seems wholly unnecessary to make such an expenditure when electrical power could be supplied by Royal Canadian Corps of Signals.

There is also the question of pipeline from the river to the townsite area for delivery of bulk fuel oil to tanks at the Settlement. Under an overall plan of Royal Canadian Corps of Signals supplying electrical power, this pipeline and tank capacity could be increased to store sufficient oil for the school building also.

There is the further fact that there are other Dominion Government buildings in this Settlement, who in turn, and in due course, could be supplied by electrical power from a central generating plant operated by Royal Canadian Corps of Signals. These are matters, however, which would not be so pressing as the immediate decision as to how electrical power is to be supplied to the school.

Dear Mr. Diney:

Fort Good Hope Indian Day School.

The Department of Public Works will be constructing for this Department this summer a two-room Indian Day School with attached teachers' residence at Fort Good Hope, Northwest Territories. This building will be located on lots 13 and 14, approximately one hundred yards from the station of the Royal Canadian Corps of Signals. At this signal station, it is necessary for maintenance men to be on duty twenty-four hours per day in connection with the power plant installed there. I am advised that some consideration ~~has been given~~ to the installation of generating units for the requirements of the Royal Canadian Corps of Signals.

"additional"

The District Engineer of the Department of Public Works has recommended that we approach you concerning the supplying of electrical power for school purposes at Fort Good Hope. The type of power unit required elsewhere for schools of this type is a Diesel engine capable of delivering approximately 18/20 horse power at 1200 R.P.M. The electrical generator is 12.5 K.V.A. 120/240 volt, 60 cycle alternating current unit.

The District Engineer of the Department of Public Works feels that it would be a waste of public funds to supply a generator to our school at this point when we are so close to a source of electrical power which might be shared by another Government Department. We are quite prepared to pay for this power if you can agree to authorizing its provision by the Royal Canadian Corps of Signals.

Your cooperation in this connection would be sincerely appreciated as we are doing everything possible to bring adequate educational facilities to the Indians, Whites, and Half-breeds of the Northwest Territories. The cost of building these schools is very high and any assistance which might be given by your Department would help greatly in the operation of this particular school at Fort Good Hope.

Memorandum

Re: Generating Set - Fort Good Hope Day School

In reply to your marginal notation of April 26th last, appearing on Major MacKay's memorandum of the 23rd ultimo in connection with the above, we comment as follows.

There is apparently a possibility that electrical power may be available for the above school through the Royal Canadian Corps of Signals who operate a generating station in this area. Should this be impossible the only other alternative would be to purchase and install an electric generating set to meet the requirements of the school.

Major Clark of the Education Division of the Indian Affairs Branch discussed this matter with our Chief Architect on May 4th, and it was agreed that the Indian Affairs Branch would request the Public Works Department to contact the Department of National Defence and determine if they were in a position to supply power for the school.

Oil burning equipment is to be used in the forced hot air heating system provided for the school and any type of generating unit other than alternating current is not applicable to this type of heating equipment.

DEPARTMENT OF NATIONAL DEFENCE

Ottawa, Canada 31 May, 1949.

Dear Dr. Keenleyside:

In reply to your letter of May 4th, 1949, it is regretted that the power you requested at Fort Good Hope, for the Indian Day School, cannot be supplied. The electrical power plant now running at Fort Good Hope is operating at full capacity. It is planned to install a larger power plant at this locality and it is hoped to have it installed about October, 1949, at which time the situation will be reviewed.

As you know, the Inter-Departmental Sub-Committee (on Coordination of Construction) of the Advisory Committee on Northern Development has before it the subject of the supply of electrical power required by all Dominion Government Departments in the Northwest Territories. It is hoped that a satisfactory solution to the problem of power supply will be achieved at an early date.

Yours sincerely,

(Signed) A.B.Coulter,

Dear Mr. Anderson:

Please find attached a copy of a self-explanatory letter received from the Deputy Minister of National Defence concerning the power supply at Fort Good Hope.

It is presumed that it will be necessary for you to arrange for the installation of our own power unit unless Mr. Johnson can confer locally with the Royal Canadian Corps of Signals and decide whether the new plant can handle the two buildings concerned.

Sincerely yours,

B. M. Mackay
Director.

Re: Purchase Order No. 44062
IAB File 908-5 (E.1)

We have your memorandum of the 26th instant covering voucher No. 156 and invoice from Vilas Furniture Company, Cowansville, Quebec, for school desks ordered for Fort Good Hope Indian Day School, Fort Norman Agency.

The prices shown on the above order are those for desks crated for ordinary railway shipment, whereas invoice prices include extra packing for water transportation by Northern Transportation Company. The order shows that the cost of extra packing was not included.

It will be in order, therefore, for you to pass this account for payment.

Mr. B. E. Neary,
Superintendent of Education,
Department of Education,
Indian Affairs Branch,
OTTAWA, Ontario.

Dear Sir:

As it is now at the close of water navigation on the Mackenzie River I am in a position to report regarding the school supplies which have been received at Fort Good Hope. As a result of a radiogram to the Carpenter Foreman of this Department at that place I received the following reply, dated September 24th:-

"EXPECT SCHOOL TO BE READY FOR CLASSES BY DECEMBER FIRST ONE TEACH DESK, ABOUT 24 SCHOOL DESKS, GROCERY RATION, KITCHEN TABLE AND STOVE STORED AT SCHOOL. BOOKS, CLOTHING AT RCMP SO FAR HAVE NOT FOUND ANY OTHER FURNITURE FOR SCHOOL."

Evidently from the above, furniture for the classrooms has been received, as well as grocery rations and a kitchen table and stove, in addition to books and clothing. There appears to be a shortage of furniture to completely equip the living quarters in the manner which is probably required, on a permanent basis. However, this Department (Public Works) has beds, mattresses, kitchen equipment, etc., in connection with a camp which has been in operation for our construction crew. Thus, if your teacher arrives late this fall, there appears a chance of improvising from materials on hand so as to carry on over the coming winter.

The present indications are that the school will have reached such a stage of completion that classes can begin on December 1st or thereabouts. This is shortly after the end of the freeze-up period when our carpenter crew, which will have remained there over freeze-up, will be withdrawn from that place.

A general report regarding progress of construction of all schools is going forward to the Chief Engineer of the Public Works' Department and no doubt a copy will be transmitted to you.

Further work will be necessary in finishing the school next year. This has reference to completion of placing roofing on built-up tar and gravel roof, which work it was not advisable to do during the cold weather of this fall; placing of outside siding which was deferred in order to advance interior work when sub-tradesmen of plumbers, heaters, and electricians were at the site; and other miscellaneous finish work.

Yours truly,

W. J. Johnston

W. J. Johnston
DISTRICT ENGINEER.

Gentlemen:

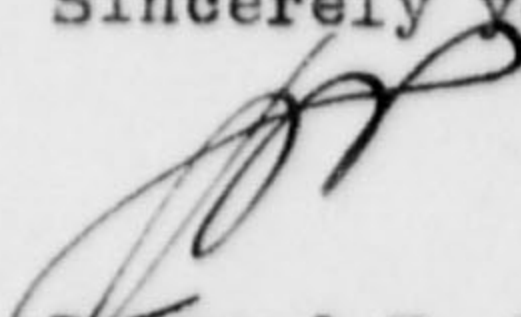

Re: Purchase Order 44004

We are in receipt of your Invoice No. 23252 dated July 9th, 1949, in an amount of \$186.00, covering the cost of an oil burning range which was shipped to L.C. Hunter, Superintendent, Indian Agency, Fort Norman, N.W.T.

Your account also includes an amount of \$4.46 for prepaid freight charges on the stove from Edmonton, to Waterways, Alberta. If you review Purchase Order 44004 you will note that it was issued on the basis of "supplying stove f.o.b. Waterways, Alberta".

Under the circumstances, we are not paying the item of \$4.46, and a cheque for \$186.00 will be forwarded to you. I am returning the freight receipt.

Sincerely yours,

Bernard F. Neary

Dear Sirs:

Re: Purchase Order 45506

We have just received your account for supplies forwarded to the teacher, Fort Good Hope Indian Day School, Fort Good Hope, N.W.T.

It is noted that there is an item of \$18.38 on the account reading "Freight to Waterways". If you review the Purchase Order you will note that it was issued on the basis of "F.O.B. Waterways". Consequently, it will be necessary for us to deduct the \$18.38 from the account.

There is also an item reading "Marine Insurance \$5.60". As far as the Education Division is concerned, we do not appear to have paid such an item in the past. We would like to be advised why it is charged on this account.

Sincerely yours,

PP/ST

For your information, I am attaching herewith copy of letter #2822 dated October 14th from District Engineer W. J. Johnston concerning the progress in construction of the school at Fort Good Hope, N.W.T. You will note Mr. Johnston anticipates that work for this season will be finished about December 1st and it would be advisable to have a caretaker and teacher dispatched to this location before the carpenter crew left there to maintain continuous heating in the building.

R. BLAIS, CHIEF ENGINEER, PWD - O T T A W A.

In Letter No. 2622 of September 30th I submitted a report on the progress of construction in various schools in the Northwest Territories.

In respect to Fort Good Hope, N.W.T., it was a little difficult at that time to advise definitely as to the stage of construction which might be reached on the school, as the existing weather conditions had a good deal to do with the situation. I am now advised that it would appear all work for this season on the school would be finished by December 1st. It would thus appear advisable for the Department of Education to arrange to have a janitor and teacher go north on the plane of Canadian Pacific Airlines leaving Edmonton Friday December 2nd. The teacher would thus be in a position to take over before our carpenter crew left there, and to maintain continuous heat in this building. It is not wise to close off the heat for a few weeks, if the present plans were that the teacher would arrive for opening of school on January 1st, 1950.

May this matter be drawn to the attention of Mr. B. F. Neary, Department of Education, Indian Affairs Branch, Ottawa.

Dear Sir:

RE: PURCHASE ORDER NO. 45506

Replying to your letter of October 17th re the above purchase order, we find that we charged out the invoices for both Fort Good Hope and Rocher River Indian Day Schools incorrectly, and not according to your tender.

We are therefore cancelling the invoice passed on August 25th re Fort Good Hope in the amount of \$577.65 and issuing a new invoice dated November 2nd in the amount of \$551.07. Similarly we are cancelling our invoice re Rocher River dated August 26th, in the amount of \$585.16 and issuing a new invoice dated November 2nd 1949 in the amount of \$574.04.

We attach hereto copies of the new invoices referred to above, and our credit note cancelling the two original invoices.

We sincerely regret this error, and trust that it has put you to no undue inconvenience.

Yours faithfully,

For the HUDSON'S BAY COMPANY

Dear Sirs,

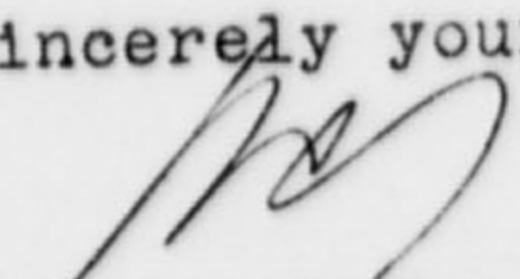

Re: Purchase Order 45506

We have just received your account for supplies forwarded to the teacher, Fort Good Hope Indian Day School, Fort Good Hope, N.W.T.

It is noted that there is an item of \$18.38 on the account reading "Freight to Waterways". If you review the Purchase Order you will note that it was issued on the basis of "F.O.B. Waterways." Consequently, it will be necessary for us to deduct the \$18.38 from the account.

There is also an item reading "Marine Insurance \$5.60". As far as the Education Division is concerned, we do not appear to have paid such an item in the past. We would like to be advised why it is charged on this account.

Sincerely yours,

Philip Phelan,
Chief, Education Division.

Re: Ft. Good Hope, Indian Day School.

On this date a copy of a Army message, forwarded to you by Mr. J.W. Mackinnon, School Inspector, has been sent to this office for my information by Mr. Mackinnon, having reference to the electrical power supply for the Ft. Good Hope Indian Day School.

I may state that in September 1949, I was aware that the Signals would be equipped to supply power to the Fort Good Hope Day School. At this time the local power unit had already been installed in the school, and the navigation season had ended insofar as obtaining a power line to be shipped to Good Hope for the purpose of installing a line from Signal power. Mr. W.J. Johnston, of the Department of Public Works, had known for some months previous to the installation of the local school plant that the R.C. Signals intended to install large power units for their own use and it was late September before I had it drawn to my attention that a separate power unit was to be installed in the Indian Day School.

It may be further stated that I made arrangements through Dr. Moore of Indian Health services to have a power line installed in the local Nursing station to be connected with the R.C. Signal power unit. Although Indian Health Services were contacted by Army message in September, full authority for installation of this power line, sanctioned by the Director of Signals, was not received at this office until December 6. I have not taken any action on this installation to date as I was intending to try and have the necessary materials shipped as far as Norman Wells N.W.T. by R.C.A.F.. The cost of shipping these materials by Canadian Pacific Airlines is exorbitant.

Mr. Mackinnon states that the

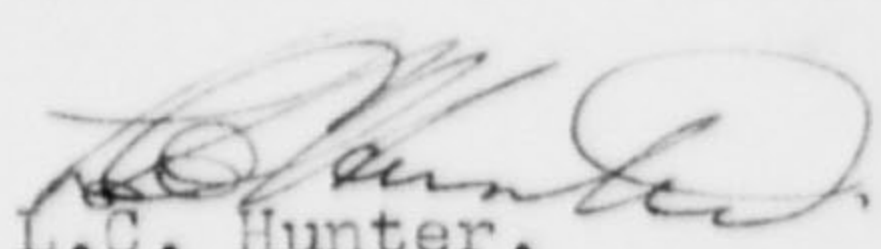

Indian Affairs (RG 10 Volume 6473, file 908-5, part 1)

THAT THE caretaker as employed by me at the Good Hope school is incapable of maintaining the Power Unit. This man has been on pay since November 1st, 1949, and under the supervision of the R.C.M.P. and the local D.F.W. foreman, Mr. D.L. Hawkins. I have not received any word from either of these parties, that the man was incapable. At the time this Indian was hired, you will recall that it was our intention to have a teacher at Ft. Good Hope by January 1950, which would mean that only thirteen more days of service would be required from the Indian.

Although I concur with Mr. Mackinnon's idea, that power from the R.C. Signals would be a great asset at the School, I do not concur that the cost of operation under the present set-up would be greater than the cost of shipping wire for a new power line by C.P. Airlines. I may further state that the power line to the Nursing Station, would have no connection with the power line to the school as the lines would run in entirely different directions.

The alternative, for the present set-up, would be to make arrangements through the R.C.A.F. at Edmonton, Alta and have the necessary materials forwarded as far as Norman Wells, N.W.T. by R.C.A.F. Aircraft. I intend on being in Edmonton, Alta., on December 22nd, and 23rd, and will approach Dr. Falconer of Indian Health Services with this proposal regarding the shipment of wire for the Nursing station.

L.C. Hunter,
Superintendent.

Dear Doctor Falconer:

Fort Good Hope Nursing Station - Electric Power

In reply to your letter of December 22, 1949, attached is a copy of a letter from the Department of National Defence, Army, and a copy of a letter from this Department to Mr. L.C. Hunter in connection with the power supply at Fort Good Hope.

If Mr. Johnson of the Department of Public Works is connecting up the school for Indian Affairs, similar arrangements for the nursing station would be satisfactory.

Any arrangement to purchase and ship the electrical material for both jobs will be satisfactory and Indian Health Services will pay its share of the cost.

Re: Electric Power for Indian School
Fort Good Hope, NWT.

Dear Dr. Keenleyside:

I have for reply your letter of the 28 December, 1949, being a request for our Signal Station to provide power to the Indian School at Fort Good Hope, NWT.

I am pleased to advise that we are now in a position to supply 5 KVA of electrical power to the Indian School and I understand from our local representatives that this will be adequate for your requirements. In past arrangements of this nature, your Department has usually supplied and installed the necessary line from the Signal Station power plant to your buildings and I assume that you will agree to a similar arrangement in this instance. I understand that the Signal's Warrant Officer at Fort Good Hope will arrange for his personnel to install the power lines when the materials are made available through your Department. I am sure your representatives will receive every co-operation from our Warrant Officer, who is being advised of the contents of this letter.

Yours sincerely,

Dear Colonel Neary:

Re: Electric Power for Fort Good Hope Indian Day School

Thanks for copy of your letter of January 26, 1950, to Mr. C. R. Anderson, Chief Architect's Branch, Department of Public Works, Ottawa. I would advise you to give the matter of the transfer of the power plant from Fort Good Hope to Arctic Red River considerable study before making any definite decision. It may be that I lack knowledge of just what is involved in this transfer. Wherever this plant is transferred, you should make sure that it will be used to light up the whole settlement. You might be reimbursed from the R.C.M.P. and any others who may connect to the line. It would be a very sound policy to give the R.C.M.P. free light on the understanding that their officer would attend to the plant. Members of the R.C.M.P. are usually mechanically inclined and would be able to attend to this matter.

Before the 16½ K.V.A. plants were purchased, I advocated the purchase of small 3,500 watt plants for our use. I wasn't invited to the meeting when it was agreed that the larger units would be purchased. Therefore, I did not have any say as to what type of equipment would be provided. However, we have the large plants -- so we must be realistic about the whole matter. It seems to me that it would be much better to move the plant to Fort McPherson and have it used to light up the school, nursing station, R.C.M.P. and any others wishing light. You might be able to make some kind of arrangement whereby the personnel of the nursing station or the R.C.M.P. would look after and maintain the plant for this service. This would remove your Department from the financial responsibility of maintenance and so forth. If the Arctic Red River school is to be made into an outpost school nursing station, it might be practical to move the two small plants from the nursing station at Fort Good Hope to Arctic Red River and use them for the school and nursing station. By having two small plants at Arctic Red River, there would be a stand-by at all times. Furthermore,

.... 2

CANADA

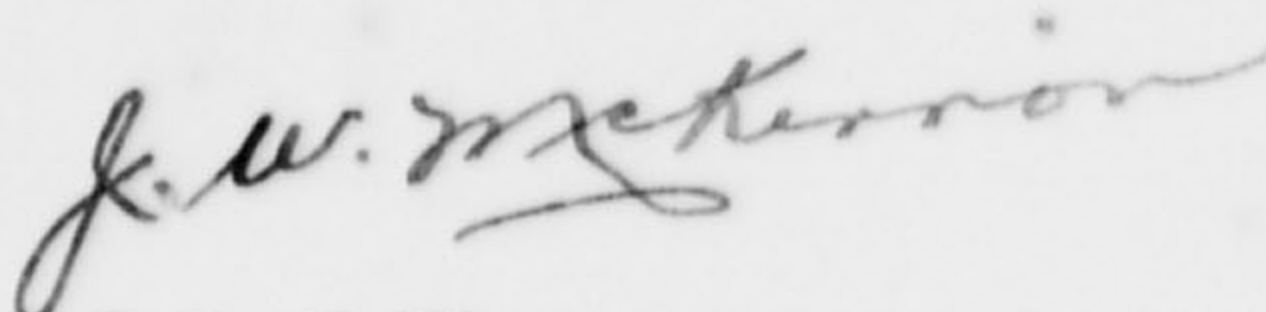

OUR COPY

the R.C.C.S. at Fort Good Hope purchased two 25½ K.V.A. plants on the understanding that the nursing station would connect to their power supply, so the nursing station will not require their two small plants.

Mr. Hall at Fort Norman is a well-qualified electrician. He informed me that the school at Fort Norman used 3,000 watts with everything turned on. I am inclined to the view that it would be much better to move the large plant to Fort McPherson for the use of the whole settlement and use the two small plants at Arctic Red River. I have discussed the above with Mr. Hall of Fort Norman who knows the local situation. He concurs in the above views. If it is possible to locate a small 2,500 or 3,000 watt plant to be installed along with the large unit, the situation would be clarified. The small plant could be used most of the time. It would operate at least 18 out of the 24 hours per day and result in a saving of at least \$100 per month in fuel. It would pay for itself in a few months and result in a saving of a thousand dollars or more each year.

I am submitting the above suggestions for your consideration as I am vitally interested in the complete success of our schools and in economizing wherever possible.

Yours very truly,

J.W. McKinnon,

Electric Power for Fort Good Hope Indian Day School

Reference your letter of January 30

Dear Mr. McKinnon:

Your suggestion with regard to the R.C.M.P. seems a sound one and I would suggest that you might discuss this matter with Mr. Hunter when you next see him. Having been in the R.C.M.P., no doubt a satisfactory arrangement can be worked out locally.

I have often wondered how the electrical plants and other equipment for these two-room Day schools in the Northwest Territories were decided. I certainly was not present at any meeting and I note that you were not there either. At the present time they are proving a source of great irritation to our Indian Superintendents and teachers. I wonder if we would not be better off without any type of lighting plant but just return to the old naptha lamp. The only one with which we have not had any difficulty is the unit at Fort Norman.

I would be very pleased if you would go into this whole matter with both Mr. Kirkby and Mr. Hunter and see whether a joint agreement cannot be reached with regard to the units at Fort Good Hope and Fort McPherson. These schools seem to have been designed on a rather complicated basis and therefore neither teachers nor other local

inhabitants can handle the electrical equipment. If they give all this trouble when they are new, I shudder to think of the correspondence, Army Messages, etc., which will flood into here when they are a few years older.

I am sending copies of this letter to both Mr. Kirkby and Mr. Hunter and I hope the three of you in the North can advise what should be done with regard to the electrical equipment and heating of the schools before work begins at Fort Franklin and Arctic Red River.

Sincerely yours,

Dear Sir:

On December 17, 1949, I stopped at Fort Good Hope long enough to inspect the new school building and would report as follows:

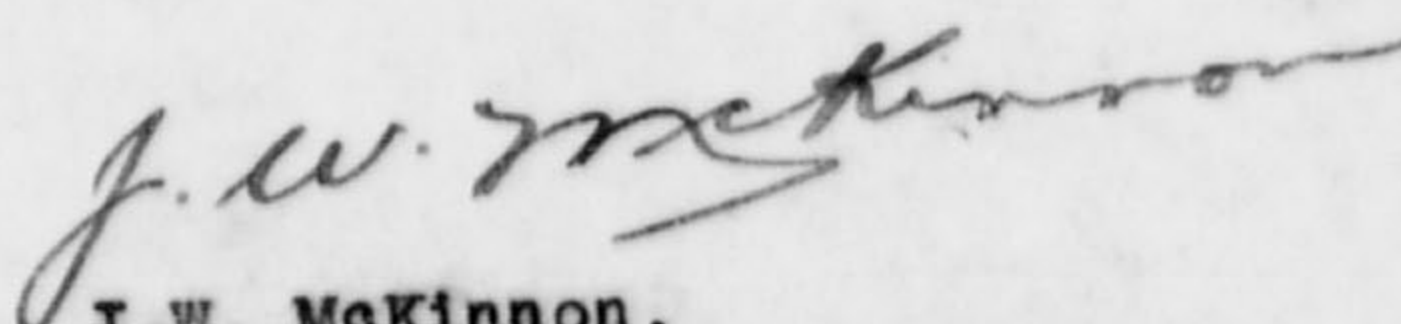

This building is in an unfinished state. I understand the Army plans to finish this project this summer. At present, one of the classrooms is on the way to completion; the other has much interior work to be done. The woodwork has not been finished or varnished. The floors are in a rough state. The walls are to be decorated and the outside of the building is to be sheeted.

I understand that this school has been connected with the local R.C.C.S. power supply. This is a good policy in view of the fact that there is no one available to attend to the local plant and that the local R.C.C.S. Station has an abundance of power for all local buildings.

It appears that this school is being well constructed and that we should have a very fine building when the interior and exterior work is completed, the plumbing connected to some outside set-up and the building finished in every detail.

A 2,000 gallon water tank, hot water heater, and shower room should be provided as has been provided at Fort Resolution. This is essential in the interests of good sanitation and health.

Yours very truly,

J.W. McKinnon,
Superintendent of Education,
Mackenzie District, N.W.T.

Dear Major MacKay:

The following wireless message,
dated March 7, has been received from Mr. J.W.
McKinnon, Superintendent of Education, Yellow-
knife, N.W.T.:

"Suggest Colonel Neary discuss with
Dr. P.E. Moore practicality of making
schools Fort Good Hope, Fort Franklyn
and Arctic Red River combined school
nursing station STOP This would re-
duce overhead costs and is supported
by Dr. Ward Aklavik believe this is
sound policy".

Dear Mr. Gibson:

This will confirm our telephone conversation which arose as a result of your letter of the 9th of March, concerning the use of certain Indian day schools in the Northwest Territories as combined nursing stations.

I attach, for your information, a copy of a letter sent by the Superintendent of Education to Mr. Indian Superintendent Hunter concerning the Arctic Red River School. In this letter you will find quoted in full Dr. Moore's comments concerning the proposal for a joint school and nursing station at Arctic Red River. The same conditions would of course apply at Fort Franklin and Fort Good Hope.

You will note that a copy of the attached letter has been sent directly to Mr. McKinnon.

Yours sincerely,

Director.

I am replying to your letter of January 25th in reference to Fort Good Hope, N.W.T., and the Indian Day School located there.

I was recently at Fort Good Hope and found that the heat had been withdrawn from the building and the caretaker dismissed. This was in accordance with arrangements made by Mr. L. C. Hunter, Superintendent of Indian Agencies; the work of withdrawing the heat having been carried out by the N.C.O., of Royal Canadian Corps of signals and the Royal Canadian Mounted Police.

There is no object in sending in wire or any materials for the construction of a poleline between the Signals Station and the School during the present winter. The materials should thus go forward at opening of navigation, with the work to be carried out next summer.

A spare copy of this letter is attached for the attention of Col. B. F. Neary, Department of Education, Indian Affairs Branch.

Memorandum:

DR. PROCTOR

Fort Good Hope Indian Day School

I gathered from recent correspondence with Mr. Gooderham that Dr. Falconer has written to you requesting a combined school and nursing station at Fort Good Hope. This school is now finished having been erected as a two-room school on the recommendation of Mr. J.W. McKinnon, Inspector of Schools. Mr. Gooderham has recommended the conversion of this building as a combined school and nursing station. He has suggested that a solid partition be placed between the two classrooms. One of the classrooms could be sub-divided by partitions to serve as a nursing station.

The apartment upstairs would be sub-divided to be available as two separate suites.

If your architect wishes to have a copy of the plans for this Fort Good Hope school he can obtain one by calling Mr. Buck at 7952.

As this school is now completed with a few minor details to be attended to, the expense of the alterations would have to be borne by Indian Health Services.

Dear Sirs:

I have this date received your Invoice in the amount of \$57.83, with attached letter of March 10, which was forwarded to the Superintendent, Indian Agency, Yellowknife, N.W.T.

Your Invoice shows an expenditure of \$3.22 for freight charges. Please be advised that any freight charges must be supported by a receipted bill of the carrier before payment can be authorized.

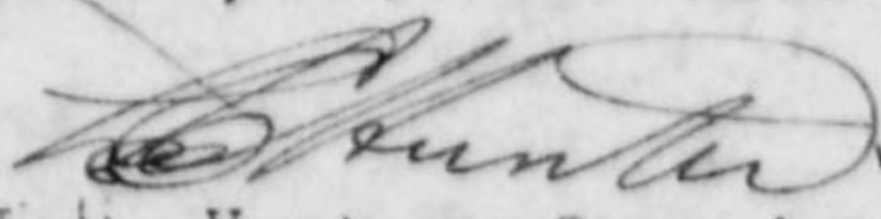

In order to expedite payment of this account, it would be appreciated if you would obtain the necessary freight bills and forward direct to Indian Affairs Branch, Dept. of Citizenship & Immigration, Ottawa, Ont, at the earliest possible date.

Yours very truly,

L. C. Hunter, Superintendent,

Dear Sirs:

We have recently received from the teacher of the Fort Good Hope Indian Day School, an account amounting to \$57.83 dated August 23rd, 1949, and marked "copy only".

The goods on this account were ordered by Purchase Order 44848. We received a previous account for the same amount, namely, \$57.83, but as one of the items on the account read "Freight charges re Mats 85¢" and there was no receipt from the transportation company, we paid the account at \$56.98.

If you forward a receipt from the transportation company for 85¢, we will pay same.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education

Misc. 4-1 Ft. Good Hope
" Ft. Franklin
" Arctic Red River.

9937 - 103 St., EDMONTON, July 14, 1949.

Mr. Bernard F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ontario.

Dear Sir:

I received your telegram of the 13th instant stating that you will try and have the teacher stay at Fort Norman, N.W.T., until the school is completed. You also mentioned it was not expedient to have the teacher remain at Fort Simpson, or at some other point temporarily until the teacher could be installed in the new school at Fort Good Hope. My reason for suggesting Fort Simpson was that there is property which I understand has been recently purchased for school purposes but I did not have full information as to what plans your Department might be making for supplying a teacher. In making that suggestion by radiogram I realize I was trespassing on a sphere of work which was not my own, but it was only done as a suggestion if it would relieve the problem of accommodation for several months until the Fort Good Hope school were fully completed.

In my radiogram I gave two dates of completion, namely October 15th and December 15th. The release of only fifty percent of the funds as supply has meant that we have had to hold back our construction activities so as to be assured the funds would not be exhausted before further money was granted. On this account a smaller crew was sent to Fort Good Hope than would otherwise have been the case, and the completion date of the building is thus set at December 15th. As mentioned in my radiogram, however, if it were possible to have the full grant for Fort Good Hope school made available immediately, further men could still be sent in so that the completion date could be advanced.

In regard to providing storage space for desks, janitor supplies, and food for the teacher, this will be attended to. I am sending instructions to Mr. D.L. Hawkins, our Foreman at Fort Good Hope, to take delivery of all these articles. Freight bills and the accounts for the purchase of the articles, will have to be attended to and I am asking him to send copies of the Bills of Lading as received by him, to me for forwarding to you. This should answer as your receipt so that the various accounts might be paid.

Since we hope to have the school at Fort Good Hope finished late this fall, the only method open was to send desks, janitor supplies, and food for the teacher. This would permit the building being occupied somewhere between October and December and classes in progress this winter.

In regard to the school at Fort Franklin, practically all our supplies are currently stored at Great Bear River where this Department has maintained a depot camp with a number of buildings situated there. The point on Great Bear River where the materials are stored is at St. Charles Rapids, where a portage road exists, said place of storage being about 40 miles west of Fort Franklin. It is intended to have all materials moved to Fort Franklin within the next several weeks, as it has not been possible to do so earlier on account of ice conditions in Great Bear Lake. A small carpenter crew is being placed at work at

Fort Franklin to receive materials, erect temporary buildings, arrange for gravel and pour foundations, and do such other preliminary work as may be possible this year. Actual construction would thus be advanced next spring.

In regard to Fort Franklin, if the Purchase Requisition has not already been issued for desks, chairs and tables for the teacher, I would suggest this be not done. There are articles of this type on hand owned by this Department at Great Bear River which are surplus to our needs and they would probably answer your requirements. These could be declared surplus to War Assets and no doubt made available to you at a nominal charge.

Similarly, if you have not ordered desks, chairs and table for the teacher at Arctic Red River, would you please advise, as it is possible I might be able to release articles of this nature also to you, on the same basis as at Fort Franklin.

RE: FORT FRANKLIN:

Practically all materials have been delivered at Great Bear River and are held in storage there over winter. This Department had several prefabricated buildings erected during previous years at Great Bear River and also had a crew of men at work there during 1948. This crew had the materials for Fort Franklin placed within the prefabricated buildings and also under our tarpaulins and tent shelters which were erected. It is intended to move the materials to destination at first barge in June, 1949.

This will confirm verbal instructions given yesterday to Mr. Simard concerning shipments of teachers' furnishings, desks, and stoves to the above two schools.

Due to the curtailment of building funds, the Department of Public Works will not be able to build these schools this summer, as planned. Therefore, requisitions for supplies should be cancelled forthwith. If this cancellation is not possible, then shipments should be diverted to the Department of Public Works' warehouse at Fort Smith, N.W.T., where arrangements have been made to store these items over the winter of 1949-50. If these requisitions have not been acted upon, they can be returned here. I have written to the Northern Transportation Company in Edmonton concerning the diversion of any shipments which might reach them.

Dear Colonel Anderson:

The Director of the Lands and Development Services Branch has forwarded to me a copy of the letter sent to you on April 23rd by Mr. W.J. Johnston, your District Engineer at Edmonton, with reference to the purchase of electric generating sets for the Indian Day Schools at Arctic Red River and Fort Franklin.

We note that both these schools are in isolated locations, and that no other Government buildings or projects are nearby so that no prospect is presented for the sharing of electric power generator.

Therefore an independent installation will be required, if we are to operate this school efficiently.

We have reviewed the correspondence sent to you by Mr. Johnston, and one of our officials has interviewed the Electrical Engineer of the Department of Lands and Development Services Branch. They are agreed that Mr. Johnston's recommendation for the purchase of the Lister Diesel Engine as supplied by Medland Machinery Limited be followed.

Would you please notify Mr. Johnston accordingly.

Yours sincerely,

Director.

Dear Sir:

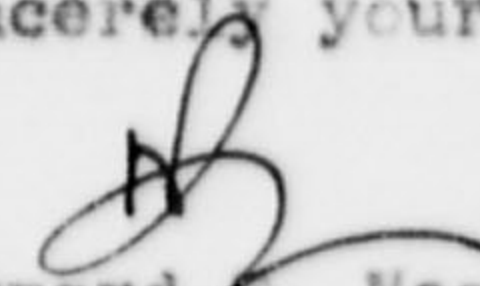

Arctic Red River Indian School
Fort Franklin Indian School

Since receiving your letter of July 14 with reference to these schools I have been able to stop all requisitions for rations, janitor supplies, desks, etc. I understand that the Fort Franklin school will be partially completed by the end of the building season but that the Arctic Red River School will not be ready until next year and possibly the year after that.

I appreciate your offer of the desks, chairs and table now stored at Great Bear River. If you would declare these surplus to your requirements, we will be glad to take them over through the War Assets Corporation. This would effect a considerable saving as desks are very expensive.

I presume that we can proceed in January or February to order the remaining items of furniture, etc., needed for the Fort Franklin school but that no action should be taken with regard to Arctic Red River.

Sincerely yours,

Mr. B. E. Neary,
Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ontario,

Dear Sir:

I acknowledge receipt of your letter of October 3rd in reference to Arctic Red River and Fort Franklin, N.W.T., schools.

The subject matter of your letter and the enquiries contained therein have, in part, been covered in my letter No. 2622 of September 30th to the Chief Engineer of the Department of Public Works, and regarding which I asked a copy be sent you.

Regarding Fort Franklin school, it was necessary to close down this work just prior to freeze-up so that our carpenters would not be caught there over freeze-up and run out of work. Owing to the lateness of the season it was impossible for workmen who should have installed the furnace and hot-air heating and also the electrical men, to arrive at this isolated point and complete their work, without the danger of being caught over the freeze-up period. Since these sub-tradesmen could not carry out their part of the work, it was impossible for the carpenters to continue on the finish work within the building.

In regard to Arctic Red River, it was impossible to make a start on this building owing to the curtailment of funds at the first of the season in 1949. Providing funds of the full amount requested are available early in 1950 construction season, there appears a very good chance of completing the school at Arctic Red River in 1950.

In regard to school supplies, janitor supplies, desks, furniture for the living quarters, rations for the teacher, etc., for the schools, I am having enquiries made now as to what has been received in a general way at each location. It will not be possible to get a complete statement until mails are received after the freeze-up period, as this period is just now beginning in the North. At that time I shall advise you of such information as I have, and give up-to-date suggestions regarding dates of forwarding school supplies, and so forth, for 1950.

If you will refer to my letter No. 2622, you will note that a large proportion of the school supplies have been received at Coppermine, N.W.T. This is indeed very fortunate, since it will now be possible to begin school sessions once the building is completed. Great care and priority will, however, have to be given to the ordering of teacher's rations, and in this connection I would suggest at that time that one and one-half years' supply be ordered. According to records of the shipping men there is an occasional year when no boats are able to get through the ice floes and reach Coppermine from Tuktoyaktuk. I do not want to be an alarmist about this, and it does not happen very often, but I have been reliably informed that this has happened

and might happen in some year in the future. Thus it is very important that a heavy surplus of staple foodstuffs be kept on hand at this point .

Dear Sir:

The question of supplies such as school desks, school supplies, books, janitor supplies, teachers residences equipment and furniture, teachers rations for Arctic Red River and Fort Franklin Indian Day schools has come up for review.

Would you please advise of the dates you expect these schools to be completed and ready for opening, as we are anxious to have the supplies forwarded as soon as possible to be certain that they will reach their destination on time.

Your recommendations would be appreciated.

Mr. Berbard F. Neary,
Superintendent of Indian Education,
Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ontario.

Dear Sir:

I acknowledge receipt of your letter of January 24th asking our completion date for schools at Arctic Red River, and Fort Franklin, N.W.T., so that you may order supplies for both locations.

X
According to present prospects both schools should be completed by October 1st, 1950, at the latest. In regard to your ordering supplies, however, may I suggest you withhold action for a couple of weeks. In regard to furniture, this Department has some furniture which will be surplus to its requirements at Great Bear River and regarding which I wrote you one time previously.

I am just collecting final data before leaving on a trip to the Lower Mackenzie and while en route shall visit all the places where school buildings have been built, or are under construction or contemplated, for your Department. On my return I shall have more time to give you the information you require. A couple of weeks' delay will not materially affect your placing of orders to go forward at opening of navigation. In this respect I shall give you all particulars regarding dates of shipment, routes, etc., although I think you already have all this data.

Yours truly,

W.J. Johnston

Dear Mr. Gibson:

This will confirm our telephone conversation which arose as a result of your letter of the 9th of March, concerning the use of certain Indian day schools in the Northwest Territories as combined nursing stations.

I attach, for your information, a copy of a letter sent by the Superintendent of Education to Mr. Indian Superintendent Hunter concerning the Arctic Red River School. In this letter you will find quoted in full Mr. Moore's comments concerning the proposal for a joint school and nursing station at Arctic Red River. The same conditions would of course apply at Fort Franklin and Fort Good Hope.

You will note that a copy of the attached letter has been sent directly to Mr. McKinnon.

Yours sincerely,

Re: Requisitions, Fort Franklin Indian School

Attached will be found the requisitions for the above school covering the requirements, that are at the present time known to be needed at this school.

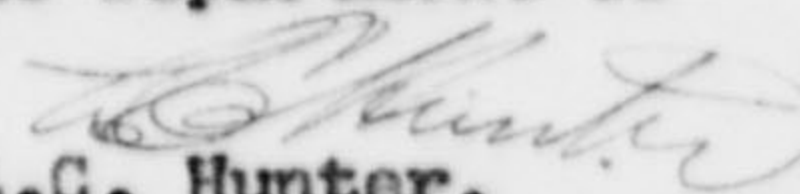

It will be noted that a requisition has been submitted to cover a radio and radio Transmitter, to have some method of communication with the Welfare teacher at that point. In a recent conversation with Mr. W.J. Johnston of the Department of Public Works, he informed me that his construction crew at Ft. Franklin had a radio Transmitter and Receiver, which would be left at Fort Franklin for use of the Indian Day School teacher.

In view of the above, one radio Receiver and one Radio Transmitter has been ordered for the Agency office at Ft. Norman, so as to allow communication with the teacher at Ft. Franklin.

It may be mentioned that the matter of obtaining licenses for these sets, would have to be taken up with the Department of Transport. At the present time the Transmitter at Ft. Franklin is operating on a license to the Department of Public works and use a frequency of 42 - 70 Megacycles. It is possible that this license could be transferred to Indian Affairs Branch.

It would be necessary to obtain the license for the Fort Norman Transmitter, before the Transmitter could be ordered as it would necessarily have to be set according to the frequency allotted by the Department of Transport.

MAJOR D.M. MACKAY

Re: Fort Franklin Indian Day School

It is expected that this school will be ready for occupancy in the fall of 1950, and we have just received letter dated March 16th from Superintendent Hunter, enclosing requisitions for supplies.

You will note from Mr. Hunter's letter that he considers it necessary to have some method of communication with the teacher at Fort Franklin, and that the Public Works Department intend to leave a radio transmitter for the use of the teacher. Mr. Hunter, therefore, forwards a requisition for similar equipment for the Agency office at Fort Norman.

We would appreciate it if you would let us know if you consider this equipment should be supplied. If so, it is presumed that it will not be necessary for the appropriation for Indian Education to bear the whole cost, as the equipment will probably be used for other business than that referring to the operation of the Fort Franklin School.

With regard to the last paragraph of Mr. Hunter's letter, I do not think there will be any difficulty in obtaining a free radio license, as the Department of Transport supply us with free licenses at those schools where a radio is in use.

G.C.W. Browne, Esq.,
Controller of Radio,

Ottawa, Ontario.

Dear Sir:

The Indian Affairs Branch wishes to purchase a radio and radio transmitter in order to have a method of communication by our Indian Superintendent, L.C. Hunter, Fort Norman, N.W.T., with the teacher of the Indian Day School at Fort Franklin, N.W.T.

When the Fort Franklin School was constructed during the past summer under the direction of the Public Works Department, they had a radio transmitter and receiver at Fort Franklin, and it was their intention to leave this for the use of the Indian Day School teacher. The new radio receiver and radio transmitter which we wish to order would be placed at Fort Norman with Superintendent Hunter.

The transmitter which the Public Works Department left at Fort Franklin was operating on a licence to the Department of Public Works, and uses a frequency of 42 - 70 Megacycles.

We will, therefore, require a licence for the Fort Norman transmitter and a renewal on the licence previously granted to the Public Works Department for the transmitter at Fort Franklin.

We have your letter of the 16th ultimo enclosing requisitions for supplies required for the Fort Franklin School.

We are communicating with the Department of Transport with reference to the licence required at Fort Norman, and as soon as we hear from them we will place an order for the equipment. We will also arrange purchase of the items mentioned on your other requisitions.

When purchasing the new equipment for Fort Norman, it has been decided by the Director that half of the cost will be paid from the Agencies' Appropriation and the remaining half from the appropriation for Indian Education.

Dear Colonel Anderson:

Our Superintendent of Education recently discussed with your District Engineer from Edmonton the work being done on the above school and the plans for its completion by next autumn.

We agree with the proposal that the original plumbing installation be changed and that the best terms possible be made with the sub-contractor concerned. It is understood that considerable difficulty is being experienced with other similar plumbing installations, due to the permafrost being encountered. I understand that Mr. Johnston will give some consideration to the installation of a chemical toilet in this school.

FORT NORMAN, N.W.T.

Discussions Messrs PA
Hunter & Neary Fort Franklin 5
April /50

Building completed and in operation and no changes suggested.

FORT FRANKLIN, N.W.T.

Only one classroom to be used at outset for school purposes. Space adjoining accordion doors between two classrooms (as originally planned) to be made solid partitions and sound-proofed, so adjoining classroom might be used for medical examinations. Complete conversion of building to serve jointly as school and nursing station is not suggested at this time.

As Generating Plant, A.C., is now delivered at site, it is to be installed as originally planned.

Plumbing installation originally proposed to be cancelled, and best terms possible made with sub-contractor. Consideration to be given to installation of some form of chemical toilet.

FORT GOOD HOPE, N.W.T.

Complete conversion of building to answer as school and nursing station recommended. This will require solid partition and sound-proofing between two original classrooms, and subdivision of one classroom by partitions to serve as nursing station. Apartment upstairs to be sub-divided, to be available at any time as two suites in event teacher and nurse may not be man and wife; and also taking advantage of construction crew while at work here and available for alterations. Plans for alterations to be completed by architectural branch.

FORT GOOD HOPE (Cont'd).

Since electric generator, A.C., is now installed, and arrangements have been made with Royal Canadian Corps of Signals to provide electricity, the generator at school to remain there as a reserve unit. A point also to be considered is that R.C.C. Signals, in addition to supplying their own requirements will also supply school building and warden's cabin and a stand-by unit is desirable to be available in case of plant break-down or repairs. Also considerable expense would be involved in dismantling the plant now installed in school building.

ARCTIC RED RIVER, N.W.T.

Scheme for a Two Classroom Day School and Teachers' Quarters to be abandoned, and instead a One Classroom School and Teacher's Quarters to be built in accordance with existing plans and specifications available.

Bills of Materials for One Classroom School and Teacher's Quarters to be checked against materials, either on hand or intended to have been provided for Two Classroom Day School and Teachers' Quarters. Any surplus of materials to be shipped this year to Fort McPherson. School building at Arctic Red River to be built this year, using materials intended for Two Classroom School and Teachers' Quarters, and providing any additional material if necessary.

Plumbing installation originally proposed to be cancelled, and best terms possible made with sub-contractors.

Hot air heating originally intended for Two Classroom School to be checked on by Architectural Branch to see if it could be used with modifications in One Classroom School and Teacher's Quarters.

Electricity sub-contract now in effect be negotiated on basis of One Classroom School and Teacher's Quarters.

Electric generator to be supplied in keeping with reduced requirements, and arrangements made to install electric wiring in school. If R.C.M.P. desire to share in cost of construction and maintenance, this can be arranged for by providing a larger unit for combined needs.

No provision of any kind to be made for Nursing Station facilities.

Mr. W. J. Johnston,

Fort Franklin Indian Day School

Dear Mr. Johnston:

You will recall our previous discussions with regard to the installation of a solid partition between the two classrooms instead of the accordian doors, as planned. The idea in our minds was that one classroom could be used for medical examinations.

I have been after our Architects on several other jobs and am afraid that they have now enough work before them to prevent the necessary alterations being carried out for at least two months. I was just told that practically every architect has been put on a job at the new Cape Breton National Park and that all our work will be delayed.

Therefore I am afraid that we will have to go ahead with the accordian door plan and leave the classrooms exactly as designed.

In my letter to the Chief Engineer, I have therefore neglected to make any reference whatsoever to the solid

partition between the classrooms as I know that you would just be held up for months in the completion of this building. Indian Health Services will only be using the building occasionally and no great hardship should be suffered by them in this change of plan.

You should get a letter soon from Colonel Anderson concerning the plumbing installations. I am attaching the complete data on the "Hygeosan" toilets which we are using in our schools in Eastern Canada and which I believe would be quite satisfactory at Fort Franklin and Arctic Red River. Do not hesitate to write to this company in Toronto concerning these units as we have found them very co-operative. They have university engineers on their staff, who can answer any questions. The cost per seat is \$175.00. This includes the bowl, pipe, septic tank, etc. For example, if you order a three-bowl unit, the cost would be \$525.00, which would cover everything including the extra length septic tank and also the school type installation. When ordering you should let them know these are for Indian schools, so that you will get fast delivery.

Yours sincerely,

OTTAWA, May 16th, 1950.

Sir:

I have for acknowledgement your letter of May 11th, dealing further with your proposal to establish a station at Fort Franklin, which would be used for communication with the RCCS Station, which is located at Fort Norman, N.W.T.

In this connection I now wish to advise that The Department of National Defence have indicated that their Fort Norman Station is prepared to supply you with the terminal facilities required. If you are still anxious to establish your proposed station, I should be glad if you would complete the forms which were previously forwarded to you and return same to this office, in order that formal action may be taken in this matter.

For your further information I would point out that the Department of National Defence have also indicated that their Fort Norman Station receives traffic on the frequency 3040 kc/s and not on the frequency 4270 kc/s as was previously advised.

Yours faithfully,

G.C.W. Browne

YOUR FILE REF: 909-5

Dear Colonel Neary:

I acknowledge your letter of May 11th and note that the Fort Franklin, N.W.T., Indian day school is to be completed in accordance with the original plan. This means that the accordion doors are to be placed separating two classrooms, as per the plan, and that no additional work is to be done to deaden any noise which might occur if one classroom were used occasionally by the Medical Doctor for his work. Plans will thus be completed here for the carpenter work on this building to be as per original plans and specifications.

The booklets regarding "Hygeosan" Septic Toilet Combinations are also acknowledged, and it is noted that an official letter will be received soon from Col. A. A. Anderson of this Department at Ottawa concerning plumbing installations. We shall await the arrival of this letter since I assume it is intended to abandon the plumbing installation on the original plans and for which a contract is now in effect. Presumably the "Hygeosan" septic tank combination will be used instead. In this connection this office will contact the Rural Sewage Disposal Equipment Limited of Toronto, Ontario in order to gain all possible information.

For your information, I am leaving the end of this week to take up permanent duties at the Headquarters of this Department at Ottawa. I shall be glad to be of any assistance to you from now, as in the past. I am turning over the

Fort Franklin Indian Day School

Dear Sir:

I have been advised with regard to the difficulty in the present plumbing installations required for the two-room Indian day schools with attached teacherages, being constructed in the Northwest Territories.

Elsewhere we have been arranging for the installation of septic toilet combinations which require but a pail of water per bowl per day. There are two companies providing this equipment, some systems of which are particularly designed for school purposes. They are:

1. Rural Sewage Disposal Equipment, Limited,
2067 Dundas St. W., Toronto, Ontario.
2. Caustic Sanitation, Limited,
189 King Street, Dundas, Ontario.

Therefore, it will be in order to cancel the present plumbing contracts and to make the best possible terms with the plumbing tenderer. I would suggest that this matter be left for negotiating with the present Acting District Engineer at Edmonton.

The cost per seat of the septic toilets averages \$175.00 per seat, which includes the bowl, pipe, septic tank, etc. In the case of the Fort Franklin School, a five-bowl unit would

be required with two bowls for the boys, two bowls for the girls and one bowl for the teacher. You will note that they are on thirty-six inch centres so that partitions can be erected between any combination of units. Consideration will have to be given to installing these units in a separate building because of the Permafrost conditions. Installation of these units in the present building might cause foundation settlement due to the heat generated.

Yours sincerely,

Bernard F. Deary,
Superintendent of Education.

Due to the very isolated conditions which exist at the above Indian Day School, it is desirable that the teacher be provided with a radio transmitter.

Would it be possible for us to obtain from your Department the radio set used by the construction crew? This would save considerable expense in sending in a new transmitter.

It would be appreciated if we could also be advised as to the call letters of this radio station.

Misc.4-1 Fort Franklin

9937 - 103 St., EDMONTON, June 28, 1950.

A.A. ANDERSON, A/CHIEF ENGINEER, PWD - OTTAWA.

I acknowledge receipt of your letter of June 20th with attached letter from the Superintendent of Education, Indian Affairs Branch, concerning the plumbing installations at Fort Franklin Indian Day School.

The plumbing Contractor - H. Kelly & Company - has been instructed to present his claim on the cancellation of the plumbing installation at the Fort Franklin school. No materials were delivered to the site at Fort Franklin but they are held in stores at Fort Smith. The Contractor has given no indication to date of what action he is taking towards the disposal of these fixtures but it is presumed that he is waiting for the results of a call for Tender on plumbing installations in the buildings now under construction by this Department at Fort Smith and Hay River, and if H. Kelly & Company are successful in obtaining the work of this season, the surplus equipment can be utilized to their gain; otherwise they will have to dispose of it as best they can and may insist that the Department take these materials over.

The suggested septic toilets have been given some study by the Engineers of this office and from their knowledge of the terrain at Fort Franklin the opinion is that the Hygeosan Septic Toilet is not feasible for this location.

The Fort Franklin school is sited on a southern slope leading down to the lake. This slope is moss-covered and in the perma-frost area with very little over-burden above the solid rock. Reports from workmen who placed the piers under this building are that many of the piers are on solid rock, and the balance of them not far from rock. Under these circumstances it will be difficult to obtain cover for the septic tank under the toilet. The ground conditions are subject to continual freezing and unless this steel tank was well insulated, it is very doubtful if the installation would work even in the summer time. The discharge from the septic tank is by continual overflow with no siphoning, and it is believed that with the low temperatures prevailing at Fort Franklin the pipe leading from the septic tank to the cesspit will soon ice up and the installation be inoperative.

In view of the above opinions it is felt that the installation as suggested is not feasible. This, however, is only the opinion formed by the Edmonton District Office and it is possible that the Indian Affairs Branch may have made installations in other northern areas, and if so, I ask that we be given more detail on the installation of this type of fixture and on what methods are taken to safeguard it from freezing. The folios and literature presented by the manufacturers give no assurance or indication that this equipment will operate under the conditions that will be experienced in the school installations not only at Fort Franklin, but also at Fort Norman, Arctic Red River, and other points in the Northwest Territories.

In view of the ground conditions prevailing in this area, my recommendation is that standard outside toilets be constructed by the Department of Public Works' construction crew this summer, as these are a necessity at all points, ^{and} as it is the rule rather than the exception that inside toilet installations are inoperative a great deal of the time through uncontrollable factors, mainly weather.

A copy of your letter of June 16th with attached descriptive circulars for sewage disposal intended for Fort Franklin school was referred to the Acting District Engineer J.E. Kellett at Edmonton, with instructions to look after the installations as requested by you and report when the work had been completed.

I am attaching hereto a copy of Mr. Kellett's reply dated June 28th in which he states the original plumbing contractor, H. Kelly and Company, has been instructed to present his claim on the cancellation of the plumbing installation at the Fort Franklin school. He states no materials were delivered to the site at Fort Franklin, but they are held in storage at Fort Smith.

Mr. Kellett further states that due to the difficult ground conditions and lack of any depth of soil near the school at Fort Franklin, he does not think that the septic tank type of toilets will prove satisfactory. His recommendation is that standard outside toilets be constructed and he states that no action will be taken towards the installation of the septic toilet accommodations, until he receives further advice from us.

Would you kindly study the contents of Mr. Kellett's letter and let me have your further instructions at your earliest convenience.

Re: Fort Franklin Indian Day School.

I wish to refer to your letter of June 6, 1950, regarding radio transmitter and receivers for Fort Franklin Indian Day school and Fort Norman Agency Office.

As requested in your letter, I have contacted the N.C.O. in charge Royal Canadian Signals at Fort Norman, and have been informed that if necessary arrangements can be made where they can have daily contact with our school Radio at Fort Franklin.

I realize that the Department of Transport are not in favor of allowing to many Radio Transmitter stations to be licensed, however I do think that if we were allowed to have a Transmitter in our office that it would be a great asset in carrying on our welfare work with the Day School teacher at Franklin.

Dear Sir:

We have noted the contents of Mr. Kellett's letter and note that the Engineers do not feel that the septic tank type of toilet is feasible at Fort Franklin.

We have no knowledge of this equipment having been tried out in the far north although it is working in schools in northern Ontario.

We are therefore prepared to agree with your recommendation with regard to outside toilets.

Fort Franklin School - Fuel

Ref. your N.W.T. 12967-2 Misc. 4-1

Dear Colonel Anderson:

Upon receipt of your letter I immediately sent an Army Message to Mr. Indian Superintendent Hunter at Fort Norman concerning the oil requirements at Fort Franklin. His reply is as follows:

"To Be Safe Would Estimate 12,000 Gallons Fuel For Franklin School Plus Fuel and Lub Oil For Lighting Plant Stop To-day Have Had No Experience With These Lighting Plants And Cannot Estimate Consumption"

Would it be possible to use the additional funds from the Artic Red River project for the purchase of this oil? I doubt how much extra of this money will be spent at Fort McPherson this year as I do not visualize that the crew will be able to do more than move the materials from Artic Red River to Fort McPherson. This would mean that additional funds will be available for use in the purchase of oil at Fort Franklin.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

OTTAWA, July 18th, 1950.

Superintendent of Education Services,
Indian Affairs Branch,
Department of Citizenship and Immigration,
O t t a w a.

In response to your inquiry of last month concerning the radio transmitter in use on the Great Bear River road, I enclose a copy of a letter dated July 11th from Mr. J.E. Kellett, Acting District Engineer, Edmonton, in which he states that this transmitter is now in use on the Great Bear River road but could be transferred to you for use of the schoolteacher at Fort Franklin school about the end of August when it is expected that the road work will be completed.

Call letters of this machine are XLA 41 and it operates on a wave length of 4270. Mr. Kellett also states that the carpenter crew now engaged on building the school at Fort Franklin are using a small combined transmitter and receiving set but they will be finished with it some time in November. Will your Branch require the transfer of this small instrument also?

R. BLAIS, CHIEF ENGINEER, O T T A W A.

In reply to your letter June 22, in which you enquire if the radio transmitter in use on the Great Bear River Road will be available for transfer to Indian Affairs Branch, Department of Citizenship and Immigration, when the school teacher takes over the duties at Fort Franklin school. I have made enquiries of the engineer in charge of this work regarding this transfer.

He states that the call letters of this machine are XLA41 operating on wave length of 4270. The work will be completed at Bear River Road at the end of August and the radio set can be transferred at that time.

There is also a small combined transmitter and receiving set available from the Bear River Road. This instrument is presently in use by the carpenter crew engaged building the school house but they will be through with this instrument in October or November at the latest. Will Indian Affairs Branch require the transfer of this small instrument also?

Attention: Mr. E. Bennett

Dear Sir:

Fort Franklin Indian Day School

Reference your 6208-182 and 6208-916 of May 16th.

Upon receipt of your letter of May 16th we advised our Indian Superintendent at Fort Norman of the facilities which the Department of National Defence are prepared to supply us.

It is our intention to forward an Application for Licence to install and operate a radio station in Canada to you when we receive the necessary information.

This station will use a transmitter which is now in the service of the Department of Public Works. The call letters of this machine are XIA 41 and it operates on a wave length of 4270. It is likely that we will also have a small combined transmitter and receiving set now being used by the carpenter crew which is erecting the school. We will advise you later concerning this.

Yours sincerely,

Dear Sir:

Re: Fort Franklin Indian Day School

On June 28, 1950, I stopped for a short time at Fort Franklin and surveyed the local situation. There were about twenty Indian families at the post at the time of my visit. They live in log shacks and tents. There is great need of education at this point as sanitary conditions have much to be desired.

There were about twenty-five children of school age in the post at the time of my visit. The children appeared to be badly neglected.

Fort Franklin is, without a doubt, the most unattractive place in the Mackenzie District. The settlement borders on the western end of Great Bear Lake. It appears to have grown up without any plan or purpose. A long growth of vegetation covers the swampy ground. This is infested with mosquitoes and bull flies. At the time of my visit, the place was alive with flies and mosquitoes. Besides this, the air was filled with the smell of dogs as they are tethered in the settlement. The teacher engaged for Fort Franklin will require a sympathetic, helpful hand from Ottawa as his task will be an arduous one.

The school building has been built about 100 yards or more from the edge of Great Bear Lake. It is located in the swamp and mud. The building may sag and heave out of shape this coming winter. As I took some pictures of this site, I shall send you some of them as soon as they have been developed. You will recall that W. J. Johnston, Chief Engineer, D. P. W., and I selected a good site close to the new Hudson's Bay Store; this site would have been ideal as it is on dry, high land. It was also fairly central for the children; whereas the present site is at the far end of the settlement. It will be necessary to level the grounds

about the school, otherwise it will be impossible to use it for playground purposes.

The building is well under construction. It should be completed this summer. A well-qualified engineer should periodically check the work on this building in order to ensure good work.

The large ¹²⁵~~12~~ K.V.A. alternating current generator (similar to that installed at Fort Good Hope and Fort Resolution) will be a continual source of irritation if steps are not taken to prevent same. I have discussed the suitability of this type of generator with officers of the R.C.C.S. and others who are familiar with this type of equipment. They are not in favour of this type of lighting plant as it is too large for our needs. These generators are quite large and beyond the stage where a handyman can care for them; they require the care of an expert. As Fort Franklin is isolated from the rest of the world for many months of the year, a small 1000 Watt emergency A.C. generator should be provided or else a D.C. generator should replace the A.C. plant which I understand is now on site. You will realize that it is necessary to operate an alternating current plant twenty-four hours a day in order to keep the electric furnace operating; whereas a direct current plant will require eight or ten hours of operation per week. With a direct current plant, I believe the savings in fuel alone would amount to well over \$100.00 per month.

Respectfully submitted,

J.W. McKinnon,

The plans and specifications for the above school were prepared by your engineers, and we would appreciate having your comments regarding the type of equipment that was specified. I might add that we have had considerable trouble at Hay River and Fort Good Hope, where similar equipment was supplied.

Dear Sirs:

On behalf of the residents of Rocher River, N.W.T., I am sending you this petition with a list of names of people residing here with children of school age.

The people feel that a school is essential so that their children can get some education.

Hoping this petition will meet with some success.

Yours truly,

sgd. G.H. Greenaway.

EX'D.
A.

Dear Sir:

I wish to acknowledge receipt of the petition forwarded on behalf of the residents of Rocher River with regard to the establishment of a school.

This letter was forwarded to me by Mr. J. W. McKinnon, Superintendent of Schools of the Bureau of Northwest Territories and Yukon Affairs.

We have included in our estimates a sum for the construction of an Indian day school at Rocher River. At present these estimates have not yet been finalized but we hope that this amount will be left in for action. However, the big difficulty will be, naturally, the actual construction of the school. We have experienced great difficulty in building day schools this last year, as contractors are simply not interested in this type of building. We have even been experimenting with prefabricated schools in order to overcome the great shortage.

I would appreciate any comments from you as to the possibility of interesting anyone in the construction of a school at Rocher River.

Yours sincerely,

Bernard F. Neary,
Supt. of Welfare & Training.

PRECIS FOR THE CLERK OF THE PRIVY COUNCIL

Establishment of Roher River Indian Day School,
Fort Norman Indian Agency, Northwest Territories. Two extra copies
of Order-in-Council are required.

The undersigned has the honour to report:

THAT there are twenty-five (25) Indian children
and twelve (12) non-Indian children in the Roher River
district, Fort Norman Indian Agency of the Northwest
Territories, for whom educational facilities are required;

THAT the Indian Affairs Branch has agreed with
the Northwest Territories and Yukon Administration to
conduct a school at Roher River for the education of
Indian and non-Indian children;

THAT funds are available in Vote 218, 1948-49,
Indian Affairs Branch, Department of Mines and Resources,
for the establishment of a day school for these children.

The undersigned, therefore, recommends that
a day school be established at Roher River, in the Fort
Norman Indian Agency of the Northwest Territories, in
accordance with the provisions of Section 9 (a) of the
Indian Act, Chapter 98, 1927, to be known as the "Roher
River Indian Day School".

Respectfully submitted,

Minister of Mines and Resources.

Dear Mr. Bellavance:

I have received your application for employment in one of our Indian day schools.

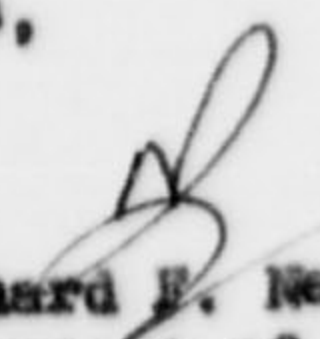

We have several vacancies which might interest you. One of these is a new school which we are now building at Rochar River, in the Northwest Territories. This will be a new school opening for the first time and the Department of Public Works is doing everything possible to have the building finished for September.

We have other vacancies as well, including two new schools near Edmonton, and others in British Columbia. We are anxious to obtain Catholic teachers for all these schools.

In view of your qualifications and experience, we would be able to offer you a salary of \$192.00 a teaching month, effective 1 September, 1948.

If there are any further questions which you would like to ask concerning the Rochar River School or the others, I would be glad to hear from you.

Sincerely yours,

Bernard E. Neary,
Superintendent of Education.

Dear Sir:- RE FILE: 142-5-1

In reply to your letter of the 9th instant, I wish to say that the Rocker River School would suit me, as I'm very fond of the North.

If possible, I would appreciate your supplying me with a map of the N.W.T., so I'll know the exact location of the school in question.

I would also appreciate particulars about the living accommodations there, so I'll know what I need to take along in the line of furniture, bedding, and kitchen utensils.

There is one suggestion I wish to submit for your consideration with

regard to dental care among Indians.
I've often wished I had known how to
freeze gums and pull teeth, as most Indian
Reservations are not within easy access of
a dentist; and consequently, Indians
have to suffer weeks (if not months)
before they can have an aching tooth
attended to. If the Department were
willing to reimburse the dentist's
fee, I would be only too glad to
arrange with a local dentist to give
me the lessons required to enable me
to perform this needed service to Indians.

If you have any available
information as to the means of travel
in order to reach Rocher River, I'd be
glad to have it.

Yours very truly,

PA on
Rocher
River
Excerpt from Annual Report on Rocher River of the Fort
Resolution Northwest Territories Agency, dated 1947-48.

Rocher River.

42 Indian families, totalling 96 Indians live at Rocher River. The Half-Breed and white people increase the population to 140. Approximately 25 miles up the Taltson River is another settlement - Rat River, where a few Indians and white trappers live. For the purpose of this report Rocher River and Rat River are considered as one settlement.

Rocher River is an ideal location for an Indian Village. Fishing is good and caribou are available during the open season. Fur is by no means plentiful but there is enough, including the spring rat hunt, to afford a living to an Indian who will try to support his family.

In spite of the above, and even though the Indians are Chipewyans of the same band as those at Fort Resolution and Snowdrift, Rocher River is the dirtiest and most poverty-stricken settlement in the agency. I flew into Rocher River early last June and the stench of garbage and rotting caribou hides tossed out of the front doors and along the river bank where the dogs are tied the uncleanness of the homes and the general filth of the settlement were a revelation. The place was cleaned up somewhat when I threatened prosecution under the Public Health Ordinance but probably will be just as dirty this spring.

The people at Rocher River make very little effort to support themselves and none at all to improve their conditions. During a recent visit I found caribou drying in only one house, that of the Chief, Pierre Frise. The usual routine is to sleep all morning then to loaf and play cards for the remainder of the day and all night.

These people are almost completely demoralized. I recently treated a 14 year old girl for V.D.G. and found her to be four months pregnant. Three white trappers, brothers, of Rat River have been fathers of illegitimate babies by Treaty Indian women, the youngest brother becoming a father in January of this year. Several girls have had more than one illegitimate child and several Treaty Indian women, some of them married, are living with Half-Breeds in common-law status.

Indian Affairs (RG 10 Volume 6474, file 910-1, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

The only reason that I can see for the situation at Rocher River is the influence of the white people who live in that settlement. Mr. E.R. DeMelt, a free trader and his common-law wife, Mrs. Rose Metcalfe, came to Rocher River approximately ten years ago. They run a small store and a small sawmill. In addition, Mr. DeMelt has a trapping license.

The Rocher River Indians require help, not financial assistance but mental stimulation. The natural resources could very easily sustain the population. There is no place within a hundred miles of Rocher River and Rat River which is as suitable for people living in the Indian fashion.

Dear Mr. Bellavance:

I understand that you are interested in two of our schools, namely Rocher River, in the Northwest Territories, and Seine River, in the Fort Frances Agency, Ontario.

I am now able to advise you that the Rocher River School will not likely be completed by the end of the summer holidays and therefore will not likely be open during the 1948-49 academic year. However, we do have a school in the Northwest Territories, at Fort Norman, which might interest you. It has now been open for two years and has been operated by the wife of one of the Signallers stationed there by the Department of National Defence. As pointed out in my letter of June 9, you would be entitled, in all probability, to a Northern Living Allowance if you accepted this school.

I would like to hear from you as soon as possible as to whether you wish to accept either the Seine River School or the Fort Norman School.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Extract from report from Mr. Johnston, District Engineer dated October 18th on the Rocher River Day School.

RE: ROCHER RIVER.

The 2 Classroom Day School and Teachers' Quarters has been erected and has outside finish on the walls and a built-up tar and gravel roof recently completed by a roofing contractor from Edmonton. The roughing-in has been done for electricity. The hot-air furnace and heating ducts are now being installed. It was not possible for the plumbing contractor to deliver materials to destination this year, owing, in part to the lateness in which the contract was let, and also to the fact that there are only about four boats per season from Fort Smith to this point. Carpenter work has advanced to a point where three carpenters could finish by early December. Work on this project was closed down for the season on the 16th instant, largely due to the impossibility of having a generator delivered which was necessary for operation of the blower in connection with the hot-air furnace. I wrote you by letter # 2961 on October 6th, in reference to specifications calling for a fully automatic electric generating machine and the reluctance of firms to supply this unit. I am still awaiting your instructions if a manually controlled machine could be installed.

So far as I know, no desks or classroom fittings have been received at Rocher River, and there is no furniture on hand for the teachers' quarters. In fact the arrival of these fittings, furniture and so forth, at a settlement where there is little, if any, warehouse storage space, presents a problem and it is doubtful if such should be delivered until the school building is ready to receive these articles, which represent a considerable investment. It should, however, be possible to begin work next spring on the school project and have it completed early in June when the first boat arrives there. Incoming shipments of furniture, classroom supplies, fittings, rations for the teacher and so forth should be scheduled to arrive on the first boat arriving at Rocher River next year. That would permit the opening of school by July 1st if this were desired. TO REACH WATERWAYS MAY 15TH FOR FORWARDING BY HUDSON'S BAY CO.

Dear Sir,

Thank you for your letter of October 16th.

Regarding the school supplies, most of these have arrived and in my warehouse at present there is a very heavy case which I have reason to believe contains school stationery, pencils, etc. There may be more stored in Demelt's warehouse. I know the little furniture that came in is stored there at present. No school desks arrived yet.

Mail continues to arrive for the principal and I am taking care of that end of it. There is also a complete sound movie projector for the school and a radio and gramophone record player for the teacher.

Before a teacher could commence duties here, the school-room would have to be finished and temporary desks made for the pupils. The installation of an electric plant is essential for both light and heat. The heating system is already installed but power is required to force the heat to the various rooms through the circulatory vents.

I need not remind you that everyone here is anxiously awaiting the completion of the school building so that the children can start with their studies. Should you decide to send in a teacher before the rest of the school building is completed we could always put him up at the "Bay".

Yours sincerely,

'sgd' G. E. Duncan.

with attached letter from Mr. Duncan, of the Hudson's Bay Company,

I appreciate the information contained therein
but I am afraid that there is no action which I can take. As
you are probably aware, no further building can take place at

has been settled. I have already wired Mr. Hunter concerning
the arranging of local watchman services for this building.
It is quite likely that Mr. Duncan could arrange to see that
no vandalism occurs, pending the arrival of a teacher next
summer.

Dear Sir:-

Replying to your letter of May 26th, in connection with my transfer, I wish to state that I accept Rocker River, there being no other choice.

I would not consider staying on here, even if there were three teachers to help me, simply because I don't enjoy living among narrow minded people such as are some of the local Protestants who were opposed to my taking charge of the school on the grounds that I am Catholic.

From a financial angle, however, I would be tempted to consider being hired as janitor for this school, as the janitor's monthly salary is \$225.00: which is \$33.00 more than the teacher's salary; and I doubt if he works an average of four hours per day.

Fort Good Hope Indian Day School

Dear Mr. Blackburn:

While I have been writing to you about Fort Good Hope, I have always kept in mind your original interest in the Rocher River School. I have been trying to interest Mr. Bellavance who originally planned to transfer to this school from Hay River to accept a school in Northern Saskatchewan. I feel that the Rocher River School is a preferable one for you as it is closer to civilization at Yellowknife and Fort Resolution; it is easier to reach and the school will be completed in the next fortnight.

Therefore I wired Mr. Bellavance today, requesting a decision from him concerning his immediate plans. I will write to you as soon as I get a reply. In the meantime I thought I would write you to ensure that you are still interested in Rocher River. The school building is ofcourse identical with Fort Good Hope.

Dear Sir:

Mr. Kellett, of the Department of Public Works, Edmonton, called at the office yesterday. He told me that the Rocher River School was now completed and that the keys for the school were left with Mr. Duncan, the Hudson's Bay Manager.

He asked me to write to the Indian Affairs Branch regarding Mr. George A. McCallum of Rocher River. Mr. Kellett is of the opinion that Mr. McCallum is the only person in Rocher River qualified to act as caretaker of the school.

Mr. McCallum spent four years in the R.C.A.F. and has considerable mechanical training. Mr. Kellett felt that Mr. McCallum's service as caretaker at \$125 per month would be justified as mechanical training would be required in order to care for the equipment.

I am leaving it with the Indian Affairs Branch to write Mr. McCallum concerning this matter.

Mr. J. E. Blackburn,
Box 6,
St. Norbert, Manitoba.

Fort Good Hope Indian Day School.

Dear Mr. Blackburn:

Your letter of June 14 arrived during my absence from Ottawa on an inspection trip. I have today sent the following wire to Mr. W. J. Johnston, District Engineer, Department of Public Works, Edmonton, Alberta, concerning the completion of this school:

"HAVE EMPLOYED TEACHER AND WIFE FORT
GOOD HOPE SCHOOL -stop- ADVISE WHEN THEY CAN
LEAVE EDMONTON FOR POSITION".

The salaries which we would offer at this school for yourself and your wife as welfare teachers would be as follows:

- (1) Mrs. Blackburn as Grade II Welfare Teacher at a salary of \$2,340.00 a calendar year;
- (2) Mr. Blackburn as a Grade I Welfare Teacher at a salary of \$1,560.00 a calendar year.

We would employ one of you as a welfare teacher when the average attendance of the school pupils was below 30

and both of you when the attendance arose above that number. In other words, during the summer months you would both receive salary as indicated above.

With regard to the payment of Northern Living Allowances, I am referring this matter to our Personnel Officer so that he can advise me whether you would both receive the allowance, or not.

With respect to transportation, I am advised that the best way of handling this is for you to pay your transportation in to Fort Good Hope (that is for your family and yourself) and then submit the receipts here by airmail, when a travelling expense cheque can be mailed to you.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Mr. J. E. Blackburn,
Box 6,
St. Norbert, Manitoba.

Dear Mr. Blackburn:

Please find attached the following documents which I would like to have completed by both your wife and yourself:

- (1) T.D.1 (Income Tax) form
- (2) Employee Questionnaire form
- (3) Oath of Allegiance and Oath of Office and Secrecy forms.

I am also attaching a copy of the Northern Living Allowance Regulations which cover the various points which you might wish to enquire about at a later date.

I have been advised that there is an electric generating plant at the school and that we will be required to have a man who can handle this machine. Therefore, when you are not teaching, we could pay you an amount of \$30.00 a month extra to maintain this motor. Naturally, when you are teaching, this extra amount will not be allowed. I have good news also with regard to Mrs. Blackburn's salary. The welfare teachers' Salary Schedule has been revised and she will now be entitled to \$2,520.00 a calendar year.

When in Edmonton, I would suggest that you contact Mr. W. J. Johnston, the District Engineer of the Department of Public Works, who has just recently returned from Rocher River. His address is 9937 - 103rd Street, Edmonton.

If you will return the attached documents as soon as possible, it will help us when you are placed on our salary list.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Rocher River Indian Day School

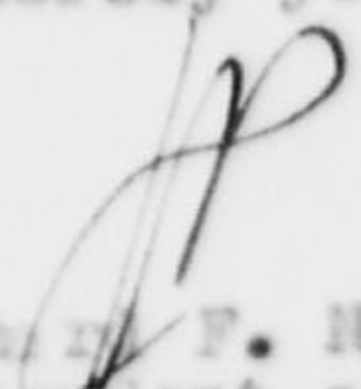

Dear Mr. Fraser:

I have for answer your letter of September 2 with regard to the food purchased for Mr. and Mrs. Blackburn proceeding to the Rocher River School.

We are paying this account and will make arrangements to deduct the amount from their Northern Living Allowance.

I sincerely appreciate your offer to arrange with them for the provision of fresh meat and other supplies from Fort Smith. Your cooperation is sincerely appreciated.

Sincerely yours,

Bernard F. Heary,
Superintendent of Education.

You will have received copies of my various letters to Mr. Blackburn concerning his salary and Northern Living Allowance. I cannot find from my records whether you received a copy of my letter of August 15, concerning caretaking duties. I am therefore sending you an extra copy of this letter.

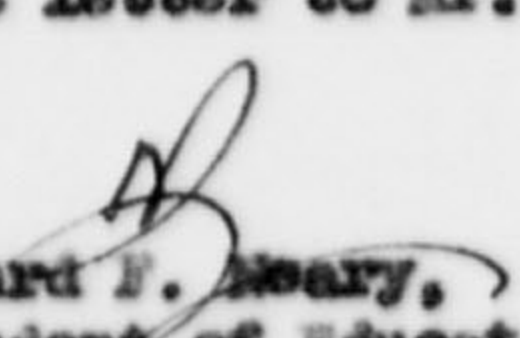

Therefore it will be in order for you to submit a voucher at the end of each month, covering the payment to Mr. Blackburn of \$30.00 in return for janitor duties at the above school.

You will note that when the pupilage at this school warrants it, Mr. Blackburn can be hired as a second teacher. He has no qualifications but has a number of years' experience and should be a capable teacher. I would consider that an army message to me next summer, when sufficient Indian pupils are available, will suffice to add him to our payroll as a teacher but naturally he will be dropped as a caretaker.

I have all his documents here and I would consider, when the actual steady enrolment of children rises above 30 next spring or summer, that this fact can be reported here as indicated above.

I am also sending a copy of this letter to Mr. McKinnon.

During the past month I have been able to visit the three Indian Day Schools in this Agency as well as the Fort Resolution Residential School. As this trip was made just after the opening of the school term I believe it worth while to report on my observations at each point.

On September 14th, proceeded to Rocher River with Agency boat. This school had opened for the first time on September the 6th, and was progressing very favourably. The day I attended this school 33 pupils were in attendance and a few more were expected to come in. For the most part this number or possibly a few more will be the limit. Some of these children will move out with their parents for the winter hunt but I believe well over 25 will be in attendance at all times.

The Superintendent of Indian Education was contacted and permission to construct a limited number of tables and benches to accommodate the extra pupils was obtained. These tables were to be so constructed that they can be used as ping-pong tables in a games room once more desks are obtained.

A large number, if not all the natives at this settlement are in the settlement for the greater part of the summer and now that we have a welfare teacher at this point, I believe we should encourage gardening, etc., if we are to improve the welfare of these natives. Mr. & Mrs. Blackburn are very enthusiastic about doing just this work and as we have a tractor at Resolution, I will have it taken to Rocher River and plow up a section of the school yard as well as an area for communal gardens. It is my understanding that this type of work is part of the Welfare teachers job and in this country the first requirement is to improve the Indians standard of living by better methods of obtaining his food and clothing. A request for rakes and hoes for the spring gardening was noted and is on attached requisition.

As to Mr. Blackburn's status, it is obvious that he expects

to be second teacher when there are over 30 pupils and wants to hire a man to haul water, carry in wood and do the janitor jobs. I understood that Mr. Blackburn was to look after the school and we were not going to hire a janitor. From my talks with him I gathered that he felt that the teaching of the extra pupils and the night classes he took made it impossible to do the janitor work. As Mrs. Blackburn is the welfare teacher, I thought it was her place to teach the older persons and to contact the Indians in the settlement.

Both these people seem enthusiastic and should, I hope, help to make Rocher River a better place for the Indians. I would at the same time like to know whether we are to hire the services of an extra man as janitor. I cannot see how two teachers on full time pay are needed to teach 30 pupils, but can be corrected.

I have seen enormous progress at all the schools since last term and I believe we can look forward with confidence to the results that will be obtained from the new type of school in the Northwest Territories.

Extract from R.A. Gibson's letter dated Sept. 2, 1949.

The Rocher River school is far enough ahead for the school teacher to start using the building. There is still the outside water and sewer installation to be constructed, also the fencing on the property. There is some carpenter work and some work on the accordion doors still to be done.

Mr. J.E. Blackburn called me by telephone from Winnipeg when he was down from Rocher River and advised that he had been unable to contact you before coming out on a business matter.

As you are probably aware, he had a small store near Winnipeg and the manager was resigning at Christmas. I believe he has now sold this business.

The main point at issue is the attendance at this school. He says there are thirty-seven children attending, but we have only received one attendance report form, and this shows only nineteen children. We have not received the reports for October and November and would be pleased if you would speed up their delivery here if possible.

Box 117,

December 5, 1949.

R. A. Gibson, Esquire,
Deputy Commissioner,
Northwest Territories Administration,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir:

I inspected the Rocher River Indian Day School on Tuesday, November 29th and would report as follows:

There were 37 pupils in attendance at the school and I was under the impression that the children were learning considerable under Mrs. Blackburn's supervision. Complete report of this school will follow as soon as time permits.

During my visit to this settlement, the local people requested that I attend a public meeting in the school. At this meeting, Mr. Duncan was elected unanimously, by all present, as official trustee. He said that he would be willing to act as custodian of school property and do everything possible to further education. All of the parents in this district are Roman Catholic, yet they were very disappointed that religious education was given at the school. They told me that they had informed the local priest that they would withdraw their children from the school if he continued to enforce their children to remain during the religious education period. The priest told them that they would be excommunicated from the church, to which they replied that this made little difference to them. He further informed them that he would cut their Family Allowance payments if they did not remain for religious education.

The local people also acquainted me with the fact that the Blackburns had announced that they would like to have the local priest live in the school residence while at this point. The local people greatly resented any interference in the school by the local priest and informed me that they would withdraw their children from the school if a satisfactory solution was not arrived at immediately.

In order to keep this school operating, the parents so desiring demanded that they have the right to submit a written statement to the Principal requesting that their children be exempt from the religious education period from 3:30 p.m. to 4:00 p.m. Mrs. Blackburn indicated that this plan would work quite well.

I am submitting this statement in order that you will be informed of the developments in this

area. I would advise that this matter be left entirely in the hands of the local people at Rocher River as I am confident that this is the only possible means of arriving at a satisfactory settlement as far as the local residents are concerned.

MEMORANDUM TO THE DIRECTOR,

LANDS and DEVELOPMENT SERVICES BRANCH.

SCHOOL BOARDS - INDIAN SCHOOLS,
NORTHWEST TERRITORIES.

We have noted with some concern Mr. McKinnon's action in apparently forming School Committees or School Boards in the Northwest Territories. As you are aware, the Indian Act does not provide for the establishment of these School Boards nor has it been felt necessary to establish these in view of the fact that the entire cost of Indian education is borne by the Government.

Our Indian Superintendent has written at some length concerning the Rocher River School and I felt you would be interested in his comments regarding Mr. McKinnon's action:

"At Rocher River we have two factions, one the Hudson's Bay trader and the other a free trader. In between there is a group of no good white trash who are dead beats anywhere. To establish a school board of this type of person or in a community such as this will only give the teacher untold grief. None of the whites are out of the fueding, which it is in no uncertain terms and the Bay Manager is just as much a part of the whole thing as any one else. Even the Police dislike going to Rocher River because all one hears is a long series of fantastic tales about one party when he visits one store and then hears equally as fantastic from the other store when he visits it. To make the teacher responsible to any of these individuals would be to drive him out by the first plane.

Indian Affairs (RG 10 Volume 6474, file 910-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"The above probably does not interest you but it is one of my objections to having a trustee out of the Rocher River whites appointed. If these people were a little more interested in the school and incidentally the Indians than they are about their own fairy tales, which do cause plenty of trouble then I would be in favor of a trustee but not the way things stand. A trustee from any section of the Rocher River whites would be a stool pigeon who would haunt the teacher day and night.

"I feel the school work is progressing very favorably and the Indians seem only too willing to attend. There is no trouble with them and all social activities are very orderly and very well attended by these people. The only ones who do not seem to know their places are some of the whites who as in most places have been the real offenders where it comes to bringing alcohol to the Indians. I think this is answering a long felt need in Rocher River and if the Teacher can be kept out of the petty jealousy that exists then we need not worry about the final outcome being a success."

RATIONS - INDIAN DAY SCHOOL TEACHERS

At some of the settlements in the Northwest Territories the assortment of groceries and provisions available for purchase is rather limited. In many cases, the stocks are meagre and there is little variety in the items offered.

To overcome this situation and as a measure of assistance to the teachers, arrangements have been made with the Hudson's Bay Company to have requisitions for rations filled at Edmonton and shipped directly to the individual teacher.

The Nutrition Division of the Department of National Health and Welfare has prepared a ration list of the items required for one person living for one year in the North. We have secured approximate prices as quoted by the Hudson's Bay Company in Edmonton. Attached is this list, with the prices, of course, being subject to variation.

On the basis of this list the teacher may then prepare an order and forward same to this office. We will then place the order with a wholesale grocery firm in Edmonton and the items will be shipped by water transportation. The cost at wholesale price of the rations purchased in this manner on behalf of the teacher, together with transportation charges on same, will be deducted on a monthly basis from the living allowance paid to northern employees of the Department. The maximum that can be deducted from the Northern Living Allowance is \$35. a month (i.e) \$350. for Day School Teachers and \$420. from Welfare Teachers. In cases where the cost of the rations and transportation charges is in excess of the above possible deductions, the teacher will be obliged to pay the difference.

The requisition showing the requirements must reach Ottawa prior to March 15, 1950, complete with express address and shipping instructions to ensure delivery during the navigation season.

Bernard F. Neary,
Supt. of Indian Education.

Mr. Bernard F. Neary,
Superintendent of Education,
Department of Indian Education,
Ottawa.

Dear Mr. Neary :

When we arrived in Rocher River last September, there was no food or ration which we expected to be in already. We placed an order with the Hudson's Bay Co for the amount of \$640.00.

May I ask you to pay that amount to the Hudson's Bay Co. at Edmonton and take out a monthly payment out of my salary and allowance starting from February until August inclusively.

The situation should be different next year since we shall be right in Rocher River and in a position to order whatever we really need with what will be left from this year's mess.

I am sending a copy of this letter to the Manager of the Hudson's Bay Co. in Edmonton.

Hoping that my request meets your approval,

I remain,

Sincerely yours,

Mrs Innette Blackburn

This is to inform you that
Mr. Blackburn has not received any salary yet for his teaching or any other work he has been doing since the first of September.

He has been teaching the Junior classroom with beginners from 6 to 15 years of age. Adult Education takes all his nights. You must have received a report on that subject from Mr. McKinnon, superintendent of Education at Yellowknife, who suggested on his visit in the last days of November that Mr. Blackburn should receive a monthly salary of around \$160.00 for the work he has been doing. The plant and the janitor work take most of his free hours. The school, unfinished as it is, requires continuous heating day and night and I do not exaggerate. He has to be up every hour and a half to keep the fires going to keep the rooms not warm but only cool. We have to go in the furnace room to warm up during school hours.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
OTTAWA, Ont.

Dear Sir:

School maintenance and the maintenance of the light plant and engine at Rocher River school have been one continual source of worry from the time this school was taken over. I am enclosing a copy of each wire received from Mr. Blackburn at Rocher River and also the reply or the action taken. From these wires it will be seen that Blackburn knows nothing whatsoever about equipment and ~~as~~ he has made himself so highly disliked by his attitude and actions that no one will give him any assistance when it comes to looking after the plant.

A complete instruction book; both for the engine and the battery bank; is left on the tool bench beside the engine and as the Lister is simplest engine to handle anyone with the ambition to read the instructions should be able to handle the plant. The changing of a fuse seemed to me to be lack of the very simplest of common sense rules.

On my last trip into Rocher River I received a wire that the plant had played out and that it was impossible to start it. I took in the Dept. of Transport mechanic from Resolution and Blackburn was sure that the lad who ran the plant last fall had purposely damaged it. On examination it was found that the fuel tank had run dry and the engine stopped so that when the tank was again filled an air lock was caused and the plant would not start. Blackburn had been running the engine with the radiator half full and when the plant would not start had started to pull things off and had drained oil over everything. It was after seeing this mess that I requested the fire extinguishers and ordered the plant cleaned up. I consider this man will ruin the plant in very short order and he has only made the settlement of Rocher River into a more disorganized place than it ever was before.

I believe that Mrs Blackburn may be a good teacher but Mr. Blackburn thinks he is boss and is ruining all the good she is doing. The first requirement at Rocher River is to run a good school and make it a credit before moving out to try and run the Indians and whites, when he cannot run the establishment he is in without wrecking it when ever our back is turned.

This school has a light plant and the furnace is dependant on power for circulation. If we do not have a teacher or teacher's husband who can run these two simple units we will not be able to install our water system and other equipment for fear of it freezing up for lack of care or knowledge of the simplest equipment. I have done all I can to help keep these schools on the go and to make life pleasant for the teacher but when a man is receiving pay to do a job it should either be done right or the man must be replaced.

The number of pupils in attendance at this school is from 30 to 35 and it is very doubtful if it will be higher

in the near future, in fact it is much more likely to decline with the moving of families of T.B. patients to Residential school.

I am very anxious to see these school establishments operate smoothly and that we should get the most out of them for the money spent. If the physical plant itself cannot be looked after by the man we now have the only solution is to get rid of him and put in someone who will show a little initiative and common sense which must be done if we are not going to ruin the whole equipment now installed.

The following wires have been exchanged and results are as indicated.

Wire: Electric plant needs to be serviced by experienced repair man stop One battery connection burned with a flash when starting motor afraid ~~the~~ batteries will discharge not using motor until checked, signed Blackburn

Answer: Please explain fully where flash occurred as I wish to take in repairs first trip, signed Kirkby.

Wire: Flash occurred at battery post and almost burned one post off battery stop Post still holds but badly damaged would suggest one new battery, signed Blackburn.

Wire: Motor running good but no registration of charge on panel stop waiting George to return this week and check and will wire results. signed Blackburn.

Answer: Did you check reverse current relay to see if it is making contact when engine running at full speed stop Check points and hold in with insulated screw driver in not making contact stop also check fuses. signed Kirkby.

Wire: George McCallum checked plant yesterday and found defective fuse on switchboard stop plant running satisfactorily, signed Blackburn.

Wire: Oil pressure gauge shows no pressure on plant engine stop do you wish McCallum to check. Signed Blackburn

Answer: Have service man clean oil lines, filters and screens also check pump to restore pressure, signed Kirkby.

Wire: Plant stopped operating at two forty pm today suggest expert checkup stop done everything I know, Blackburn.

Flew into Rocher River with one mechanic and found plant in filthy condition, plant had been let run dry of fuel oil and air lock had formed. Instruction book on table and if this had been read by Blackburn he could have fixed it.

Wire : No registration of voltage on panel stop motor runs good but no oil pressure indicated have closed school as too cold for operation, signed Blackburn.

Answer: Local engineer advises engine must not be run without oil pressure. signed E.C. Devlin, Clerk.

On my return I wired you at Ottawa for permission to take in engineer and electrician to check equipment. This series of wires are the work of a man who has no knowledge of equipment at all and as we are not able to have an electrician make a trip into Rocher River every time a fuse blows or a mechanic every time the man forgets to put oil or fuel into the plant I believe that it is time to remove him from the job otherwise we will ruin the whole plant and still in the end have to get a new man in to operate the equipment.

I do not feel that Mr. Blackburn has made any attempt to make the school equipment run and even though this school is of very poor construction I am sure that the equipment can be run in a much better way. It is not possible to hire the local Indians to do this work as none of them have any ideas regarding mechanical equipment, although it would be impossible to do less than is done now. This school is situated in a very small settlement and it would not be possible to have both a teacher and a janitor, but if the teacher was to have some knowledge of mechanical equipment and give him authority to hire local help to wash floors, polish and wax, carry wood, bring in ice, clean up the engine room, keep fuel in the engine and so forth then we should not have the present grief we do have. All the extra jobs should be done on an hourly wage basis and the teacher given an extra \$30.00 per month to check the light plant himself. It is impossible to hire anyone with mechanical knowledge in Rocher River and no man will look after the light plant for \$30.00 if this is all he has to do.

I believe that the janitor work and the light plant and wood and ice hauls should be a full time job and whether the principal has to hire it done or whether we put in a married woman and her husband do the work we are going to be forced to pay out at least \$150.00 per month for the work done. Mr. Blackburn has only received the \$30.00 per month that I have vouchered through to him and he felt that he was to receive a stated amount whether teaching or not and that when he was teaching he would not attend to the plant but would turn over the \$30.00 to someone else to do the work. I have a copy of your letter of August 15th, file 910-1 (E) and I must admit that it is slightly misleading if not carefully examined and as Mr. Blackburn is too excitable to concentrate he took your letter to mean that he would receive a salary whether teaching or not and when not teaching an extra \$30.00 to look after the plant, also that when he did start to teach he would pass the \$30.00 on to someone else. This is his complaint about salary but everything has gone haywire from the day he arrived and he needs daily supervision regarding the equipment. I cannot give this as it costs \$150.00 for every plane ride into the place therefore I find that I have to agree with Mr. McKinnon that we need a local school board or sub-trustee or a home and school association that will take the well being of the school serious and check up on teacher and janitors who do not perform their required duties.

In the Northwest Territories we have to rely upon each man to run his or her own establishment without daily supervision and unless we receive this type of person everything will go down hill. A service man cannot be on call every hour of the day to out-of-the-way places, and as they are large establishments with much technical equipment, then we must have teachers who know the rudiments of electricity and mechanics or we will never keep our schools open. At many settlements schools are hooked up to the Army Signals or Dept. of Transport and at such a place maintenance amounts to sweeping and oiling one motor. At my two large schools we have self contained units that rely on their own plants and equipment and we must have teachers or teachers husbands who can qualify enough to do the very simplest of mechanical chores such as changing fuses, keeping plant and motors oiled and fuel in the tank.

I know these schools are set in isolated settlements and that teachers are hard to get, but from the very location of these schools it is a must that we get couples who can be relied upon to run the place on their own in order that we may receive the full benefit of the moneys spent.

Yours very truly

I. F. Kirkby

Dear Mr. Neary :

Please find enclosed a letter I received today from the Manager of the Bank of Commerce where we had to borrow, on my note, the necessary fund to cover our expenses last September to reach Rocher River from Edmonton.

Our expense account amounted to about \$166.00 and the necessary receipts have been forwarded to you early in December with the request that the refund cheque be mailed to that bank who shall collect the balance of the loan from our savings account. Mr. Barlow has already been notified.

May I ask you to verify if the refund cheque for expenses has been sent to the bank and notify the Manager of the Canadian Bank of Commerce, Portage and Donald Branch, Winnipeg.

Dear Mr. Blackburn:

We acknowledge receipt of your letter of 29th December enclosing cheque for \$117.70 which we have utilized to retire your note for the same amount and enclose herewith the cancelled note.

We have not yet received your expense cheque which we believe is now long overdue and our loan for \$225.00 made in anticipation of this cheque still remains outstanding on our books. It would be appreciated if you could do anything to expedite finalization of this matter.

Dear Mr. Neary :

You will find enclosed a copy of a letter which I have just sent to Mr. Kirkby, also a cheque of \$90.00 covering the plant maintenance and janitor allowance for October and November.

May I ask you to permit me a few complaints or remarks as to what that cheque implies. Firstly we feel that we are being abused by having to pay the janitor expenses for the three months ending October 31 because Mr. Kirkby told us that it should come out of the \$40.00 monthly allowance for that purpose. We spent less than that doing a lot of the work ourselves. Our intentions on that subject are exposed in my letter to Mr. Kirkby. In that same letter you will note the statement made on the plant maintenance. I wish to state here that Mr. Johnstone, of Edmonton, made a special note of the plant stating it had not given satisfaction even ^{being} put to use for its purpose. It is in need of repair or expert checkup because nobody seems to know the trouble

Mr. Kirkby was surprised to hear my statement, two weeks ago, that I had to run the plant from 8 to 15 hours every day. Mr. Kirkby thought that a two day operation every week was sufficient.

Teaching : We have over 35 children registered and the ages of the children of the lower grades, mainly grades 1 & 11, vary from 7 to 15. Some of them will make two grades this first year. 6 Beginners are doing a very strong Grade 1 already.

Night School : Mr. McKinnon , Superintendent of Education, has witnessed, through a meeting of the Indians, of the work accomplished in that sphere. The results obtained are similar to the ones in the day school.

The Indians have been organized, by a committee of Indians, and they manage the expensed of the Xmas tree and dances held every other week. Plans have been made for next year's Xmas tree. Games have been bought and the school is the real Community centre as it was expected. All that has not prevented them to go trapping or hunting as proved by a weekly [✓]checup.

I figure that the salary mentioned by Mr. McKinnon is fair with all the work and responsibility it calls for. It is with reluctance that I return the enclosed cheque hoping that everything will be duly adjusted.

Yours truly,

J. E. Blackburn

Dear Mr. Kirkby :

I wish to notify you that I have just received a cheque of \$90.00 covering the allowance for the light plant maintenance and janitor work for November and October. Nothing is mentioned for September and December, the date of Invoice of cheque being as at December 1 .

It was understood, before we left for Rocher River, that the allowance of \$30.00 was for the plant maintenance. Nothing was mentioned of any janitor work. I am not satisfied with the treatment I am receiving for all the work done. I am returning the \$90.00 cheque to Mr. Neary with a letter stating the situation of Rocher River. I am enclosing a copy of said letter. In the meantime, I wish to let you know that I cannot work from 5 in the morning till 11 at night, and get up every 90 minutes to try to keep the building warm or as close to it as possible.

This continuous upkeep of the fires is absolutely necessary to keep the school opened all day. Afternoon sessions would be the only alternative.

Nothing has been received for the teaching done although close to 40 children are registered.

Adult education seems to be of no value although results obtained vouch for the work done.

Should there be no adjustment before the first of February, I regret to ask you to appoint someone to look after the plant and the janitor work. Speaking of janitor work, you told us that the sum of \$40.00 per month was allowed and we went on that basis. We are not to be held responsible for the amount spent for that purpose until the end of October and shall not pay same. The sum of \$60.00 was paid to Mr. G. McCullum for the upkeep of the plant for the time I was away. I wonder who should refund that amount.

I sincerely hope that the matters mentioned in this letter will receive your attention and I would greatly appreciate your decision at your earliest convenience.

Extract from Annual Report on Rocher River of the Fort Resolution Northwest Territories Agency, dated 1947-48.

Rocher River.

42 Indian families, totalling 96 Indians live at Rocher River. The Half-Breed and white people increase the population to 140. Approximately 25 miles up the Taltson River is another settlement - Rat River, where a few Indians and white trappers live. For the purpose of this report Rocher River and Rat River are considered as one settlement.

Rocher River is an ideal location for an Indian Village. Fishing is good and caribou are available during the open season. Fur is by no means plentiful but there is enough, including the spring rat hunt, to afford a living to an Indian who will try to support his family.

In spite of the above, and even though the Indians are Chipewyans of the same band as those at Fort Resolution and Snowdrift, Rocher River is the dirtiest and most poverty-stricken settlement in the agency. I flew into Rocher River early last June and the stench of garbage and rotting caribou hides tossed out of the front doors and along the river bank where the dogs are tied the uncleanness of the homes and the general filth of the settlement were a revelation. The place was cleaned up somewhat when I threatened prosecution under the Public Health Ordinance but probably will be just as dirty this spring.

The people at Rocher River make very little effort to support themselves and none at all to improve their conditions. During a recent visit I found caribou drying in only one house, that of the Chief, Pierre Frise. The usual routine is to sleep all morning then to loaf and play cards for the remainder of the day and all night.

These people are almost completely demoralized. I recently treated a 14 year old girl for V.D.G. and found her to be four months pregnant. Three white trappers, brothers, of Rate River have been fathers of illegitimate babies by Treaty Indian women, the youngest brother becoming a father in January of this year. Several girls have had more than one illegitimate child and several Treaty Indian women, some of them married, are living with Half-Breeds in common-law status.

The only reason that I can see for the situation at Rocher River is the influence of the white people who live in that settlement. Mr. E.R. DeMelt, a free trader and his common-law wife, Mrs. Rose Metcalfe, came to Rocher River approximately ten years ago. They run a small store and a small sawmill. In addition, Mr. DeMelt has a trapping license.

The Rocher River Indians require help, not financial assistance but mental stimulation. The natural resources could very easily sustain the population. There is no place within a hundred miles of Rocher River and Rat River which is as suitable for people living in the Indian fashion.

On my way back from Hay River to Fort Smith on the 13th instant, I called in at Rocher River to see how the school building was coming along. Excellent progress has been made under Mr. Kellett's supervision. The framing of the school is almost completed, and the crew of men on the job were working efficiently. The school grounds have been cleared of underbrush and should be well dried out by the end of this month. A drain has been dug to the river and has successfully drained the low spots in the school grounds. The foreman reported that he was short of nails, and on my return it was arranged that these would be shipped to him at once.

Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ont.

Re; Voucher No. 129, Sept. 16th, 1948.

I refer to your letter of July, 28, 1948, regarding an account of the Robert Simpson Regina Ltd, covering the cost of equipment purchased for the Rocher River School.

As I have recently visited this School and find that the equipment shown on the invoice ~~is~~ in storage at that point, I have passed the account for payment. However it will be noted that prepaid transportation charges are included on this invoice and that the Company failed to forward a receipted freight bill of the carrier. I have requested Robert Simpson Ltd. to forward to your office a copy of the receipted freight bill, a copy of the letter to that Company being attached hereto for your information.

Superintendent,

Gentlemen:

I refer to your account for the amount of
\$282.01, for supplies shipped to the Teacher, Rocher
River Indian Day School, Rocher River, N.W.T., dated
July 20th, 1948.

It is noted that Prepaid Transportation
charges have been added to this invoice. Past exper-
ience with the Department has been that they will not
pay prepaid transportation costs unless the invoice is
accompanied by a receipt freight bill of the carrier.
However in this instance I have passed your account
for payment and would request that you forward a receipted
freight bill of the carrier to- Col. B.F. Neary, Supt.
of Education, Indian Affairs Branch, Ottawa, Ont., -
and quote this letter. Payment of this account
will not be made by Headquarters until the receipted
freight bill has been received by them.

Yours very truly,

Gentlemen:

I desire to refer you to a letter dated September 16th, 1948, which was forwarded to you by L.C. Hunter, Superintendent of Fort Norman Indian Agency.

This letter refers to the supplies which were shipped by your firm to the Rocher River Indian Day School as covered by your invoice of July 20th amounting to \$282.01.

Included in the account was an item of \$26.19 for transportation charges. Present regulations require that we have a receipt from the transportation company before the item can be paid. Please forward this receipt immediately.

Yours sincerely,

Bernard F. Neary

I am attaching hereto for your information and advice copy of letter, dated October 6th, from District Engineer Johnston concerning the school building at Rocher River, N. W. T.

You will particularly note Mr. Johnston's statements concerning the electric generating unit and advise me in the matter. You will also note that apparently there will be no possibility of this school being used during the present winter since no furniture has arrived and the suggestion that work on the building be suspended until next spring when the work which is practicable to do this year is completed. Will you please let me have your comments on this.

R. BLAIS, CHIEF ENGINEER, OTTAWA

Work has been in progress on the two-classroom day school and teacher's quarters at Rocher River during the present summer, and a stage of construction reached whereby the building is erected, built-up roofing placed, chimney installed and the finishing work well advanced. The hot-air heating system has also been installed. There remains incomplete the following:

- (a) Water supply
- (b) Plumbing
- (c) Electric lighting generating plant

EXT.
Regarding (a), Water supply, an effort was made during the past summer, using native labour, and without bringing in a well-drilling outfit, to sink a well by hand in the hope of obtaining water. If water could have been obtained in the vicinity of the building, it would have been an advantage to the project; however, when water was not obtained at a reasonable depth, it was considered too much expense would be incurred to continue farther, and the effort was abandoned. Incidentally, the well area was enlarged so as to provide storage space for vegetables, so as to obtain some benefit from the expenditure made.

It is now proposed to pipe water from the Taltson river by a water pipe contained in an insulated box carried on top of the ground. The pump and piping for this, however, will have to await delivery after opening of navigation next year. The pump itself has been purchased.

With reference to (b), Plumbing, H. Kelly & Company have delivered the materials at Fort Smith this fall and will deliver to destination and make the necessary installation next year.

EX.
Regarding (c), Electric generating unit, there is attached copy of specification received from Engineering and Construction Division of the Department of Mines and Resources. When this specification was submitted to electric supply firms in this city, the response was very disappointing - three firms reporting "unable to quote", and Canadian Fairbanks-Morse Limited submitting a quotation practically under protest. The gist of the objection was the phrase in the specifications: "The plant shall automatically start when a load of 60 watts is demanded, and shall continue in operation until the load drops below this value, at which time it shall automatically stop." The local manager of Canadian Fairbanks-Morse called at this office and stated that, although his firm could supply a unit filling completely the specifications demanded, they were very hesitant about doing so. It was claimed that the electrical part of the generator in a fully automatic machine could, very easily, go out of commission, and should have a fully-qualified electrical man available to make repairs. If their machine were shipped to isolated points such as in the Northwest Territories, there would be no qualified electrician (and it took a particularly good one for this repair work); and their equipment would get a bad name through poor service. Likewise, this Department would be without electricity, possibly at a very critical time during the winter season with short days and the need for electric lighting. Another objection to the fully-automatic machine, from the manufacturer's point of view, is that there would be a tendency for people to neglect the generator

itself, not use gas and oil when required, with the result that the engine would run dry. In view of these circumstances, the manufacturers strongly recommend cancellation of the automatic feature, and supplying a machine which is manually controlled. The price of such a manually-controlled machine is \$3,538.00, f.o.b. Waterways, Alberta.

The generator, which had to be imported from the United States, would require an Import Permit; also, it was so late in the season before the situation was fully realized, that delivery could not be made by water transportation in 1948.

May I have your instructions, please, if the specifications for the generator may be amended by deleting the fully-automatic features. An order will then be placed for the supply of such a machine, to be delivered during the present fiscal year to either Edmonton or Waterways, so that it can go forward at opening of navigation early in 1949.

In a late radiogram received from Rocher River, I learn that no furniture for the classrooms, nor other necessities, have been received at Rocher River. This would presumably mean that no furniture has arrived for the teacher's quarters. Under these circumstances, I would suggest that construction proceed as far as it is practicable to do so this year without incurring unnecessary expense, and that the work be suspended until next spring. At that time, the small amount of carpenter work remaining to be done can be attended to and arrangements for the delivery of classroom furniture and supplies for the teacher's quarters. By this means, the school would probably be completed soon after the arrival of the first boat and, if the furnishings were received at the same time, classes could begin about July 15th. It is considered this information should be passed to Mr. J. W. McKinnon, Inspector of Schools for the Northwest Territories, and a spare copy of this letter is enclosed for this purpose.

May I have your instructions in the above matter, please.

SPECIFICATION FOR LIGHTING PLANT EQUIPMENT FOR TWO-CLASSROOM
SCHOOL WITH TEACHER'S QUARTERS (UPPER STOREY).

Provide crated, ready for freight shipment the following:

- 1 only fully automatic diesel electric lighting plant. The engine shall be diesel compression-ignition type, capable of delivering approximately 15 H.P., at 1200 R.P.M. when burning No.1 or 2 light fuel oil. The engine shall be water cooled using pump and radiator with pusher type fan. The engine shall be direct connected through a semi-flexible coupling to, and mounted on the same base as, a $7\frac{1}{2}$ K.V.A. 120/240 volts 60 cycle single phase alternating current generator with exciter automatically controlled to give 2% regulation and mounted at end of generator shaft. Provide electric starting motor battery and automatically regulated battery charger. (The plant shall automatically start when a load of 60 watts is demanded and shall continue in operation until the load drops below this value, at which time it shall automatically stop). Provide control panel containing all automatic controls and also push button station for manual control. Provide voltmeter, ammeter frequency meter and manual reset circuit breaker. Supply automatic shutdown for low lube oil pressure, high water temperature and continual cranking on failure of engine to start on load demand. Provide 300 gallon oil storage tank for mounting outside of building on supports as directed and furnish 50 feet of $\frac{3}{4}$ " copper (type K) pipe for oil suction line between tank and diesel engine. Provide $\frac{3}{4}$ " bossed tapping on steel pipe nipple and brass fitting coupling for connection between $\frac{3}{4}$ " galvanized steel nipple and $\frac{3}{4}$ " streamline copper fuel line to diesel engine. Provide fittings necessary at engine fuel intake to take $\frac{3}{4}$ " fuel line.

Generator unit shall be equipped with radio interference suppressors. Generating equipment supplied shall be new and shall be fully guaranteed and shall be complete with exhaust pipe (10 foot) muffler, foundation bolts, all required wiring between generating unit and control panel and all appurtenances necessary for a complete installation ready for operation.

Detailed instructions shall be supplied for the installation, operation and maintenance of this equipment and a set of tools required to carry out routine maintenance shall be provided.

Note: In locations where oil burning furnaces are to be used, fuel tank and fuel lines specified above may be deleted.

Rocher River Indian Day School.

We have now received a report submitted on the erection of the above school by Mr. W.J. Johnston to the Chief Engineer of the Department of Public Works.

In this report he draws attention to two problems which have arisen with regard to:

Extract from report from Mr. Johnston, District Engineer dated October 18th on the Rocher River Day School.

RE: ROCHER RIVER.

The 2 Classroom Day School and Teachers' Quarters has been erected and has outside finish on the walls and a built-up tar and gravel roof recently completed by a roofing contractor from Edmonton. The roughing-in has been done for electricity. The hot-air furnace and heating ducts are now being installed. It was not possible for the plumbing contractor to deliver materials to destination this year, owing, in part to the lateness in which the contract was let, and also to the fact that there are only about four boats per season from Fort Smith to this point. Carpenter work has advanced to a point where three carpenters could finish by early December. Work on this project was closed down for the season on the 16th instant, largely due to the impossibility of having a generator delivered which was necessary for operation of the blower in connection with the hot-air furnace. I wrote you by letter # 2961 on October 6th, in reference to specifications calling for a fully automatic electric generating machine and the reluctance of firms to supply this unit. I am still awaiting your instructions if a manually controlled machine could be installed.

So far as I know, no desks or classroom fittings have been received at Rocher River, and there is no furniture on hand for the teachers' quarters. In fact the arrival of these fittings, furniture and so forth, at a settlement where there is little, if any, warehouse storage space, presents a problem and it is doubtful if such should be delivered until the school building is ready to receive these articles, which represent a considerable investment. It should, however, be possible to begin work next spring on the school project and have it completed early in June when the first boat arrives there. Incoming shipments of furniture, classroom supplies, fittings, rations for the teacher and so forth should be scheduled to arrive on the first boat arriving at Rocher River next year. That would permit the opening of school by July 1st if this were desired. TO REACH WATERWAYS MAY 15TH FOR FORWARDING BY HUDSON'S BAY CO.

I am writing in reference to construction of 2-Classroom Day School and Teacher's Quarters at Rocher River, N.W.T. Work has just been closed down for the season and an understanding can now be arrived at regarding the financial situation.

Attached is a statement showing the money authorized, amounting to \$40,000, and current expenditure during the present year estimated at \$48,295.95. This leaves a deficit of \$8,295.95. I would, however, request that \$9,000 be made available at once for this work in order to clear up this year's programme. As soon as it is known exactly what the expenditure is, and if it be possible to return any of the money to the Vote, you will be advised.

You were notified when the construction of these schools was undertaken that it would not be possible to prepare a proper estimate and advise you at the outset, exactly what the situation is. That is why I am only now giving you this information.

ENGINEERING and CONSTRUCTION
DIVISION

DEPARTMENT OF MINES AND RESOURCES
LANDS and DEVELOPMENT SERVICES BRANCH

Ottawa, November 5, 1948.

MEMORANDUM:

Re: Rocher River Indian Day School.

In connection with Acting Director MacKay's memorandum to you of October 26th last, bearing your marginal notation thereon of the 27th, we make the following comments with regard to the electrical plant specified for the above school.

This Division prepared architectural, heating and electrical drawings, Index No. 860 and bill of materials for the construction of a Two Classroom Day School with Teachers Residence for use at various locations in the Northwest Territories including the above.

Prior to the preparation of heating and electrical drawings, a conference was held at which decisions were reached in connection with the type of fuel to be used for heating purposes, and the type of electrical power supply to be provided in locations where a power source is not available.

The decisions reached are noted in Mr. Lamberton's memorandum No. 18272 dated April 14, 1948, which established that one 110 volt alternating current generating unit shall be provided for the Rocher River School and also that wood fuel is to be used for heating.

Our electrical drawings were prepared as a standard and are applicable, in accordance with instructions contained in the bill of materials, for locations with or without electrical power supply.

Our heating plans were prepared using a forced hot air system automatically controlled by a room thermostat to maintain a pre-determined temperature. The bill of materials was based on oil fuel, the intention being that the necessary changes needed to burn any other fuel, would be furnished by letter, upon advice to this Division that construction of the building would be proceeded with in an area where a fuel other than oil was to be used.

To satisfy the requirements laid down by the heating design, it was necessary to have electrical energy available whenever the room temperature dropped below a pre-determined value, at any time in a 24 hour period during the heating season. To supply such a service with an alternating current type of generating unit, it is necessary that it be operated continually or that the unit be equipped with automatic controls to start the unit whenever power is required.

If we provided a continual operating source of A.C. power, it would be necessary to house the unit in a building isolated from the school to eliminate noise and it would also be advisable to

provide a standby unit. To keep our design in accordance with conditions laid down, it was necessary that an automatically controlled generating set be specified.

We included space on the rear of the school building to house the generator set, as it was felt that three or four short operating periods required during sleeping hours would not be a disturbing factor.

This Division is of the opinion that a 110 volt direct current storage battery electrical system would be more applicable to the site, as with this type of installation the generator set would be operated for charging purposes, only several times per week, and a supply of power would be available at all times. Due to the relatively small number of operating hours per week of this equipment, as compared with an alternating current unit, a standby generating unit is not considered a requisite. This system would also prove more economical from the standpoint of operation and maintenance.

The use of such equipment would eliminate the required automatic feature as specified, about which the manufacturers express concern because of the lack of electrical maintenance in this area in cases of breakdowns. We do not recommend a manually controlled A.C. set without a standby because it would, in all probability be run continually to furnish power as required for heating and lighting and the availability of maintenance service would be questionable.

It will be necessary to prepare new electrical drawings and bill of materials as well as specifications for electrical power plant if the above suggestions are adopted. Electrical equipment used in the heating system will have to be specified to suit the direct current power supply, as at present the equipment specified is based on a power source of 110/220 volts A.C.

The above suggestions are contrary to the decisions reached in this matter as outlined in Mr. Lamberton's memorandum, but we believe this system is better suited to the conditions than an alternating current installation and would prove more reliable than the manually controlled A.C. generating unit suggested by Mr. W. J. Johnston.

We have no information in connection with the progress of the construction and assume that the wiring changes necessary to convert from 3 wire 110/220 volt A.C. to 2 wire 110 volt D.C. and arrangements for the provision of different types of lighting fixtures can be made.

MEMORANDUM

Ottawa, November 5, 1948.

Re: Rocher River Indian Day School.

1 In connection with Acting Director MacKay's memorandum to you of October 26th last, bearing your marginal notation thereon of the 27th, we make the following comments with regard to the electrical plant specified for the above school.

2 This Division prepared architectural, heating and electrical drawings, Index No. 860 and bill of materials for the construction of a Two Classroom Day School with Teachers Residence for use at various locations in the Northwest Territories including the above.

3 Prior to the preparation of heating and electrical drawings, a conference was held at which decisions were reached in connection with the type of fuel to be used for heating purposes, and the type of electrical power supply to be provided in locations where a power source is not available.

4 The decisions reached are noted in Mr. Lamberton's memorandum No. 18272 dated April 14, 1948, which establishes that one 110 volt alternating current generating unit shall be provided for the Rocher River School and also that wood fuel is to be used for heating.

5 Our electrical drawings were prepared as a standard and are applicable, in accordance with instructions contained in the bill of materials, for locations with or without electrical power supply.

6 Our heating plans were prepared using a forced hot air system automatically controlled by a room thermostat to maintain a pre-determined temperature. The bill of materials was based on oil fuel, the intention being that the necessary changes needed to burn any other fuel, would be furnished by letter, upon advice to this Division that construction of the building would be proceeded with in an area where a fuel other than oil was to be used.

7 To satisfy the requirements laid down by the heating design, it was necessary to have electrical energy available whenever the room temperature dropped below a pre-determined value, at any time in a 24 hour period during the heating season. To supply such a service with an alternating current type of generating unit, it is necessary that it be operated continually or that the unit be equipped with automatic controls to start the unit whenever power is required.

8 If we provided a continual operating source of A.C. power, it would be necessary to house the unit in a building isolated from the school to eliminate noise and it would also be advisable to provide a standby unit. To keep our design in accordance with conditions laid down, it was necessary that an automatically controlled generating set be specified.

Under date of October 23, 1948 copy of a letter from our District Engineer W. J. Johnston was sent to the Director of the Lands and Development Services Branch of your Department, in which our District Engineer asked for an extra \$9,000. for completion of this year's work on the school at Rocher River, N.W.T.

It is understood that this letter has been passed to your Branch for action and I enclose copy of a letter of November 4th from Mr. Johnston in which he stresses the fact that the full sum of \$9,000. should be made available as soon as possible. Can you arrange, please, to make this money available so that accounts for this year's work at Rocher River may be cleared up.

On October 21st I wrote you pointing out the financial situation in respect to the school at Rocher River, N.W.T., and stating that \$9,000 was needed to pay outstanding accounts for materials and labour incurred this fiscal year. To date I have received no reply to this letter.

On November 3rd (Letter No.3416) I gave a statement of the amounts which might be released under Contracts awarded to H. Kelly & Company; for plumbing; Hillas Electric Company for electrical installation; and Barry Sheet Metal Company for hot air heating. It will be noted that a total of \$6,721.75, under these three Contracts, will not be required this fiscal year and might be released for payment of accounts.

May this sum of money be released to District Treasury Office at Edmonton at once, please.

It is again stressed that no detailed estimate of cost was submitted for this school from this office and that the full sum of \$9,000, as requested in my letter of October 21st, should be made available as soon as possible.

Dear Mr. Blais:

Further to my letter of October 21, we have now been able to obtain more information concerning the furniture required at the Rocher River Indian Day School. As this furniture was ordered from the Robert Simpson Company and the T. Eaton Company in early July, we felt that it should have arrived at Rocher River by now. Therefore, an army message was sent to Mr. Indian Superintendent Hunter at Fort Norman. We have now received a reply from him stating that the furniture has arrived and is stored with Mr. E.R. F.G. GOODSPEED, A/CHIEF ENGINEER, PWD - OTTAWA

I am replying to your letters of December 23rd, 1948 and February 16th, 1949 in reference to electrical power to be supplied at school at Rocher River, N.W.T.

Attached to letter of December 23rd was a memorandum prepared by T.E. Mills, Chief Engineer, Engineering and Construction Division, Department of Mines and Resources. Mr. Mills recommended that a direct current generating unit be supplied rather than the Alternating Current automatically controlled unit which had been earlier recommended.

Attached hereto is a cost estimate for a direct current power plant for Rocher River. This estimate has been prepared by Mr. J.E. Kellett of this office.

When the decision is made to change from alternating current to direct current, it will be impossible to provide battery space, and also space for the direct current machinery, in the school building itself. It is thus necessary to take advantage of a warehouse building which was constructed for general storage, and to remodel same to house the direct current batteries and machinery.

The cost for a direct current set with batteries, as per attached estimate, is \$8,823.29 for the purchase of equipment and its installation in the building at Rocher River, ready to function. The life of batteries in a direct current installation is 660 chargings.

By comparison, I am attaching estimate herewith for the cost of the alternating current unit it was originally intended to install, namely:

Cost of Unit, f.o.b., Waterways	\$ 3,997.00
Sales Tax, 8% on \$ 3, 997.00	319.76
Freight, Waterways to Rocher River	50.00

Cost of Installation:	
Labour	\$ 100.00
One Air Fare (Edmonton, Rocher River. return)	270.00
	<u>370.00</u>
	<u>\$ 4,736.76</u>

CALL FOR QUOTATIONS FOR DIRECT CURRENT UNITS:

Call for quotations for the materials and equipment for a direct current installation including batteries, was made to six firms. Appendix "A" attached, gives a list of the firms asked to tender, and the results therefrom:

Mumford Medland Limited of Winnipeg, Manitoba, (a re-organization of Firm now bears the name of Medland Machinery Limited) submitted the lowest bid of \$4,635.00. However, they quoted on a battery of only 350 amperere hours, and required six months' notice before delivery could be guaranteed.

The next highest tender was received from Bruce Robinson Electric Limited of Edmonton for \$4,798.00. This firm quoted on a 450 ampere hour battery and promised delivery in from three to four weeks from receipt of order. I therefore recommend acceptance of the tender of Bruce Robinson Electric Limited for a price of \$4,798.00 f.o.b., Waterways, Sales Tax included. This firm promise delivery in from three to four weeks and it is necessary to have shipment go forward from Waterways early in the season. I would therefore ask that *the* notified by telegram as soon as approval is given for this purchase.

The original tender as obtained from Bruce Robinson Limited is attached hereto. I do not consider it necessary to send all the other tenders received, but these are on file here.

COMPARISON OF DIRECT CURRENT AND ALTERNATING CURRENT UNITS:

You will note from the above, that the D.C. Unit costs \$8,823.29 as against \$4,736.76 for an A.C. Unit. However, I believe it is the feeling in Ottawa that the lower maintenance costs of a direct current installation would more than pay the initial capital expense. That is a matter of electrical maintenance economics which I do not care to go into, and am not thus expressing any opinion on; In other words, the decision to switch from an alternating current to a direct current installation was made in Ottawa. Thus my recommendation for the purchase of a direct current installation and the acceptance of Bruce Robinson Electric Tender for \$4,498.00 is only following out the decision handed me, to install a direct current machine.

COST ESTIMATE OF D.C. POWER PLANT FOR
ROCHER RIVER 2-CLASSROOM SCHOOL

The generator room as constructed is too small to house a D.C. plant and 110 V. battery bank. The 12' x 24' warehouse built in 1948 must therefore be converted to a generator house. The conversion is as shown on the attached sketch. Also 12 fluorescent lighting fixtures must be replaced with 12 - 300 w. incandescent semi-direct lighting units.

Electric motor on the circulating fan of the hot air furnace may have to be exchanged for a D.C. Motor.

Cost Estimate is--

1. Purchase of light plant-

We appreciate the opportunity of quoting on equipment for the above school and feel confident that the plant and battery specified below will give you the most trouble-free service, economical operation and requiring the least attention.

The Lister diesel engine has established itself in the North as a most sturdy piece of equipment and if service parts are required at any time they can be procured immediately from our Edmonton stock.

We agree to supply, f.o.b. Waterways, and crated for water transportation, the following -

1 only Diesel electric lighting plant
consisting of the following -

1 20 H.P. two cylinder Lister diesel
radiator-cooled engine operating
at 1200 r.p.m.

This engine is full diesel, cold starting battery cranking and has a dual compression patented cylinder head, and the famous patented chromium lined sleeves, giving 400% greater life than Nitrogen hardened sleeves. The engine would also be equipped with filter, and low oil pressure cut off.

The engine is mounted on a steel base, together with a 12.5 K.W. 140 volt shunt wound Marble-Card generator, direct connected to the flywheel through a flexible coupling. This generator is equipped with interference eliminators, ball bearings, interpoles, and a rheostat for varying the charging rate to the batteries.

The switchboard would include volt meter, ammeter, service switch, reverse current relay, starting switch and rheostat.

The batteries would be of the Hart manufacture, 450 ampere hour capacity with glass wound separators, 1220 specific gravity acid and having a weight of 2250 lbs.

We would also supply the following -

1 60 gallon steel fuel tank

1 Fuel tank stand

50' 3/4" copper tubing and necessary fittings between the tank and engine pump

10' 2 1/2" exhaust pipe and muffler

8 Foundation bolts

Necessary wiring between plant, switchboard and battery

1 set maintenance tools

The above equipment is guaranteed to be of the best obtainable and is further guaranteed to be free from defects in workmanship and material.

All equipment except the generator is available from stock, and in answer to a telegram enquiry, the generator could be shipped from St. Paul, Minnesota, within four weeks from receipt of order.

Any variation from your recommendation and the capacity of batteries quoted would be adjusted upon advice from you as to the capacity desired.

Dear Major MacKay:

We have received from the Chief Engineer of the Department of Public Works a copy of a letter from Mr. W.J. As this school is the responsibility of the Indian Affairs Branch, we are referring this matter to you for your attention.

Although a direct current unit is more expensive than an alternating current generator, there is the important matter of operating costs to be considered.

F.G. GOODSPEED, A/CHIEF ENGINEER, PWD - OTTAWA

1 I am replying to your letters of December 23rd, 1948 and February 16th, 1949 in reference to electrical power to be supplied at school at Rocher River, N.W.T.

2 Attached to letter of December 23rd was a memorandum prepared by T.E. Mills, Chief Engineer, Engineering and Construction Division, Department of Mines and Resources. Mr. Mills recommended that a direct current generating unit be supplied rather than the Alternating Current automatically controlled unit which had been earlier recommended.

3 Attached hereto is a cost estimate for a direct current power plant for Rocher River. This estimate has been prepared by Mr. J.E. Kellett of this office.

4 When the decision is made to change from alternating current to direct current, it will be impossible to provide battery space, and also space for the direct current machinery, in the school building itself. It is thus necessary to take advantage of a warehouse building which was constructed for general storage, and to remodel same to house the direct current batteries and machinery.

The cost for a direct current set with batteries, as per attached estimate, is \$8,823.29 for the purchase of equipment and its installation in the building at Rocher River, ready to function. The life of batteries in a direct current installation is 660 chargings.

By comparison, I am attaching estimate herewith for the cost of the alternating current unit it was originally intended to install, namely:

Cost of Unit, f.o.b., Waterways	\$ 3,997.00
Sales Tax, 8% on \$ 3, 997.00	319.76
Freight, Waterways to Rocher River	50.00
Cost of Installation:	
Labour	\$ 100.00
One Air Fare (Edmonton, Rocher River, return)	270.00
	<u>370.00</u>
	<u>\$ 4,736.76</u>

CALL FOR QUOTATIONS FOR DIRECT CURRENT UNITS:

Call for quotations for the materials and equipment for a direct current installation including batteries, was made to six firms. Appendix "A" attached, gives a list of the firms asked to tender, and the results therefrom:

Mumford Medland Limited of Winnipeg, Manitoba, (a re-organization of Firm now bears the name of Medland Machinery Limited) submitted the lowest bid of \$4,635.00. However, they quoted on a battery of only 350 ampere hours, and required six months' notice before delivery could be guaranteed.

POOR COPY

The next highest tender was received from Bruce Robinson Electric Limited of Edmonton for \$4,798.00. This firm quoted on a 450 ampere hour battery and promised delivery in from three to four weeks from receipt of order. I therefore recommend acceptance of the tender of Bruce Robinson Electric Limited for a price of \$4,798.00 f.o.b., Waterways, Sales Tax included. This firm promise delivery in from three to four weeks and it is necessary to have shipment go forward from Waterways early in the season. I would therefore ask that I be notified by telegram as soon as approval is given for this purchase.

The original tender as obtained from Bruce Robinson Limited is attached hereto. I do not consider it necessary to send all the other tenders received, but these are on file here.

COMPARISON OF DIRECT CURRENT AND ALTERNATING CURRENT UNITS:

You will note from the above, that the D.C. Unit costs \$8,823.29 as against \$4,736.76 for an A.C. Unit. However, I believe it is the feeling in Ottawa that the lower maintenance costs of a direct current installation would more than pay the initial capital expense. That is a matter of electrical maintenance economics which I do not care to go into, and am not thus expressing any opinion on; In other words, the decision to switch from an alternating current to a direct current installation was made in Ottawa. Thus my recommendation for the purchase of a direct current installation and the acceptance of Bruce Robinson Electric Tender for \$4,498.00 is only following out the decision handed me, to install a direct current machine.

COST ESTIMATE OF D.C. POWER PLANT FOR
ROCHER RIVER 2-CLASSROOM SCHOOL

The generator room as constructed is too small to house a D.C. plant and 110 V. battery bank. The 12' x 24' warehouse built in 1948 must therefore be converted to a generator house. The conversion is as shown on the attached sketch. Also 12 fluorescent lighting fixtures must be replaced with 12 - 300 w. incandescent semi-direct lighting units.

Electric motor on the circulating fan of the hot air furnace may have to be exchanged for a D.C. Motor.

Dear Colonel Anderson:

Rocher River Indian Day School.

The Director of the Lands and Development Services Branch has forwarded to me a copy of the letter which you received from Mr. W.J. Johnston, your District Engineer in Edmonton, dated April 6, 1949, concerning the provision of an electrical generator for the above school.

Careful consideration has been given to the provision of either a direct current unit or an alternating current generator. Although the direct current unit is more expensive to purchase originally than the alternating current generator, we feel that in the important matter of operating costs, the direct current unit will prove to be not only less expensive but also easier to maintain. We note that the estimate for the D.C. plant should be only \$4,798. as this apparently includes the set with the batteries. It is presumed that the tender of Bruce Robinson Electric Limited of Edmonton is the one Mr. Johnston is favouring in view of the promise of delivery within three or four weeks.

If this is the case, then his cost estimate of a D.C. power plant would seem to be much higher than the actual cost of the unit agreed on by this firm. His estimate is for \$6,800. for the plant, whereas the actual cost is \$2,000. less.

We also feel that the extension necessary for the housing of the D.C. plant could have been made to the main building. However, we note that this is not now convenient, and that he intends to convert the warehouse previously constructed.

Sincerely yours,

W. J. Johnston

When the decision was made to change from alternating current to direct current in the 2-classroom school at Rocher River, N.W.T., the contract had already been awarded for electrical work and called for the supply of fluorescent lighting. These would be useless under direct current and it has been necessary to supply a type of bulb suitable for direct current in the school at Rocher River. The fluorescent fixtures which had already been delivered are being diverted to Aklavik for installation in the 2-classroom day school there. This detail is being arranged in the district engineer's office at Edmonton but I wish to advise you of what is being done.

R. BLAIS, CHIEF ENGINEER, PWD - OTTAWA.

I refer to my telegram of July 26th and your telegram of July 27th in reference to purchase of Diesel oil and necessary lubricants for electric light plant at Rocher River, N.W.T.

The reason I telegraphed you was to find out for sure if I should order this material, as Indian Affairs Branch had ordered the firewood for the wood-burning furnace. Rocher River was the only place where a wood-burning furnace was installed, and all other schools burn oil. Thus there was a chance that when Indian Affairs Branch were ordering the firewood for the furnace they might also be ordering the oil supplies for the Direct Current Electric Generating set.

Your letter of December 22nd, 1948, gave instructions that oil for the first year's supply should be considered a charge against the construction programme. Thus from this letter I had the authority to make the purchase, but wanted to be positive there was no chance of duplication in ordering.

The amount of the order placed is \$699.67, f.o.b., Waterways, Alberta, and freight and handling charges on same may bring the total purchase to \$1,000 when delivered at school at Rocher River.

Work was suspended on the school on July 21st but there are still some unfinished items of carpenter work remaining to be done due, in part, to the non-arrival of necessary hardware. Some ten days' work of a workman, would complete this phase of the project. The Electric Generating set, although delivered and installed, is not fully operating possibly through unfamiliarity of the workman sent in to set up this unit. I am having this matter checked on further when a starting motor arrives and some small expense will be required further, to complete this installation.

I shall let you know shortly if I require extra funds for the purchase of the Diesel oil and lubricants.

I am writing L.C. Hunter, Superintendent of Indian Agencies Fort Norman, sending a copy of the Purchase Requisition placed for the several grades of oil and lubricants. This will both advise him that the purchase has been made and also serve as a sample of types of oil and lubricants required for the D.C. Generating set when re-ordering of materials is necessary next year.

I would suggest this letter be drawn to the attention of Col. B.F. Neary, Department of Education, Indian Affairs Branch.

P.S. I presume the teachers at the various points where oil is being supplied are being instructed to apply for the refund on deposit which is available when empty steel drums are returned. The return will not be possible until next year. *W.J.J.*

Dear Mr. Johnston:

Your report of July 28 was forwarded here by your Department. We have appointed a man and his wife as teachers at this school. I am quite certain that he will be able to operate the electric generating set as he has had considerable experience previously in the North. Mr. Blackburn and his wife are leaving Edmonton on August 20 and I will get him to see you in Edmonton before he proceeds north. You can then arrange to discuss with him your plans for sending in a workman when the starting motor arrives.

I am pleased to note that you have sent Mr. Hunter a copy of your purchase requisition so that he will be aware of the types of fuel required for his schools next year.

Sincerely yours,

Bernard F. Neary,

Mr. W. J. Johnston,
District Engineer,

Dear Mr. Johnston:

I was at Rocher River on the 28th of July last and left the package of filters which you sent for the lighting plant for the school.

George McCallum is acting as caretaker as you know. He appears capable and has a sense of responsibility.

I have the following comments to make about the building:-

Living Quarters

Bathroom--The linoleum has not been laid although there is some available. The vent pipe for the plumbing fixtures passes through the floor and the ceiling and is open to view. It should be painted. The holes in the floor and ceiling were cut much too large and should be covered up with some kind of trim as they are very unsightly.

Living Room--There is a vent pipe that passes through this room which is open to view and should be painted. The holes through the floor and ceiling were very roughly cut and should be filled in or trimmed since a bad draft will come through them.

The hall and stairway from the lower floor to the living quarters, including all trim and doors, have been left unpainted.

South East Bedroom--There is a vent pipe open to view here also which should be painted. The holes in the floor and ceiling here too are much too large and should be filled in or trimmed.

Downstairs

The storeroom for school supplies, including the ceiling, should be painted. The school furniture is lying scattered around the rooms partly assembled. Assembling of the furniture should be completed. Furniture and supplies now stored with the Hudson's Bay Company and Mr. DeMelt should be delivered to the school. The sliding doors were not installed properly and if an attempt is made to open them, they are more than likely to fall over and tear loose from the hinges. This should be investigated and the proper work carried out. Evidently some mistake was made in wiring the school and when the lighting switches were being tested, it was found that the hall lights did not operate. It was then necessary to cut a hole in the ceiling of the hall and this has been left uncovered. Possibly there was not sufficient plaster board left over to make a repair although something should certainly be done about it.

Power Plant Building

There was apparently not sufficient asbestos siding to complete two sides of this building. The interior should be painted. Has no arrangement been made for a stove for this building? If it is not properly heated, the batteries will freeze and the lighting plant will be of no use.

Mr. W.J.J. August 1, 1949. -2-

This is a Lister lighting plant than which there are none better made. A special arrangement is provided on this plant for starting the engine by throwing a switch which turns the generator into a motor, the current from the batteries turns the generator over and starts the engine. The wiring of this part has evidently been done wrong, because, when the switch is thrown the motor does not turn over and the battery terminals heat up so much that there is danger of their melting. Evidently the batteries are just shorting the current going to the motor. The electrician who did the job stated that he knew nothing whatever about this class of work. Although the engine is not difficult to start by hand, it requires two men to do so and I do not think the plant should be left as it is.

You should be sure that the watchman or caretaker has adequate instruction in the running of this plant. An ample supply of distilled water for refilling the batteries should be on hand as well as proper grade of lubricating oil for the machine. I would strongly recommend that a man completely familiar with the maintenance and operation of this plant be sent in to properly instruct the caretaker, otherwise we are liable to have the machine out of repair and this will entail heavy expense.

There is a small warehouse at the rear of the school in which is stored a certain amount of surplus material from construction. There is a considerable pile of other material including lumber, bricks and fencing lying outside which will disappear if not properly stored. I think there is room in the building for it and arrangements should also be made to look after it properly.

The school yard has been left littered with scrap ends of lumber and all of the miscellaneous left-over building materials. It is very unsightly and I certainly think it is the responsibility of your department, in constructing buildings, to clean up before you leave.

I am writing to our Head Office asking that proper arrangements be made for the employment of a caretaker.

Yours truly,

Dear Sir:

I am replying to your letter of August 15th, advising that Mr. Blackburn and his wife were leaving Edmonton on August 20th for Rocher River. Actually Mr. and Mrs. Blackburn only arrived in Edmonton today and, according to present arrangements, are expected to arrive at Rocher River on September 1st. I have arranged the various train and airplane reservations for them via Fort Smith, N.W.T., and feel there will be no difficulty in their arrival.

The D.C. electric generating plant is not working satisfactorily, and the manufacturer's agents here of this plant have promised to send a representative to Rocher River to inspect it and put it in first-class running order. I am delaying the arrival of this mechanic until after Mr. and Mrs. Blackburn have arrived at Rocher River, in order that Mr. Blackburn may receive first-hand instructions.

Mr. Blackburn showed me a letter you had written him, and I gather it is the intention for Mr. Blackburn to assume the responsibility for the maintenance and operation of this D.C. electric generating plant. A man is presently looking after this unit and performing general watchman and janitor services while the building is unoccupied, but I am leaving the final permanent arrangements to be worked out by Mr. Blackburn after his arrival. I have also contacted the engineer of this Department at Yellowknife to discuss the matter with Mr. I. F. Kirkby of Indian Affairs Branch, Yellowknife. It is my understanding that the permanent arrangement regarding janitor services and a maintenance man for electric generating plant,

August 29th. 1949.

Mr. B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Ottawa, Ont.

Dear Sir:

Attached please find Requisitions covering janitor supplies, noon lunch requirements and wood needed for the school term beginning Sept. 6th. 1949.

As at Hay River I do not believe that any of these items have been ordered and they are all urgently needed to start the school in operation. Items of supplies that are needed immediately will be purchased locally at the store until such time as the above order arrives.

The order if shipped immediately should be in time to catch the last boat of the Hudson's Bay into Rocher River this fall before freeze up. If not the shipment could be sent by boat as far as Fort Smith c/o Fred Fraser District Administrator and sent to Rocher River in small quantities whenever the Mines and Resources plane was making a trip to Yellowknife or other point in the North. In this way items could be put into a very out-of-the-way place at no extra cost. Most of the items with the exception of soap are not stacked at Rocher River and we must ship them in.

The cook stove at Rocher River is a wood burner and takes a fourteen inch stick. As all the wood in the yard is in four foot lengths for the furnace it will either be necessary to re-cut the wood or have a supply of cookstove wood brought in from the woods. If we cut the furnace wood up we may run short and be required to get more cut during the winter. As we will need wood for another season in any case I believe it would be more economical to have the wood cut and delivered directly as cook stove wood. I therefore request authority to cut ten cords stove wood at a cost of approx. 12.50 per cord.

The furniture and kitchen utensils supplied at this school is very skimpy and as at Hay River I believe we should put in a complete unit of standard equipment. I believe Mr. Martin was asked to submit a list and although I do not know what the list contained it is reasonable to expect that Rocher River should get the same. When I inspected the school last week it was noted that no dishes nor cutlery was delivered but that pots and pans had come. As the stores at Rocher do not stock dishes etc. it will be necessary to either ship them in by air immediately or purchase locally at Yellowknife and take them into the school first chance we have. Will it be in order for me to make these purchases or will it come from Edmonton.

No water system has as yet been installed but the Public works are to complete next summer and in the mean time enough old barrels can be found to hold water hauled from the river.

Yours very truly.

The Department approves the purchase of the following noon lunch supplies for the Rocher River Indian Day School:

50 lbs. Navy beans
50 lbs. Macaroni
25 lbs. Lipton's dry noodle soup
25 lbs. Cocoa
4 cases Condensed Milk

The Department feels that in view of Family Allowance payments made, noon day lunch expenditures should be low. These may be supplied from October 1st to March 1st. These items may be purchased from the Hudson's Bay Company, Edmonton.

With reference to ten cords of cook stove wood, the Department approves the purchase of this wood. However, it may be pointed out that an attempt should be made to have local Indian labour cut and deliver the necessary wood if at all possible.

Attention - Col. Neary

Mr. and Mrs. Blackburn who are proceeding to Talston River to take over the school there passed through Fort Smith today. We provided them with aircraft transportation to their destination.

As there was some question as to what rations, if any, were on hand in Talston River, they purchased a small supply at the Hudsons Bay Company here, and the manager has brought the account along to me. I have certified the account and I am enclosing it herewith, as I understand from Mrs. Blackburn that your branch would pay the account and deduct the amount from their Northern Allowance Amount.

As we make trips to their vicinity now and then, I have made arrangements with them to let us know in advance so that they can get us to bring them down fresh meat and other supplies from Fort Smith.

Yours truly,

Fred Fraser

During the past month I have been able to visit the three Indian Day Schools in this Agency as well as the Fort Resolution Residential School. As this trip was made just after the opening of the school term I believe it worth while to report on my observations at each point.

On September 14th, proceeded to Rocher River with Agency boat. This school had opened for the first time on September the 6th, and was progressing very favourably. The day I attended this school 33 pupils were in attendance and a few more were expected to come in. For the most part this number or possibly a few more will be the limit. Some of these children will move out with their parents for the winter hunt but I believe well over 25 will be in attendance at all times.

The Superintendent of Indian Education was contacted and permission to construct a limited number of tables and benches to accommodate the extra pupils was obtained. These tables were to be so constructed that they can be used as ping-pong tables in a games room once more desks are obtained.

A large number, if not all the natives at this settlement are in the settlement for the greater part of the summer and now that we have a welfare teacher at this point, I believe we should encourage gardening, etc., if we are to improve the welfare of these natives. Mr. & Mrs. Blackburn are very enthusiastic about doing just this work and as we have a tractor at Resolution, I will have it taken to Rocher River and plow up a section of the school yard as well as an area for communal gardens. It is my understanding that this type of work is part of the Welfare teachers job and in this country the first requirement is to improve the Indians standard of living by better methods of obtaining his food and clothing. A request for rakes and hoes for the spring gardening was noted and is on attached requisition.

As to Mr. Blackburn's status, it is obvious that he expects

to be second teacher when there are over 30 pupils and wants to hire a man to haul water, carry in wood and do the janitor jobs. I understood that Mr. Blackburn was to look after the school and we were not going to hire a janitor. From my talks with him I gathered that he felt that the teaching of the extra pupils and the night classes he took made it impossible to do the janitor work. As Mrs. Blackburn is the welfare teacher, I thought it was her place to teach the older persons and to contact the Indians in the settlement.

Both these people seem enthusiastic and should, I hope, help to make Rocher River a better place for the Indians. I would at the same time like to know whether we are to hire the services of an extra man as janitor. I cannot see how two teachers on full time pay are needed to teach 30 pupils, but can be corrected.

I have seen enormous progress at all the schools since last term and I believe we can look forward with confidence to the results that will be obtained from the new type of school in the Northwest Territories.

I desire to refer to that section of
your letter of September 27th in which you
mention janitor service at the above school.

It was distinctly understood by Mr.
and Mrs. Blackburn when they were proceeding
to Rocher River that the Department would
not provide a salary for janitor service.

Re: Your Voucher No. 148

The above was issued in favour of the Hudson's Bay Company, and on their account dated September 30th, amounting to \$194.50, the following items appear:

Radiogram to Waterways re luggage 1.75
Radiogram to Edmonton re Mess supplies 5.50
Radiogram to Edmonton re cancellation
of Mess Order 1.75

The above items are unusual charges, and we would appreciate having some information about them so that we can decide if the Department is liable for their payment.

OFFICE OF
INDIAN AGENT

File 139-6-1 (Rocher)

Yellowknife, N.W.T.
October, 13th. 1949.

Bruce Robinson Electric,
10123 - 102nd. Street,
Edmonton, Alta.

Dear Sirs:

We have for the short time the Rocher River school has been in operation been having constant trouble with the light plant as supplied for this school. The last power failure being when one battery post was burned off.

As it was necessary for me to make a trip into this Settlement I had Mr. W. Smith of Yellowknife Electric go in to give the plant a check before any more damage was done. When we examined the plant we found the following defects that were due to faulty instalation and nothing else.

- (a) All battery cells were set up and the posts still had paint and dirt from packing still on them.
- (b) All connectors were dirty some with paper still on and all had been coated with vaseline before being fastened to cell post.
- (c) Five cells in the middle of the bank were reversed so that we had 90 volts instead of 112 volts.
- (d) With low voltage the points of the reverse relay cut-out were fused and were fixed until new arrive.
- (e) Several cell posts had started to burn but after cleaning were servicable.

With cells set up and no paint or dirt removed from post and with the addition of vaseline between post and connector a resistance was set up that burned off the one post and started to burn several others. The posts were all cleaned and connected. Several iron bolts were used in place of lead and copper ones. One afternoon was spent cleaning up battery bank.

Five cells were put in backwards and this reduced voltage to 90 volts. This was corrected and the fact that the plant was not in operation was all that saved these five cells from being ruined. It appeared as though these cells are still good but will report on them later if they do not hold charge.

With the low voltage at the cut out when starting and stopping the points were almost completely burned off and were fixed for the present until new ones are sent in. These points fused and would not cut out the first time we tried the motor after the battery bank was cleaned and put in operation.

The new cell has not arrived at Rocher River at the present time but I picked up the burned cell and will forward to you from Yellowknife, this will enable you to get it before it would have been available through Ft. Smith.

Please send in the following parts to me at Yellowknife so that I can take them into Rocher River on my next trip in.

- 6 Battery connector strips, to replace burned out ones.
- 6 Battery post bolts & nuts, Lead & copper. For connecting end cells to line etc.
- 12 Lugs for line wire and cross conection.
- 1 Set, Reverse Current Relay Points., No name on panel board but presume you know the typã. Possibly one complete cutout would be better and we can return old one to you.

I believe that this information covers the defects that have been encountered so far and I might add that since returning to Yellowknife I received a wire from the Teacher at Rocher River stating that the plant was operating very satisfactorily and all the troubles seemed to be eliminated.

Yours very truly.

Mr. B.F. Neary,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
OTTAWA, Ont.

Dear Sir:

With reference to your letter of October 14th., file 910-5 (E1) regarding the three Radiograms listed on my Voucher No. 148 I have the following explanation.

When the Blackburns arrived at Rocher River there was no sign of mess supplies nor their baggage and in the confusion they wired, first to Waterways about their baggage to make sure that it arrived at Ft. Smith in time to be picked up by the Mines and Resources Plane.

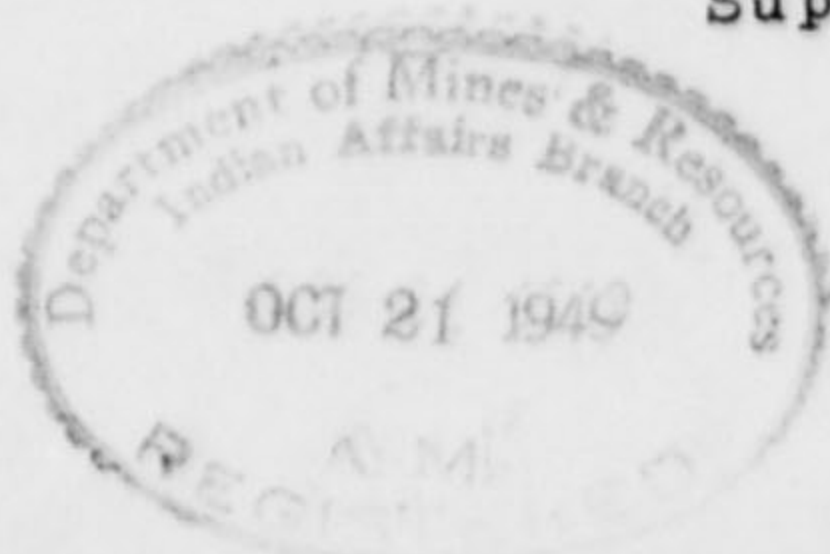

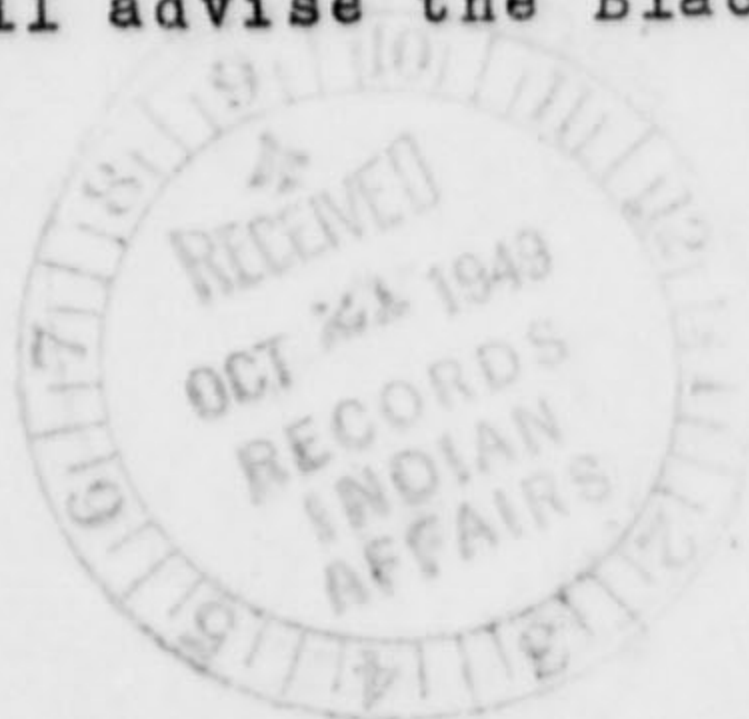

When no order could be found covering rations for the coming winter they wired some one in Edmonton to send in an order and then when the Invoice arrived for their ration they had to send a wire to cancel the first one.

I presume that these were moving in expenses and as such were charge against the Branch. It may be that these items should have been charged against Mrs. Blackburns travelling expenses and not on the account that I rendered.

If the above three wires are considered a charge against Mrs. Blackburn and not payable by the Indian Affairs Branch I will advise the Blackburns accordingly.

Yours very truly,

I.F. Kirkby

Re: Voucher No. 151 issued in
favour of Hudson's Bay Company,
Purchase Order 45586

The above Voucher was issued in an amount
of \$581.00 in favour of the Hudson's Bay Company.
The following amounts have been deducted:

- (1) \$3.44 for Marine Insurance.
- (2) \$12.49 for freight to Waterways.

If the Company reviews the Purchase
Order, on which the goods were ordered, it
will be noted that the prices quoted read "F.O.B.
Waterways".

Yellowknife, N.W.T.
December 14th. 1949.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
OTTAWA, Ont.

Dear Sir:

Freeze up on the lake was late this year and it has only been within the last week that we could fly from the North side of the lake to the south shore. I made a trip into Rocher River yesterday and can make the following report on this school.

The heating of this school is very unsatisfactory and it is almost impossible to keep the class rooms warm enough to even stay in them for an hour at a time. The forced air does not seem to be working at top performance and I will write Mr. W.J. Johnston of Dept. of Public Works to see if he can suggest anything. The furnace jacket itself was too hot to put ones hand on it but little heat seemed to get into the rooms. The floors are too cold to put your hand on them and in all the wash rooms the water in the barrels is freezing and any water spilled on the floors freezes at once. With this wood furnace the heat is there because the jacket and duct for some distance is hot but if we cannot find the trouble there is no way of keeping the school warm once it gets down to fifty or sixty below.

At this point the Dept. of Public Works left many small things undone when they left with the understanding that they were to return next summer to complete the painting, put in the water system and complete the floors. Here as well as at Hay River there is no water except what is hauled from the river and all that can be heated to wash the floors is what can be heated on the small cook stove in the teachers residence. This makes it impossible to scrub floors when it would take several pails to do the job. The water would also freeze to the floor before it could be wiped up. Mr. W.J. Johnston stated that these hardwood floors should not be scrubbed if possible.

Mr. McKinnon complained about the dirt but as we do not have polishers or waxers at this point, not is the varnish jobs completed it is much exaggerated. The Ft. Smith and the Yellowknife schools are held up as examples but the point that at these points the schools have been going for some years, power and power polishers have always been used, running hot water can be had by turning a tap and the local conditions of pure sand or gravel make untold differences. I know that the Administration schools are being held up as such good examples and how poor the Indian Affairs are but once we have been in operation as long as the others we will be just as good or possibly a little better when we take into account the type of workmanship that went into some of our buildings.

The furniture at Rocher River is very skimpy and it is very poor in quality as compared to the Administration school of the same type at Resolution that just opened up. I realize better than some of our critics that we cannot get supplies into Rocher River except during the summer and we must therefore make the best of what we have. I am enclosing

a list of items that were ordered from Eatons catalogue and which should be sent into Rocher River next summer. The teacher will no doubt change from time to time and we should not have to move any furniture for them but supply it all. I feel that a washing machine is a must and that it should be used in her Welfare work if need be. The refrigerator is also needed as one was supplied in the new Administration school at Resolution.

The Blackburn's are using boxes to add to their book shelf space and also for many other purposed. I have enclosed a list of what is supplied and though it is meager I believe that the Teacher understands the problem at Rocher River and that it will be remedied next summer. Here again I feel, that once we have furnished the residence, that so long as we are sure that the building and contents are being maintained in good condition then the residence is the mans own home. He is paying rent for it and officials should not barge through every or any room except by permission.

Mr. Blackburn is to do all the Janitor work and look after the maintenance of the light plant as well as to assist with the Welfare work of the community. Mr. Blackburn will not run the light plant himself but as he is paid for this work then he can pay another party to do the job and we only have to hold Blackburn responsible.

The water and wood must be hauled for some little distance and I have authorized him to hire an Indian to do the job. This work must be done by dog team and cannot be expected of the man.

At Rocher River we have two factions, one the Hudson's Bay trader and the other a free trader. In between there is a group of no good white trash who are dead beats anywhere. To establish a school board of this type of person or in a community such as this will only give the teacher untold grief. None of the whites are out of the fueding, which it is in no uncertain terms and the Bay Manager is just as much a part of the whole thing as any one else. Even the Police dislike going to Rocher River because all one hears is a long series of fantastic tales about one party when he visits one store and then hears equally as fantastic from the other store when he visits it. To make the teacher responsible to any of these individuals would be to drive him out by the first plane.

The above probably does not interest you but it is one of my objections to having a trustee out of the Rocher River whites appointed. If these people were a little more interested in the school and incidentely the Indians than they are about their own fairy tales, which do cause plenty of trouble then I would be in favor of a trustee but not the way things stand. A trustee from any section of the Rocher River whites would be a stool pigeon who would haunt the teacher day and night.

I feel the school work is progressing very favorably and the Indians seem only too willing to attend. There is no trouble with them and all social activities are very orderly and very well attended by these people. The only ones who do not seem to know their places are some of the whites who as in most places have been the real offenders where it comes to bringing alcohol to the Indians. I think this is answering a long felt need in Rocher River and if the Teacher can be kept out of the petty jealousy that exists then we need not worry about the final outcome being a success.

Yours very truly,

I. F. Kirkby

Dear Sir

Re. Rocher River School. Your file 3299 Mics.4-1

On Nov. 25th. I received a wire from the teacher at Rocher River school complaining about the heating of this building. From the wire it was not possible to determine the causes so while in Rocher last week I made an examination of the heating unit and have the following report to make.

The class rooms and all the cloak rooms did not have circulation enough to be able to keep them either warm enough for classes or, in some cases, above freezing. The floors of the class rooms were too cold to hold your hand on for any length of time and the blackboards at the far end of the room were cold at all times. In the wash rooms and the cloak room halls it was impossible to raise the temperature above the freezing point and there was over an inch of ice on the water barrels and any water that spilled on the floors froze at once.

I checked the furnace itself and as the wood burned at this point is fire killed spruce and jack pine there was an abundance of heat right at the furnace. I have been assured that fires are kept on all day and that at night fires are stoked up at ten or eleven and started again at four in the morning. I do not believe that the fault lies with the fires in the furnace but in the air circulating system.

I went to all registers and, for the amount of fire, there was not the amount of hot air coming through that should have been. I did not have any heating plan and some registers in unused rooms were closed off to try and get heat into the class rooms but even there the heat was limited. The hot air seemed to be available at many registers but the cold air would not return to the furnace.

The furnace hot air jacket was too hot to put one's hand on and the hot air duct the full length of the furnace room was hot. From this I would presume that there could be some obstruction in the cold or hot air ducts or that the circulating fan is running too slow. I am sure now that the trouble does not lie in the wood burner itself.

As no circulation seemed possible before, the teacher opened the class room door and the door between the hall and the furnace room, this put two doors opposite open and then they took the back of the air conditioner off exposing the fan. In this way the cold air return was through the doors and not through the cold air return. This had been done the day before I was there and this was the warmest the school had been for weeks. I felt that the cold air return must be faulty but I could not say where. The above arrangement does get heat into the class rooms but all the other cloak rooms and halls are below freezing.

On the day before I checked Rocher River I went into

Ft. Resolution and here the class rooms and all the building was too hot for comfort even though the furnace was not on full. When standing out in the centre of the class rooms one could feel the hot air blowing in his face while at Rocher River even with your face right up to the register there wasn't as much heat coming out.

There is no reason why the wood furnace should not give out as much heat as the oil burner and if the installation of all ducts were the same in bath schools I believe the same heat should be available. We have no Engineer nor anyone who knows the first thing about it at Rocher River, therefore it will be necessary to take a man from here if I can get one.

If you can suggest any remedies that might be applied to this unit we will try them out as it is not going to be possible to operate this building once the weather drops below 40 below without some changes.

At the present time Mr. MacCallum checks the light plant and does a few odd jobs around but from what I have seen of him I am sure that he would deliberately prevent it from working and I do not believe he is capable of doing any repair work of any importance for us. Some of the trouble might be eliminated if one were to experiment with the system, but as no one in Rocher has any ideas or is of any help I feel an Engineer should spend a couple of days in this school when the weather is below 40 degrees and then he can either correct the faults or give an accurate report on why the system does not work, something that no one knows now.

I am sending a copy of this letter to Mr. B.F. Neary our Supt. of Education and if you feel that you can offer any explanations he will be pleased to hear from you direct.

Yours very truly,

I.F. Kirkby.

Dear Sir:

Attached, herewith, is a letter from Mrs. Elizabeth King Beaulieu, resident of Rocher River, offering an organ to the Department for \$75.00. Also, attached herewith is letter from Mr. Blackburn indicating that the organ is in good order and that it would be a great help as they intend to form an orchestra with the local talents.

In view of the high transportation costs to Rocher River and due to the fact that an organ does not need to be tuned, I would advise that the Department purchase this item as it is greatly needed in this community.

Yours very truly,

Organ - Rocher River Day School.

We have received a request from Mr. Blackburn for the purchase of an organ from Mrs. Elizabeth Beaulieu. She is willing to sell this organ to the Department for \$75.00 and Mr. Blackburn states that it is in very good order and that the price is fair.

On your next visit to this school, you might examine the organ and purchase it, if you feel the price to be fair and reasonable.

In submitting the voucher, attach a bill from Mrs. Beaulieu and quote this letter as authority.

Dear Sir:

On my last trip into Rocher River it was noted that the Indian Day School at this point had only two liquid pump type fire extinguishers, both of which are subject to freezing.

We experience great difficulty in getting Janitors at these schools who understand mechanical equipment or their proper use. With this poor janitor service the heating equipment often fails and any type of water extinguisher freezes, rendering it useless.

We have a large light plant and also a large furnace at this point and I request authority to purchase two fool proof extinguishers of the Ansul type, one for the engine room and one for the furnace room. Also two Pyrene extinguishers as stand-by for the same rooms. The local price on the small Ansul type is \$38.25 and the large \$92.50.

Both these types are not effected by freezing and should be provided at once.

FASTER FIRE-STOPPING POWER

WITH ANSUL DRY CHEMICAL FIRE EXTINGUISHERS

Ansul has developed FASTER FIRE STOPPING POWER in the new Ansul Dry Chemical Fire Extinguishers to give you the best in protection especially against Class B (gasoline, oils, gases, greases, etc.) and Class C (electrical equipment) fires. These extinguishers have the highest rating for fire fighting effectiveness, pound for pound, as determined by impartial authority.

These are the outstanding features of Ansul extinguishers:

ALL HAND AND WHEELED EXTINGUISHERS LISTED AND APPROVED BY UNDERWRITERS' LABORATORIES AND FACTORY MUTUAL LABORATORIES

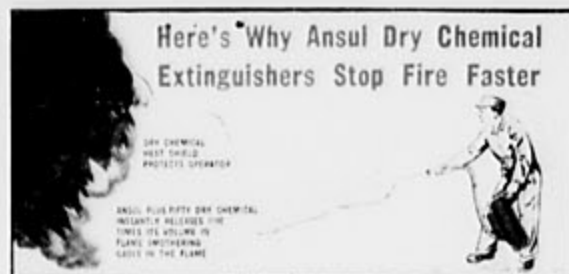

1. Greatly increased fire-killing power.
2. Expert extinguishing by inexperienced operators.
3. Quicker, easier, on-the-spot recharge after use.
4. Greater fire-fighting effectiveness, pound for pound, dollar for dollar.
5. Longer range stream and greater shielding of heat from operator.
6. Increased fire-fighting capacity without increased weight.
7. Engineered to resist corrosion.
8. Simplified and faster operation.

The ANSUL PLUS-FIFTY Dry Chemical used in these Ansul extinguishers is manufactured under exacting laboratory control to obtain the maximum in fire extinguishing properties and to have the superior characteristics listed below.

IMPORTANT CHARACTERISTICS OF ANSUL PLUS-FIFTY DRY CHEMICAL

ANSUL PLUS-FIFTY Dry Chemical, which is a specially processed chemical in powdered form, has these definite and recognized features.

- Provides a heat-shielding screen.
- Non-toxic.
- Non-conductor of electricity.
- Will not freeze.
- Not affected by normal temperature extremes, winds or drafts.
- Eliminates water damage.
- Will not solidify, evaporate or deteriorate.
- Non-corrosive.
- Non-abrasive.
- No periodic recharge necessary.

Ansul Dry Chemical Fire Extinguishers are faster-acting and more effective than any other type of first-aid fire extinguishing equipment. They expel a dry chemical in powdered form which, on striking flame, releases 1100 times its volume of non-toxic fire smothering gases. Because these gases are released at the heart of the fire, their extinguishing action is greatly amplified. For the same reason, the effectiveness of the extinguishers is not reduced by winds or drafts. The stream of dry chemical is easier to direct and control, reaches farther with faster results, and forms a protective heat-shielding screen for the operator.

HERE'S HOW TO USE ANSUL 20 AND ANSUL 30 HAND EXTINGUISHERS

Remove Ringpin Push Lever Down Squeeze Nozzle Handle

Simplified operation is an important feature of Ansul Dry Chemical Fire Extinguishers. They are ready for use in a flash. Only three quick operations are needed for the hand models as illustrated here.

ANSUL THE MASTER OF FLAME

HERE'S HOW TO RECHARGE ANSUL 20 AND ANSUL 30 HAND EXTINGUISHERS ON-THE-SPOT AFTER USE

1. Release Remaining Gas Pressure. 2. Fill With Dry Chemical.

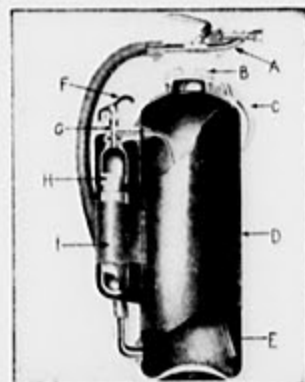

3. Replace Ringpin. 4. Replace Used Cartridge. 5. Replace Cartridge Guard and Reseal with Lead and Wire Seal.

Quicker on-the-spot recharge after use is a valuable feature of all Ansul extinguishers. It provides uninterrupted fire protection without the need of having spare extinguishers on hand.

ANSUL 150A WHEELED EXTINGUISHERS

Extinguisher is equipped with a Dualstream nozzle that delivers either a long range straight stream or a short range fan stream.

• Large in fire fighting capacity even though relatively small in size the ANSUL 150A wheeled extinguisher is especially adapted for indoor use because it can pass through any standard doorway. It can be quickly and easily moved about and operated by one person.

• It is a popular model with industries, refineries, utilities, large garages, etc.

SPECIFICATIONS

CAPACITY 140 lb. ANSUL PLUS-FIFTY Dry Chemical.

NITROGEN 110 cubic ft.

HOSE . . . 50 ft. of 3/4 in.

WEIGHT . . . Shipping weight extinguisher, less chemical, 365 lb. Dry Chemical 162 lb. Total domestic shipping weight 527 lb.

TANK . . . Drawn steel with welded seam.

TEST . . . 500 lb. per sq. in. hydrostatic test.

WIDTH . . . 30 in. overall.

HEIGHT . . . 51 in. overall.

WHEELS . . . Face 2 1/2 in. diameter 26 in.

NOZZLE . . . Dualstream provides optional long range straight stream of 35 ft. to 45 ft. or a shorter and wider fan stream with 15 ft. range.

ANSUL 350A WHEELED EXTINGUISHERS

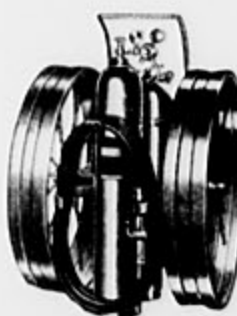

Extinguisher is equipped with a Dualstream nozzle that delivers either a long range straight stream or a short range fan stream.

• Because of its large dry chemical capacity the ANSUL 350A wheeled extinguisher is used by industries, oil refineries, utilities, etc., where extra-hazardous fire conditions exist.

• This equipment provides maximum fire protection for either ground or overhead fires. Its roller bearing wheels give it mobility.

Rear View

SPECIFICATIONS

CAPACITY 300 lb. ANSUL PLUS-FIFTY Dry Chemical.

NITROGEN 220 cubic ft.

HOSE . . . 50 ft. of 3/4 in.

WEIGHT . . . Shipping weight extinguisher, less chemical, 660 lb. Dry Chemical 324 lb. Total domestic shipping weight 984 lb.

ANSUL TRUCK MOUNTS

ANSUL 150A and 350A truck mounts are similar to the wheeled models without the wheels. This equipment with a base plate and steel mounting braces is used on fire trucks, trailers, and similar vehicles. The Kansas City airport crash truck pictured below is a typical installation.

Extinguisher is equipped with a Dualstream nozzle that delivers either a long range straight stream or a short range fan stream.

SPECIFICATIONS

CAPACITY PLUS-FIFTY Dry Chemical, 140 lb. for 150A, 300 lb. for 350A. Nitrogen, 110 cu. ft. for 150A, 220 cu. ft. for 350A.

WEIGHT . . . Shipping weight of equipment, less dry chemical, for 150A, 350 lb., for 350A, 675 lb. Dry chemical for 150A, 162 lb., for 350A, 324 lb. Total domestic shipping weight for 150A, 512 lb., for 350A, 999 lb.

DIMENSIONS Height 51 in. for 150A, 60 in. for 350A. Width (less mounting braces) 17 in. for 150A, 26 in. for 350A. Depth (less mounting braces) 26 in. for 150A, 40 in. for 350A.

NOZZLE . . . Dualstream type. Provides optional long range straight stream of 35 ft. to 45 ft. or a shorter and wider fan stream with 15 ft. range.

MOUNTING Four steel braces and base plate.

ANSUL MINE FIRE FIGHTING CAR

Extinguisher is equipped with a Dualstream nozzle that delivers either a long range straight stream or a short range fan stream.

The ANSUL mine fire fighting car is the proven answer to more adequate mine fire protection. Nine hundred pounds of ANSUL PLUS-FIFTY Dry Chemical knocks the fire down to a smoldering state and 125 gallons of water can be used to extinguish any remaining embers. The equipment is engineered for installation on any standard mine car chassis and leaves space for additional equipment.

SPECIFICATIONS

CAPACITY . . . 900 lb. ANSUL PLUS-FIFTY Dry Chemical, 125 gal. water.

NITROGEN . . . 880 cu. ft. or 220 cu. ft. in each of three cylinders for dry chemical and 220 cu. ft. for water pressure.

HOSE . . . 100 ft. 3/4 in. for two dry chemical tanks connected in parallel; 50 ft. for single tank; 100 ft. for water tank.

WEIGHT . . . Total domestic shipping weight, less chassis, 3,000 lb.

TANK . . . Drawn steel with welded seam for dry chemical. All welded tank for water.

TEST . . . 500 lb. per sq. in. hydrostatic test.

NOZZLE . . . Dualstream type for dry chemical lines which provides optional long range straight stream of 35 ft. to 45 ft., or a shorter and wider fan stream with 15 ft. range. For the water line a nozzle is provided to give either straight stream or fog.

CHASSIS . . . Not furnished. Equipment can be installed on any standard mine car chassis.

FOR RECHARGING - AFTER USE

With ANSUL dry chemical fire extinguishing equipment, you have the advantage of being able to recharge quickly on the spot after use. All that is necessary for uninterrupted fire protection is a supply of ANSUL PLUS-FIFTY Dry Chemical and spare gas pressure cartridges for the hand models or nitrogen cylinders for the wheeled models, truck mounts, and mine cars.

ANSUL PLUS-FIFTY DRY CHEMICAL

ANSUL PLUS-FIFTY Dry Chemical is available for recharging in 4 lb., 25 lb. and 50 lb. containers. Shipping weight is 5 lb., 25 lb. and 51 lb. respectively.

NITROGEN CYLINDER

Nitrogen cylinders used on ANSUL wheeled extinguishers, truck mounts and mine cars are available by any reliable compressed gas supplier equipped to recharge water-pumped nitrogen cylinders.

For 150A wheeled model and 150A truck mount No. 15W-20-74 nitrogen cylinder. Shipping weight 84 lb. For 350A wheeled model, 350A truck mount and mine car No. 35W-20-74 nitrogen cylinder. Shipping weight 154 lb.

GAS PRESSURE CARTRIDGE

This is the type of gas pressure cartridge used for the ANSUL 4, 20 and ANSUL 30 extinguishers.

For ANSUL 4 Ext. No. 1046X. Shipping weight 1 1/2 lb. For ANSUL 20 Ext. No. 2041A. Shipping weight 3 1/2 lb. For ANSUL 30 Ext. No. 2057A. Shipping weight 4 lb. No. 2041A can be used in Model 15F Dugan extinguisher. No. 2057A in the Model 30F Dugan extinguisher.

MOUNTING BRACKET

This type bracket, for vertical or horizontal mounting, is available for the Ansul 20 and Ansul 30 extinguishers. Cast aluminum alloy construction. Pad lining protects extinguisher finish. Has centrally located clamp for mounting extinguisher in narrow space.

Re: Rocher River Indian Day School
Your File 139-6-1

We have your letter of the 21st instant with reference to the repairs to the lighting plant at the above school. I note your suggestion that we communicate with Bruce Robinson Electric Company with regard to the installation of this plant. This building was erected for us under the direction of the Public Works Department and we were not informed regarding the firm who supplied the lighting plant. I suggest that you correspond with the Public Works engineer Mr. Johnston, whose office is in Edmonton, and supply him with a report regarding your visit to the school. You should explain to him that you consider the difficulty in operating the lighting plant was due to faulty installation rather than faulty maintenance. He will then be in a position to check up the matter with the firm. In the meantime the account is being paid.

Supt. of Indian Education.

Dear Sir:

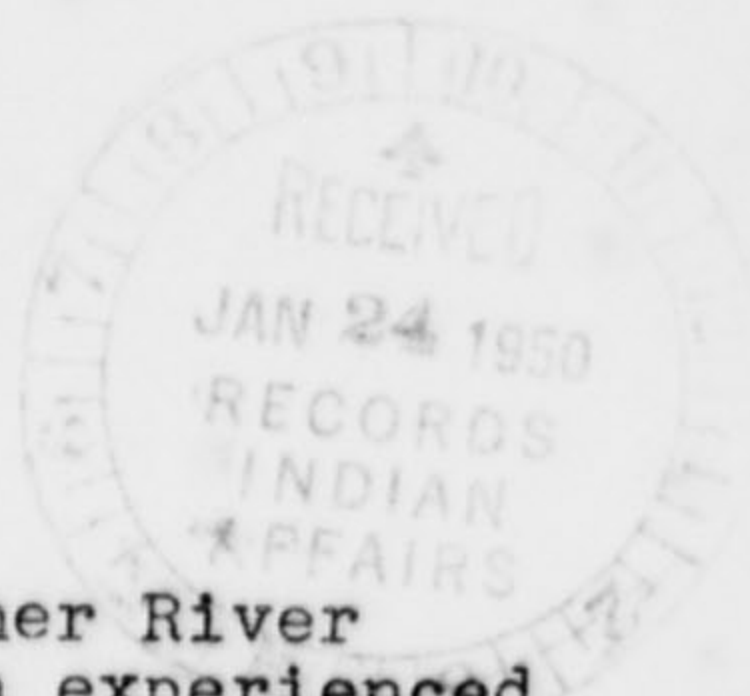

Since commencement of operation of the Rocher River School light plant much difficulty has been experienced in the operation and early in October I made a trip into this school with Mr. Will Smith, Manager of the Yellowknife Power Company and many of our difficulties were found to be due to faulty installation. I wrote Bruce Robinson Electric on Oct 13th, my file #139-6-1, Rocher River and explained all the faults found, copy of this letter was sent to you at that time.

At the time it was thought that the low voltage had only burned the relay points but this unit has never worked since and later was found to be completely burned out. I wired Bruce Robinson for a new part and this is covered in Voucher #315. I believe this repair was necessary through faulty installation and not faulty maintenance and should be supplied free by the supplier of the equipment. If you feel this is the case will you please contact Bruce Robinson Electric Ltd. before making payment.

Yours very truly,

RATIONS - INDIAN DAY SCHOOL TEACHERS

At some of the settlements in the Northwest Territories the assortment of groceries and provisions available for purchase is rather limited. In many cases, the stocks are meagre and there is little variety in the items offered.

To overcome this situation and as a measure of assistance to the teachers, arrangements have been made with the Hudson's Bay Company to have requisitions for rations filled at Edmonton and shipped directly to the individual teacher.

The Nutrition Division of the Department of National Health and Welfare has prepared a ration list of the items required for one person living for one year in the North. We have secured approximate prices as quoted by the Hudson's Bay Company in Edmonton. Attached is this list, with the prices, of course, being subject to variation.

On the basis of this list the teacher may then prepare an order and forward same to this office. We will then place the order with a wholesale grocery firm in Edmonton and the items will be shipped by water transportation. The cost at wholesale price of the rations purchased in this manner on behalf of the teacher, together with transportation charges on same, will be deducted on a monthly basis from the living allowance paid to northern employees of the Department. The maximum that can be deducted from the Northern Living Allowance is \$35. a month (i.e) \$350. for Day School Teachers and \$420. from Welfare Teachers. In cases where the cost of the rations and transportation charges is in excess of the above possible deductions, the teacher will be obliged to pay the difference.

The requisition showing the requirements must reach Ottawa prior to March 15, 1950, complete with express address and shipping instructions to ensure delivery during the navigation season.

Bernard F. Neary,
Supt. of Indian Education.

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Sir:

As Mrs. Blackburn of Rocher River is most interested in furthering the welfare of the residents of the area, she would like to know what action is being taken to purchase the organ referred to in my letter of January 6, 1950. As this organ is cheap and essential to the cultural development of the community, it would be a shame if the Department passed up an opportunity to purchase this item at little cost. Kindly give this matter due consideration and let me know as to the outcome of your decisions.

Yours very truly,

Dear Mr. McKinnon:

I wrote to Mr. Kirkby on January 5 concerning the organ and asked that he examine it on his next visit to Rocher River. Before purchase of this kind can be made, one of our officials must examine the article and declare the price to be fair and reasonable.

I believe that we will shortly hear from Mr. Kirkby concerning this matter.

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Dear Sir;

Reference your wire of Feb. 1st. I wish to report that Rocher River School light plant has been repaired and the only cost involved was for the plane trip into Rocher River settlement and to purchase one drill for work on the panel board.

The aircraft company supplied their Mechanic and the pilot gave his time, also the manager of Yellowknife Electric Power Co. also went along and gave his time. The bill for flying time into Rocher River was \$150.00 and will be forwarded as soon as received from the Airways office in Edmonton.

Yours very truly,

Dear Sir:

Re: Our Voucher #346

With reference to the fire extinguishers for Rocher River School. As these extinguishers were to be sent to a point where no refills or cartridges could be obtained, I purchased on cartridge for each extinguisher and 25 lbs of chemical to be used if the Extinguishers required refilling.

Some spoons and soup bowls were purchased early in the season but as the Bay at that point did not have enough to fill our order, I purchased the remainder locally.

Re: P/O #44848

This order was filled by the T. Eaton Company and shipped in July of 1949 via Waterways to the teacher at Rocher River School. The supplies shipped were received and the account was vouchered on October 13th by Voucher #149 for \$57.46.

I received a letter from the T. Eaton Company informing me that this account had not been paid and that a freight receipt in the amount of .85 cents covering charges on floor mats could not be traced. If this receipt is holding up payment please delete from the total amount on request from the T. Eaton Company. Enclosed please find their letter authorizing this deletion.

Dear Sir:-

The following is an excerpt from a letter to this Division
from the Hudson's Bay Company:-

"We also have an account amounting to \$611.48 covering ship-
ments made to Mr. J.E. Blackburn at Rocher River.

We are uncertain as to whether this actually comes under
your Department, although we were so advised by the Manager of
our Winnipeg Depot. We have made request for payment to Mr.
Blackburn and he has sent us a copy of a letter which he wrote
to Mr. Bernard F. Neary Superintendent of Education, Department
of Indian Education in Ottawa, wherein he has requested that a
cheque be sent in to us and arrangements made to charge his
salary on a monthly basis, but we have heard nothing further to
date.

We explained to Mr. Blackburn that we cannot be expected
to supply groceries in bulk at wholesale prices, and then wait
twelve months for settlement.

Should this account come under your Department, we shall be
glad to hear from you."

We have not communicated with the Company concerning their
query, but will advise them that the matter has been brought to
your attention.

Dear Sir:

It is noticed on the last accounts submitted by Mr. E. R. DeMelt to this office that he supplied the ice for the school and also freighted the organ from the house in which it had formerly been to the school.

It has been brought to your attention several times that small jobs such as cartage, hauling of wood, ice, etc. were to be given to Indians if at all possible. If Indians did the supplying of ice and their account was paid through DeMelt this should be stated.

In future please insure that the Indians are given first preference in any small jobs that might come along. I might add that a \$9.00 freighting bill on the organ is very high indeed for a job as small as this one appears to be. It is your responsibility to insure that we get full value for public funds expended for any purpose at the Rocher River Indian Day School.

Yours very truly,

Dear Sir:

This will confirm my conversation with Mr. Gilbert, in which I advised him that we had already made so many transfers between allotments this year that we would prefer not to make any further such requests of Treasury Board.

We have included in our 1950-51 Estimates the sum of \$11,000 as a re-vote to complete this project.

If within the next week, the need arises for a transfer, we will see to it that Rocher River is included in the amount of \$3,500.00.

Dear Sir:

I beg to acknowledge your letter of March 30th, 1950 in which you give me authority to purchase hygiene supplies for the schools in this Agency.

I note that you refer to my three schools but your list of supplies is from the Requisition for the Rocher River school only and before I place three orders I would like to be sure that you intended identical orders be placed for all three, or will lists for the other schools follow.

I would like to point out that there is a great difference between these schools and that what is required at one place is a waste at another and visa versa. At Hay River we do not use dustbane but we do use paste wax with the new waxer supplied. All the class rooms at Hay River are equiped with fluorescent lights and as these are beginning to dim and burn out we need replacements. The establishment at Hay River is well over twice the size of Rocher River with four times as many pupils, while Ft. Rae is very small with only summer attendance being of any consequence.

I will attempt to adjust any items that are not needed and omit them from the schools were they do not apply, but I have no authority to add or substitute at the other schools, thus my enquiry as to whether the list is for the three schools in the Agency.

Yours very truly,

I.F. Kirkby,
Supt. of Indian Agencies.

The Department finds it necessary to return your Voucher 519, as John Lockhart, who did the work, has not signed the account. When submitting accounts similar to Voucher 519, you should always have them signed by the person who actually did the work, thereby acknowledging that he received the goods.

OFFICE OF
INDIAN AGENT

Yellowknife, N.W.T.
April 28th. 1950.

B.F. Neary, Esq.,
Supt. of Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
OTTAWA, Ontario.

Dear Sir:

During the past week I was able to make a trip into
Rocher River and the school is not being held at this time
I was able to inspect the building both to maintenance and
to amount of supplies used and any possible shortages that
might occur during the coming season.

With regard to fuel and light supplies requisitioned
for on my annual estimates I now find that the light plant has
not used a fraction of the fuel oil sent in last fall and at
this school we still have enough to last us for two or three
years. I would request that the item for fuel oil be deleted
but that the lubricants etc. be delivered as requested. On the
same sheet I had requisitioned for sixty cord of wood for the
furnace but now that the winter is over we find it takes more
than expected and the wood item should be increased to eighty
cords of furnace wood.

The establishment seems to be operating satisfactorily
now and once the D.P. Works complete their painting and the
installation of the water system next summer we should have
little complaint with the exception of the wood floors which
are going to be a source of irritation for the life of the
building. The floors that were put in were hardwood that was
not thoroughly dry and since being put down has shrunk so that
many of the cracks are very wide and unsightly. This floor
was only given one coat of light varnish, which wore off in
a very short time and with the weekly scrubbing that is necessary
to keep the place clean the wood work is taking a great deal
more wear than it should and is rapidly deteriorating. There
is a great deal of conflicting views as to the best method of
preserving these floors and if they are not scrubbed spotless
there is a section that complains that the teacher is not
keeping the place respectable and another section who complain
that the floors are being ruined because they are scrubbed.
It is a unfortunate that the floors were not battleship linoleum
as are all the Government offices, which incidentally do not
receive one quarter as much wear as the school floors.

The floors at Rocher River are in need of immediate
varnishing and I would request that an order be placed for
Twenty (20) gallons of Florcrux light oak varnish to be shipped
to reach Waterways not later than June 5th. 1950. As I believe
D.P. Works will be working at this school early in the season
it might be possible to have them do the varnishing of the
floors while they are there.

My former requisitions did not include this item
as the teacher had not requested it and it is now apparent that
we must have it for the floors as soon as possible.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

Enclosed please find my supplementary requisition for varnish and brushes that were omitted from the last orders sent in early in the month.

A great deal of difficulty is being experienced at this school in keeping the children conscious of the value of cleanliness and of keeping a clean and tidy school. At this point all the pupils resent having to clean up at close of school and have shown open opposition to being made to clean up before entering the building. This is, as far as I am concerned, indicative of the home life and training of the Indians and has made life very unpleasant for the school teacher.

My letter of December 14th, this file outlined the conflict between the advocates of scrubbing the floors and those against it which is still going on.

It is the intention at this point to hold school all summer but as this is a two room school there is no reason why one class room cannot be completed while the other is being used and then make the change. This is going to inconvenience the carpenters who will be back to finish the job but as we have put up with a half finished job all year they should not complain for a few weeks.

Yours very truly,

T. F. Birken,
Supt. of Indian Agencies.

Dear Mrs. Blackburn:

In my letter of January 25th, you were advised of the policy of the Department in connection with rations for teachers in Northern Schools.

To this date no word has been received from you as to whether you wish to take advantage of the Department's offer.

Please advise us as soon as possible in this respect. It should be understood that there is no compulsion in taking the ration as the choice is entirely voluntary.

Yours sincerely,

Dear Sir:

With reference to my voucher #127 returned because no expenditure authorization was quoted I wish to advise that as no water system has ever been installed at this school and with the need of considerable water for many uses this school has been supplied all winter and spring with water hauled by a local man who has a team and at the end of each month the bill has been forwarded for payment.

As water must be supplied to any school I considered this a legitimate charge against the money estimated for the normal operation of these schools and as no authorization has been sent for this necessary service the vouchers have been sent without these.

A number of small items must be purchased each month to keep these large schools running and as these necessary purchases are always kept to a minimum they have been forwarded for payment.

OFFICE OF THE DIRECTOR

21 August, 1950.

Colonel B.F. Neary,
Indian Affairs Branch,
Department of Citizenship & Immigration,
Ottawa, Ontario.

Dear Colonel Neary:

The following extracts from reports received from Mr. I.M. Marshall of our Engineering and Construction Service, who made an inspection trip to the Mackenzie District this summer, are forwarded for your information. They refer to the school buildings constructed by the Department of Public Works for the Indian Affairs Branch.

"Rocher River School - Both Rocher River and Fort Resolution have the same fault in the double doors of the school. Both, also, have a more marked gap on the southerly side. They will all need attention before winter.

The reason the Rocher River school was so cold last winter was because the plumber removed some of the shiplap and insulation and did not replace it. It is replaced now. "

"Fort Norman School - In the school the accorian doors cannot be locked as the floor has dropped so that the bolts will not engage. The two doors at the back entrance will not close by three inches even though they were planed off by the Dept. of Public Works less than a month ago. This is another school erected by D.P.W. on concrete blocks, 6 feet deep, (a scant five feet buried) four feet square at the base and one foot square on top. My investigation showed five feet before frost was encountered. Dept. of Public Works started to put in a septic tank in June but abandoned the effort at about 3½ feet of depth. "

Yours very truly,

R.A. Gibson,
Director.

Re: Rocher River Indian Day School

Mr. I.M. Marshall of the Engineering Service of the Department of Resources and Development, who recently made an inspection trip in the Mackenzie District, reports as follows regarding the above school:

"Rocher River School - Both Rocher River and Fort Resolution have the same fault in the double doors of the school. Both also have a more marked gap on the southerly side. They will all need attention before winter.

The reason the Rocher River School was so cold last winter was because the plumber removed some of the shiplap and insulation and did not replace it. It is replaced now."

You can arrange to have the double doors fixed.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Abkhavik Residential School for the Quarter ended Sept 30th 1941.

Principal L. D. Livingston

Dated Sept 20th 1941

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the AKLAVIK ROMAN CATHOLIC RESIDENTIAL School for the Quarter ended DEC. 19 44

Principal L. J. Dussault

Dated Dec. 28th 19 44

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the AKLAVIK ROMAN CATHOLIC RESIDENTIAL School for the Quarter ended SEPTEMBER 30th 1945.

Principal Sister J. Desautels

Dated Sept. 21st 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the AKLAVIK ROMAN CATHOLIC RESIDENTIAL School for the Quarter ended June 30th 1949.

Principal Sister J. Dussault

Dated June 30th 1949

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Handwritten calculations:

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Immaculate Conception School for the Quarter ended June 30th 1951

Principal.....

Dated July 11th 1951

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Imm. Conception Residential School for the Quarter ended March 31st, 1952.

Principal Sister Irene Gallant

Dated April 1, 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Reverend Sir:

Pursuant to your conversation with Mr. Ferrier, I have to authorize an expenditure of between \$75.00 and \$100.00 for a large tent for the holiday season at the Aklavik R. C. Indian Residential School. It is understood that if the Department supplies this equipment, there will be no transportation or other holiday expenses. You should make the purchase some time in May and forward a properly certified account, in duplicate, to the Department for payment.

Madam:

His Lordship Bishop Breynat requested that the Department supply an electric generating plant for the use of the Aklavik Indian Residential School. The Department has a plant of a type that would be satisfactory surplus to requirements at the Blood R. C. Indian Residential School, Cardston, Alta., and we are requesting Mr. Commissioner Graham, Regina, to arrange to have the batteries recharged and the plant crated and forwarded addressed to you, c-o Hudson's Bay Company, Waterways, to go forward by boat about the middle of June, next.

Your obedient servant,

A. F. Mackenzie,
Secretary.

Ottawa, May 5, 1931.

Sir:

The Department wishes to have the complete generating plant and batteries, at present surplus to requirements at the Blood R. C. Indian Residential School, forwarded addressed to:

Rev. Sister A. McQuillan,
Principal, Residential School,
Aklavik, c/o Hudson's Bay Co.,
Waterways, Alta.

I have, therefore, to request that you will arrange to have this equipment crated in a proper manner for shipment and forwarded to the above address, prepaying the freight charges to Waterways. For this purpose, you may engage an engineer of the company that supplied the generating plant and have him examine it, to see that it is in good condition before shipment. He should also have the batteries freshly charged at the school before they are shipped.

The cost of this service and the freight to Waterways will be paid upon receipt of the usual voucher, in duplicate. The shipment should be at Waterways in time to go forward by boat about the 15th of June.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir:-

I beg to acknowledge receipt of your letter of the 5th. instant No. 141-2-5, and as requested I have arranged with the R.A. Lister Company to have a man proceed to the Blood School at once, and dismantle and crate the lighting plant for shipment to the address given in your letter.

The batteries will be recharged before shipment, and I have requested the man who is undertaking the work to make sure that after they are charged they will give 100% efficiency, as it would be a serious mistake to send batteries to this remote point that were not in A1 shape.

I expect that the cost will be in the neighborhood of \$150.00, although I cannot say for sure; this is just an estimate. I am issuing a transport Requisition to cover the freight, and I presume this will be satisfactory.

I presume you have made arrangements to have this plant installed at Aklavik. If not, the Lister Company tell me they can send a first-class man up to do it at a reasonable figure.

Your obedient servant,

W. M. Graham

Sir:

I have your 402-11A R.C. of the 12th instant, with reference to the lighting plant at the Blood R. C. Indian Residential School which is to be forwarded to Aklavik. It is noted that you have arranged for the placing of this equipment in good condition and for the crating and shipment of same.

When this plant arrives at Aklavik, it will be installed at the expense of the Church authorities by a lay brother of the Oblate Order who, we understand, is competent to do the work.

Accounts covering the cost of the dismantling, crating and recharging the batteries should be forwarded in the usual manner. It is noted that you will issue a transport requisition to cover the freight.

Right Reverend Sir:

I have to inform Your Lordship that this Department is arranging to have a generating plant, complete with batteries, which is surplus to requirements at the Roman Catholic Indian Residential School on the Blood Reserve, forwarded to Aklavik, for use in the Indian Residential School at that point. This plant is now being crated and will go forward to Waterways and thence by boat to Aklavik this summer.

I would request that Your Lordship arrange to have a lay brother, who is competent to do the work, install this equipment when it arrives at Aklavik. The batteries for this plant have been recharged and all equipment put in good condition, and Your Lordship will understand that if the plant is not properly installed serious damage would occur in the running down of the batteries, and it would be very difficult to have them recharged.

It is hoped that, when this equipment arrives and is installed, it will prove entirely satisfactory for lighting purposes at the Aklavik Indian Residential School.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Sir:-

I beg to acknowledge receipt of your letter of the 22nd. instant No. 141-2-5, relative to the address of a lighting plant that is being shipped to the Indian Residential School at Aklavik.

Your former instructions were to ship this plant in care of the Hudson's Bay Company, Waterways, Alta., and this had been done prior to the receipt of your letter of the 22nd. However, I have today written to the Hudson's Bay Company, and also to The Northern Waterways, Ltd., asking them to arrange for the transfer from the former to the latter Company.

Dear Sir

In my conversation with Mr R.T. Ferris last winter I was asking him a grant for only one large tent for Akavik's School; but after reflexion I thought that two tents of medium sizes one for the boys and one for the girls will suit better and then I gave order for two medium sizes instead of ~~one~~ large one which I think do not exceed in the amount.

Will you kindly forward the cheque to National Canadian Bank, Edmonton, as you do for the other cheques.

Dear Mr. Padget:

We wish to thank you for the opportunity of quoting on the school desk requirements for Waterways, as per your specifications of May 21st.

We are herewith enclosing our prices, F.O.B. Waterways, tax paid, knocked down and strongly crated.

As you are no doubt aware, all our pupils' desks are manufactured in our own factory near Montreal where Canadian Workmen are employed throughout the year.

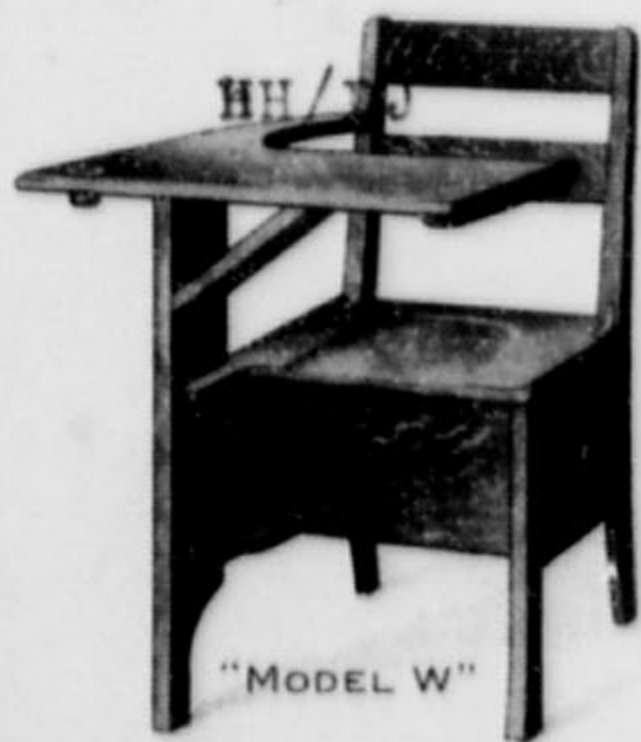

We have had the pleasure of filling orders for you for districts in this North country and as we always carry a good stock in our Edmonton warehouse, we can make shipment immediately upon receipt of advice to the effect that our tender has been accepted.

Trusting that our quotation will meet with your approval, we are

Gentlemen:

Your quotation of the 26th ultimo for supplying the school desks required for delivery at Waterways, Alta., has been accepted. I have, therefore, to request that you will arrange to ship, as soon as possible, addressed to

Rev. Sister A. McQuillan,
Principal, Residential School,
Aklavik, N.W.T., c/o Northern Waterways Ltd.,
Waterways, Alta.,

the following single school desks:

12 No. 5	for pupils 7 - 9 Yrs.,
12 No. 4	" " 10-13 "
10 No. 3	" " 11-14 "
6 No. 2	" " 15-18 "

These desks should be shipped knocked down, strongly crated, all parts complete.

It is noted that you will supply the Preston desk, manufactured by the Canadian Office & School Furniture Co. Ltd., Preston, Ont.

We are informing the Northern Waterways Limited that this shipment will go forward to Waterways, and requesting them to arrange to transport same from Waterways to Aklavik.

These desks should be supplied at the total aggregate price quoted, viz., \$350.93, sales tax included, F.O.B. Waterways, Alta., this amount being less your discount of 5%. Please forward your account, in triplicate, covering the cost of the desks, together with Bill of Lading attached, direct to this Department, when payment will be made.

COMMISSIONER'S OFFICE,

W. REGINA, SASK., 18th June, 1931.

Sir:-

With reference to Department No. 141-2-5 of the 5th ultimo, I have just received a letter from the Northern Waterways, Limited, acknowledging receipt of a shipment of the generating plant and batteries surplus at the Blood R. C. Indian school, which were recently shipped to Waterways for transshipment to Aklavik. I regret to state that when the Northern Waterways Limited took over the consignment they found that the liquid in some of the containers had been spilled owing to the loss of stoppers and that one of the cases was definitely in bad order, the container itself being badly damaged and one of the batteries inside being broken.

The Winnipeg Manager of R. A. Lister and Company was in town and called at my office this afternoon. He informs me that the damage will not effect the utility of the plant. The actual extent of the damage however will not be known until the consignment reaches Aklavik, but I thought it as well to forewarn you in case of any complaint which might reach the Department from the school authorities there. I am definitely assured by the Lister people's representative that the shipment was carefully packed and left Cardston in good order. They state that Mr. Pugh supervised the packing and can vouch for the care which was taken. It is most unfortunate therefore that after all these precautions had been taken prior to shipment the plant should reach Waterways in a defective condition. The Lister Company will write me a letter setting out their case and the cost of the batteries which have been damaged, and upon receipt of these I will lodge a claim against the carriers.

Your obedient servant,

The Secretary,

Sir:

I have your 402-11A R.C. of the 18th instant, informing the Department that certain damage occurred to the shipment containing the generating plant and batteries surplus at the Blood R. C. Indian School recently forwarded to Waterways for transshipment to the Aklavik R. C. Indian Residential School.

It is noted that the manager of R. A. Lister & Company informed you that the damage will not affect the utility of the plant, and it is hoped that when same arrives at Aklavik there will not be any delay or difficulty in utilizing same. It is noted that you will make enquiry regarding the damage and will lodge a claim against the carriers. Should it be necessary to replace any of the damaged parts and containers, I shall be pleased if you will arrange with R. A. Lister & Company to supply and forward same to Aklavik before navigation closes.

MEMORANDUM

Mr. Buskard.

At Indian residential schools in the Northwest Territories, a light wood burning oven is indicated. Transportation on heavier equipment makes the cost prohibitive. A bake oven is now required for the Roman Catholic school at Aklavik, and the only source of supply known to the Department is J. J. Daoust Limited, of St. Boniface, Man. Their No. 3 "Economy" wood burning oven at \$250 is as expensive and heavy as should be supplied. Will it be satisfactory to place the order with them? I might add that the Daoust ovens have given satisfaction at our institutions.

Dear Sir:

Yours of the 5th instant on hand, we beg to inform you this shipment has not yet been made.

We have been ordered by Father Lefebvre to prepare same for shipment upon his instructions.

The item, \$20.40, is the rate from Winnipeg to Waterways. The ECONOMY OVEN No. 3, as supplied for Aklavik Indian Residential School, weighs 500 lbs. At the rate of \$4.08 a hundred, the total cost is \$20.40 for the shipment. We will gladly forward to you the bill of expense from the railway as soon as we are ordered to make this shipment.

Hoping this will not delay the payment of this account, as we are in need of it presently, we beg to remain

Gentlemen:

I have your letter of the 8th instant, relative to the payment of your account for the bake oven ordered by Rev. Father Lefebvre to be shipped to Waterways, Alta., for the use of the Aklavik Indian Residential School.

In this connection it is noted that shipment of this oven has not yet been made. The Department will be unable to pay the account covering the cost until after shipment has been made, as the Auditor General would take exception to the payment. As soon as the oven is shipped, if you will forward to the Department the receipt covering the cost of the freight prepaid by you from Winnipeg to Waterways, the account covering the cost of the oven and freight charges thereon will be paid.

Yours truly,

Dear Sir:-

On July 3rd of last year, you wrote to our Regina office under your file #402/11A R.C. asking that we ship two additional units for your lighting plant addressed to Reverend Sister A. McQuillan at Aklavik.

These were shipped from Winnipeg on July 4th. Instead of invoicing these to you, there was an error in our office and they were invoiced to the Reverend Sister A. McQuillan. The invoice, with receipted expense bill attached was mailed to her.

We have been endeavoring to collect the account from her without success. However, we have just discovered that the invoice should not have been sent to her, but to you and we are very sorry that this mistake was made.

We are enclosing herewith four copies of this invoice and also a copy of the expense bill covering prepaid express on the shipment. We shall appreciate very much anything you can do in regard to having this account passed. *OK. /*

Dear Sir,

In the conversation I had the honor to have with you on the 22^d of last month, I was telling that we had built at Akavik, this last summer, a residential school which has at present an attendance of about 60 children.

This school, whose dimensions are 130 x 45 with 2 stories, at such a distance, has required of us all the funds we could dispose of, even more since we have some bills still pending, and I was asking if your department could not help us to purchase the furniture necessary. I would ask of your department 1 doz bedsteads 2 x 6; 1 doz 2 x 5; 1 doz 2 x 4 1/2 and as many mattresses of about 2⁰⁰ each.

I would also apply for a bread oven for our residential school at Fort Chipewyan, called Holy Angels school. Hoping, dear Sir, to receive a favorable answer I am

Sincerely yours

Dear Sir

You will remember that in my last visit, a little over a week ago, I was asking for a favor for some beds & bread oven;

I have since taken information for about the prices for these two items and I can tell you that the whole amount will not exceed \$560⁰⁰ which amount is far less than the one figured by your Department.

I am going to follow your advice and will give the order without delay in order to have these articles on time for loading them in my car with some other goods which I expect will be the end of this present month.

Will you kindly advise me how to make the invoices and the date they have to be sent to your Department.

I remain, Dear Sir

Yours truly

Will you kindly tell me if I could have an advance on March 1st as I will need the money to pay the roads I have bought this month.

Rev. Sir:

I have your letter of the 1st instant addressed to Mr. Sutherland of this Department, stating that you are placing orders for the supplying of beds and mattresses for the Aklavik Indian Residential School and for a bake oven for the Fort Chipewyan (Holy Angels) Indian Residential School.

I would request that you obtain accounts, in triplicate, covering the cost of these purchases. Please certify on each copy of the accounts as follows: "Goods received. Prices charged fair and just", sign and forward same to the Department, when consideration will be given to payment. You will, no doubt, require that payment be made direct to the merchant from whom these purchases are made. These accounts should reach the Department by the 20th of March, next, at the latest, in order that, if payment is made, the funds can be taken from our Appropriation for the present fiscal year.

Regarding an advance on the per capita grants, I have to say that at the present time the Department is unable to state whether same can be made before the first of April, next, or not. If we have sufficient funds remaining for the purpose in our present Appropriation an advance on the grants could be made.

Referring to yours, No 141-2-5
February 2nd - I beg to send you the invoices in
triplicate for mattresses bought at Serimmons
Limited and for beds bought at the Federal
Furniture store.

I hope that you will find the prices very reason-
able and that the Department will forward
cheques to Serimmons Ltd and to Federal Furniture
Store.

As to Bread oven, I did not receive so far the
invoices from J. J. Daoust Co, from St Boniface,
where I have sent the order, I expect them very
soon and will forward them to you.

Believe me, Dear Sir

Yours very obliged

~~Educational Department,~~
Ottawa, Can.,
Dear Sir.

I am informed that the Department of education is willing to help with expenses, if any, toward educating the little native children, in the north. We have a Movie Camera, DeVry, commercial size. and as the Mission has electric lights and large rooms. and nicely fixed to show pictures, but have no projector, would be only to pleased to show our film if they had a projector to fit our Camera.

We have pictures of the reindeer, that are station at present near Thingle Point, came from Alaska, 2000 of them, bought by the Canadian Government, to be placed on east side of Mackenzia delta To feed the Eskimo when in need.

We also have pictures of Herschel Island, the boats that land there and the Yukon hills, the boats that come and go up and the river to Fort Smith.

I am speaking in behalf of the Mission ^{for a projector} They know how much it would please their children, and if we can do any thing to help this good work are only to glad.

We have a good business here have been here many years, and am in hopes of being here many more.

Hoping this will meet with your approval, and will wait for a favorable reply.

I am yours sincerely.

V. Kost.

Reverend Father Director of Residential School of Aklavik is very glad to give his approval to the request of Mr V. Kost. He thinks it would be of a great utility for the education of the children of the school to show the movies which Mr Kost is speaking about. Perhaps, would it be possible, afterwards, to get some films suitable for that projector from Educational Department. I heard Educational Department is willing to help us in this way of training the children of Northwest Territories.

Father Seruot,
R.C. Mission, Aklavik.

Ottawa, August 25, 1934.

Gentlemen:

I have your letter of the 18th instant, enclosing copy of invoice for laundry machinery supplied for use at the Aklavik R. C. Indian Residential School.

In this connection I have to say that the Department has no record of any authority being granted to the Church authorities for the purchase of this equipment. It would appear that the order was placed by Reverend J. C. Lefebvre, O.M.I., Fort McMurray, and I would suggest that you forward your account, in triplicate, to him. This school is a church-owned institution. No request for laundry machinery was made to the Department by Father Lefebvre, and he was not informed that the Department would be responsible for payment. A copy of the account which you forwarded in your letter is returned herewith.

Dear Sir

Allow me to send you back the bills in duplicate certified by me for the washing machine bought last winter at Winnipeg for Atkasvik residential school, not by my own authority as your letter seems to say, but by the authority of Mr Sutherland, Acting Superintendent of Education in the Department of Indian Affairs.

I did make my request to Mr Sutherland as I used to make ^{with} late Mr Fournier and ~~it~~ ^{only} is after having my request granted that I placed my order to the Guarantee Laundry Machinery Company.

I hope, Dear Sir, you will find this explanation sufficient and that the Department will honor the enclosed bills -

We have yours of the 10th inst., with reference to your order No. 19772 covering Bathroom Scale shipped to the Indian Residential School at Aklavik, N.W.T.

As we discontinued the stock of No. 1000 Health-O-Meter Scales since we quoted you under date of April 15th, our quotation No. 1479, we therefore took the liberty of substituting the Hanson Bathroom Scale No. 766, illustrated cut enclosed, at \$7.60 each, f.o.b. Edmonton.

We feel sure that the party using this scale will find it will prove just as an efficient instrument as the No. 1000 Scale.

We are forwarding the invoices to Rev. Sister Sarasin at Aklavik.

Dear Sir:

This is to notify you that as you have requested, we have placed one of the Brothers in charge of the furnaces during the night in the convent and hospital of the R. C. Mission here.

He has slept in the basement during the months of September, October and November and has tended the fires at eleven P.M., three and four thirty A.M.

Enclosed is the report and voucher for the same.

If you are pleased to favour us with any stipends in this matter, please send them direct to Father Lefebvre, R.C. Mission, Mac Murray.

Thanking you in advance I remain,

Sincerely Yours,

Dear Sir:

In official letter of September 7th, last, the Principal of the Aklavik Indian Residential School was informed that the Department would allow \$40 a month towards the services of a night watchman at the school for the period October 1st, 1935, to April 30th, 1936.

I am now informed that a night watchman was engaged, and I enclose vouchers, in triplicate, which you should sign and return, in order that payment can be made for the amount of the grant for the night watchman's services for the months of October, November and December, 1935.

A voucher should be prepared by you in a similar manner and forwarded at the end of April. This voucher should cover the period January 1st to April 30th, 1936.

Reverend Sir,-

The Department is in receipt of the voucher which you submitted for goods purchased for the Aklavik Indian Residential School.

Your voucher requests payment of \$718.80. I may say that a much smaller amount has been provided in our current year's appropriation for this school. However, further consideration will be given to payment of the expenditure you have made for the Aklavik School when vouchers are submitted in a proper manner.

None of the accounts attached to your voucher have been receipted and, consequently, it is not possible to issue cheque in favour of the Aklavik Indian Residential School. It will be necessary for you to forward separate vouchers, in triplicate, in favour of each of the firms from whom goods were purchased for this school, viz., Gault's (Alberta) Limited and Ashdown Hardware Company.

In 1931, you supplied desks for the Aklavik R. C. Indian Residential School. The following additional desks are now required:-

7 single desks No. 5
2 fronts No. 5
2 single desks No. 4

All of these should be similar to those supplied in June, 1931. At that time, the Department understood that you were shipping the Preston desk. Please quote me, at once, on the above desks, F. O. B. Waterways, Alberta.

Dear Mr.

The Waterman-Waterbury Mfg. Co. of this City, who is our agent for our New Empire Desks, etc., has turned over to us for our attention your No. 141-1-1 and 141-2-5 which call for quotations for school desks for Aklavik C.E. Indian Residential School and Aklavik R.C. Indian Residential School respectively.

Our Moyer New Empire School Desks are made by our parent Company, the W.F. Vilas Company of Cowansville, Quebec, and we have had the pleasure and privilege of filling many orders from your Dept. of Public Printing and Stationery to be shipped to the Residential Schools under their care in Alberta and British Columbia.

We are herewith attaching our quotations F.O.B. Waterways as per your request and we are forwarding under separate cover a copy of our No. 51 School Supply Catalog. On page 10 you will find the Single Desks listed on which we are quoting.

Trusting to have the privilege of being of further service to you, we are,

Dear Sir:-

I am in receipt of your two letters #139-3-5 and #139-1-5 of the 9th ultimo., and wish to thank you for advising us of the amount provided in your appropriation for equipment at the Residential Schools of Fort Resolution and Fort Providence.

By the present letter I am informing you that we have been purchasing an Electric Bread Mixer for our school of Fort Resolution at the cost of \$394.25, f.o.b. factory.

As regards to equipment for the school at Fort Providence we have been purchasing a Mower of which the cost is \$106.00. This last figure is only approximate, as I left at Fort McMurray the invoices regarding this Mower but, there might be a difference of \$2.00 or \$3.00 only.

We have been somewhat surprised to see that no provision had been made for our Residential School of Aklavik, and we would appreciate very much if the Department could take in consideration the fact that we have been purchasing this year for that school a new equipment amounting to the sum of \$795.00, and consisting of three reservoirs for water, and an Electric Bread Mixer, same as the one purchased for Fort Resolution.

Reverend Sir:-

I am in receipt of your letter of September 17th with reference to equipment that you have purchased for the Aklavik, Fort Resolution and Fort Providence Indian Residential Schools. I regret that I did not advise you regarding the amount provided for the Aklavik School.

In our appropriation for the current fiscal year the following amounts were provided:

Aklavik -	\$300.00
Fort Resolution -	\$300.00
Fort Providence -	\$300.00.

Total	<u>\$900.00</u>
-------	-----------------

I understand from your letter that you have purchased the following equipment for the above mentioned three schools:

Fort Resolution - Bread Mixer -	\$394.25
Fort Providence - Mower -	106.00
Aklavik - Water reservoirs and Bread Mixer -	<u>795.00</u>

Total	<u>\$1295.25</u>
-------	------------------

You may forward the accounts to the amount of \$1295.25 for our consideration. It may be possible to pay the full amount, but at least we will allow the total amount provided in the current year's appropriation. All accounts submitted should be in triplicate and properly certified. If you have already paid the accounts, they should, of course, be receipted in order to permit us to make refund to the Diocese of Mackenzie.

Dear Sir-,

I acknowledge receipt with ~~thanks~~ for your letter I41-2-5 of the 23rd instant regarding the accounts to be forwarded for equipment purchased for the Aklavik, Fort Resolution and Fort Providence Indian Residential Schools.

As soon as these accounts in triplicate will have been receipted by the firms from which the equipment was purchased, they will be mailed to you for your consideration. And we hope that the Department will find it possible to refund the Diocese of Mackenzie for the total amount mentioned in my letter of the 17th instant.

Could you send them?

Reverend Sir:

The enclosed account has just been received from the Aklavik Residential School. As you are aware payments for this service are made direct to you and therefore the vouchers should come from your office and not from the school. It complicates matters when the school sends in vouchers which you are supposed to forward.

You will note that they request payment for the month of October, 1937. As a matter of fact a cheque for this amount was sent to you during the month of December.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Sir-,

Ref.: Your file I4I-2-5

I have for acknowledgment your letter of the 21st ultimo to which were attached accounts received from our Aklavik Residential School for the payment of the night watchman.

You intimate that vouchers for such accounts should come from my office and not from the school and you regret the complications caused by the school forwarding these accounts direct to you. May I say that I am somewhat surprised of your letter. In fact this is the first intimation I ever received regarding this matter. Your office is aware that all accounts for the night watchman's services at any of the four residential schools located in the Mackenzie Diocese have always been forwarded direct by the school to Ottawa without my interference in this matter. Payments used to be made to the R.C. Episcopal Corporation of Mackenzie through our Bank in Edmonton, and none of the above said accounts passed through my office.

As I do not know for what reason exactly you wish me sending vouchers for the services of the night watchman at the Indian Residential School of Aklavik, I would appreciate it if you would kindly have your attention directed again to this matter and whatever will be your decision, I shall gladly comply with it after having informed our schools of the wishes of the Department.

The accounts sent with your letter are returned herewith in order that you may have them for your files. The cheque of \$120.00 has been received lately.

Respectfully yours,

J. Serrurot

Dear Father Serrurot:

I have your letter of the 8th instant in connection with payment of grants for night watchman for the schools in the MacKenzie Diocese.

I regret that I was under a misapprehension in connection with the above. I thought that when you visited the Department you stated that the vouchers for night watchman grant would come from your office.

I now infer from your letter that you would prefer to have the vouchers submitted direct from the schools. There is no objection to this. As pointed out above, I was under the wrong impression in connection with your wishes in the matter.

Yours truly,

Philip Phelan,

Dear Sir,

Further to your letter of April 4th re: allocation of \$500. for class-room and equipment for the Aklavik school, may I say that we have decided to enlarge the school so as to provide more room for the girls' dormitories etc., this at the behest of Doctor McGill, Superintendent of Indian Affairs, while on a visit in the North, and so I would kindly ask you to submit for approval the enclosed requisition list of lumber for our needs to enlarge the school.

We purchase our lumber from Hayward Lumber Company, a very reliable firm, and we could place the order there unless advised to do otherwise.

With every kind wish,

Sincerely yours,

The Committee of the Privy Council have had
before them a report, dated 6th April, 1938, from the
Minister of Mines and Resources, stating;

That the estimates for the fiscal year 1938-39,
Vote Number 169, Indian Affairs Branch, Mines and Resources,
provide an amount of \$34,582.00 for new works, repairs and
purchase of equipment for the following Church owned Indian

That, as these buildings are Church owned, new works, repairs and purchase of equipment constitute a grant and, therefore, the approval of Your Excellency in Council is desirable.

The Minister, therefore, recommends that approval be given for the expenditure at the above-mentioned Indian Residential Schools of the sum of \$34,582.00, same to be chargeable to Vote Number 169, 1938-39, Indian Affairs Branch, Mines and Resources.

The Committee concur in the foregoing recommendation and submit the same for approval.

E. J. Lemaire.

Clerk of the Privy Council.

Dear Mr. Hoey: Your File 141-2-5

I acknowledge with thanks receipt of your letter of the 27th ult., regarding purchase of repairs needed for the Aklavik R.C. Indian Residential School.

May I assure you that I appreciate the help given by the Department in this instance. I trust also that the materials purchased will reach Aklavik in due time this summer.

Thanking you kindly, I remain,

MR. BAILEY

On April 27, 1938, (on file No. 141-2-5)
I forwarded you a purchase requisition for material
required for repairs at the Aklavik R. C. Residential
School.

On page 2 of that requisition you will note
reference to the fact that Rt. Rev. G. Breynat, O.M.I.,
recommended the purchase of the material from the
Hayward Lumber Company, Edmonton. Today I received
from that firm the attached letter.

Dear Madam:

In a letter dated the 18th ultimo Right Reverend G. Breynat, O.M.I., forwarded a list of material required for enlarging the girls' dormitories at the Aklavik R. C. Residential School. Our purchasing agent is securing the material requested by the Bishop and shipment will be made in the near future.

The account covering the cost of material will be forwarded to you and when the material is received you should certify the account and forward it at once to the Department for payment.

Yours truly,

Dear Madam:

I recently forwarded you a copy of an order placed with Gorman's Limited, Edmonton, Alberta, for material for repairs at the Aklavik R. C. School. Gorman's Limited quoted a price of \$706.27 for this material but later increased their quotation and the order was, therefore, cancelled by our Purchasing Agent.

The materials, etc., requested for the Aklavik R. C. School have now been purchased from Hayward Lumber Company at a total cost of \$835.31.

I enclose copy of this purchase order, for your information. When the material reaches the school, you should check it carefully, certify the account and forward it to the Department in order that payment can be made.

Yours truly,

Please find herewith confirmation copy of wire of even date, cancelling Order No. 5056. It was necessary to do this as the revised price of \$946.00 mentioned in your telegram of the 3rd instant, exceeds by a considerable amount all of the other tenders.

I may say, however, that your action in increasing the price and making it necessary for us to cancel the order has caused us considerable inconvenience.

Dear Sir:

I beg to report that during my stay in Fort Norman I met Bishop Breynat and during the course of conversation he asked me to mention the fact that next year he proposes to install a refrigeration plant for the preservation of food supply in the R.C. school at Aklavik. No doubt he will be discussing this with Branch on his return from Rome.

EXTD.

Reverend Sir:

With reference to your letter of the 26th ultimo we have no record of having received any request from the Principal of the Providence Mission Residential School for payment of the night watchman's services for the month of April nor from the Principal of the Aklavik R.C. School for services of the night watchman for the months of February, March and April. I am, therefore, arranging to have cheques in payment of these services forwarded to the Banque Canadienne Nationale, Edmonton.

Yours truly,

Philip Phelan,

TO HIS EXCELLENCY

THE ADMINISTRATOR IN COUNCIL

The undersigned has the honour to report:

THAT it is found necessary to make certain amendments to P.C. 40/1628 of June 24, 1939, and that the following transfers be authorized:

1. THAT an amount of \$324.00 be transferred from the sum provided for the Fort Resolution Roman Catholic Indian Residential School to the Aklavik Roman Catholic Indian Residential School;
2. THAT an amount of \$30.00 be transferred from the sum provided for the Fort Resolution Roman Catholic Indian Residential School to the Providence Mission Roman Catholic Indian Residential School.

Respectfully submitted,

Acting Minister of Mines and Resources.

Memorandum:

DEPUTY MINISTER

P.C. 40/1628 of June 24, 1939, approved payment of the under-mentioned amounts which have been provided in the current year's appropriation for the schools mentioned:

Aklavik R.C. Residential School ...	\$ 700.00
Fort Resolution " " ...	700.00
Providence Mission " " ...	<u>2600.00</u>
Total ...	\$4000.00

All of the above-mentioned schools are in the Diocese of Most Reverend G. Breynat, O.M.I., Archbishop of McKenzie, and his Bursar has submitted for payment an account of \$1024.00 covering the cost of a kelvinator unit purchased by the Archdiocese from the Sommerville Company, Edmonton, Alberta, for use at the Aklavik R.C. Residential School. In submitting this account the Bursar writes in part as follows:

"We know that the amounts appropriated for the Providence Mission will be all required for the payment of the electrical installation at the school there.

"We have no special equipment or repairs at the Fort Resolution Indian School that would justify spending the amounts voted for that school.

"On the other hand, we feel confident that your Department will give favourable consideration to the amount spent at the Indian School of Aklavik for a

kelvinator unit bought on August 22nd last at the price of \$1,024, as per receipted invoices enclosed herewith.

"We are aware that the purchase of this material should have been done through your purchasing branch. Nevertheless, as you will realize from the enclosed letter of the Sommerville Co., we felt that there was no other means for our school to have this equipment before freeze-up than to buy it according to the quotations given by the Sommerville Company.

"Your Branch knows how far distant from the railway Aklavik is located. Consequently, we could not take the risk of having this necessary equipment delayed for another year owing to the time required for correspondence between your purchasing department and our office and the number of weeks required for transportation.

"We hope that with the \$700. voted for Aklavik and the \$324. taken out of the Fort Resolution appropriation, you will have no difficulty in refunding us for the expenses incurred at Aklavik this year.

"Kindly have the cheque in settlement of this account addressed to the R.C. Episcopal Corporation of MacKenzie, c/o Banque Canadienne Nationale, Edmonton, Alberta."

I recommend that favourable consideration be given to payment of this account and in order to do so I enclose Memorandum to Council authorizing transfer of \$324.00 from the amount provided for the Fort Resolution Residential School to the Aklavik R.C. Residential School, also an amount of \$30.00 to the Providence Mission Residential School. The reason for the transfer of the latter amount is explained in another memorandum of concurrent date.

AIR MAIL

Dear Madam:

I desire to refer you to my letter of October 24 with which I forwarded an account from the Northern Transportation Company covering the cost of shipping supplies to the Aklavik R.C. Residential School. If the goods shown on the transportation company's account had been received Sister Dussault was requested to certify the account and return it so that payment could be made. I have not yet received this account and I should appreciate it if you would let me know at once whether or not the goods were received and, if so, you should certify the account and send it to me so that payment can be made.

I desire also to direct your attention to official letter of October 29, 1940, enclosing account amounting to \$264.45. No reply has been received to that letter and your immediate attention is requested.

Yours truly,

Gentlemen:

I desire to refer to your letter of the 16th ultimo enclosing invoices that you state are outstanding on your books in connection with last year's freight. These include charges for shipments to Aklavik, Fort Resolution, Fort Simpson and Fort Smith.

I am writing to the schools concerned with a view to having the accounts certified and as soon as they are returned payment will receive consideration.

In future you should forward transportation accounts to the Principal of the school to which the goods are shipped in order that the Principal may certify the account and forward it to this office for payment. Present regulations do not permit our paying such accounts without the certification of the Principal of the school or the Indian Agent concerned.

Yours truly,

Mr. Philip Phelan,
Chief, Training Division,
Welfare & Training Service,
Indian Affairs Branch,
OTTAWA, ONT.

Dear Mr. Phelan:

Ref. 139-1-5

Further to your letter of the 20th ult., and to our reply of the 24th, we thought advisable to write you again in connection with repairs and equipment for the Aklavik R.C. Mission Residential School.

In the above mentioned letter, you informed us that there was a sum of \$300. appropriated for repairs and improvements, also \$500. for a refrigerator at Aklavik

On the other hand, when we wrote you on October 31st last, we attached to our letter a list of material needed for repairs and equipment.

It appears to us that in this list which we presume you still have in your files, the material listed under the heading (1) would practically cover the whole amount appropriated for that school.

For this reason, we would appreciate if it would be possible for you to have this material ordered as soon as possible and overlook the balance of material listed under the heading (2).

For reference, we attach hereto a copy of our list of October 31st, 1940.

Your advice as to what you have decided in this connection would be very much appreciated.

Thanking you in anticipation for the favourable consideration you will give to our request, we are,

Yours very truly,

THE R. C. EPISCOPAL CORPORATION OF
MACKENZIE,

Reverend Sir:

With reference to your letter of October 31, 1940, requesting lumber and paint for the Aklavik R.C. School it was only found possible to include an amount of \$800.00 in our appropriation this year for repairs and improvements and new equipment at this school. A copy of the purchase order No. 7257 was forwarded to you on May 16 and I trust has reached you by this time. You will note that the goods we have ordered will cost \$746.10.

Dear Sir: Attention Mr. Davidson

ALL AGREEMENTS ARE CONTINGENT UPON STRIKES, ACCIDENTS, DELAYS OF CARRIERS, AND OTHER DELAYS UNAVOIDABLE OR BEYOND OUR CONTROL.
ALL QUOTATIONS ARE SUBJECT TO CHANGES WITHOUT NOTICE AND ANY INCREASE IN FREIGHT RATES, DUTY, SALES OR WAR TAX OR OTHER WAR CAUSE, IS TO BE BORNE BY THE PURCHASER.

We find that invoices covering goods shipped on May 19th, amounting to \$746.10, are apparently still in the hands of the Treasurer for payment. These invoices were in your hands, we believe, some little time before the writer visited you at Ottawa, we know that they have been O.K.'d by the M. C. R., as we arranged that before the invoices were sent to you.

If convenient for you to just remind the Treasurer that we can still use money, we would appreciate it very much.

Thanking you.

We are.

OTTAWA, Ontario.

Dear Mr. Hoey:

Your letter of the 28th ultimo has reached me yesterday. Therefore I hasten to comply with your wishes by enclosing herewith the accounts referred to in your letter.

As mentioned in my letter of the 20th ultimo, these accounts are made up as follows:

FORT CHIPEWYAN (Holy Angels):

From Bruce Robinson Electric Ltd.: \$ 2,065.68

AKLAVIK:

From the J.H. Ashdown Hardware Co. Ltd.: \$ 354.82

From McInnes Products Corporation Ltd.: 324.06

Total: \$ 2,744.56

This total represents price of the material FOB Waterways, Alta, transportation charges by boat to Fort Chipewyan and Aklavik being paid by us.

Thanking you for your kind assistance and your courtesy as regards to these accounts, we are,

Memorandum

Mr. C.W. Jackson

Mr. Hoey has forwarded for our attention, without written comment, the three attached files, with invoices and correspondence in connection with the placing by the R.C. Church authorities of three orders for equipment and supplies for two church-owned Indian Residential Schools at a total cost of \$2,744.56, f.o.b. Waterways, Alta.

Fort Chipewyan (Holy Angels):

From Bruce Robinson Electric Ltd. \$2,065.68

Aklavik:

From J.H. Ashdown Hardware Co. Ltd., 354.82
From McInnes Products Corporation Ltd. 324.06

Total.....\$2,744.56

The following is a summary of information gleaned from these files:-

- (a) Letter June 2nd, 1942, signed by Mr. Crerar, authorizing transfer of funds provided for four church-owned northern Indian Residential Schools to be used exclusively for repairs to the Fort Chipewyan and Aklavik Schools.
- (b) June 17th, 1942, letter from Mr. Hoey to Bishop Breynat requesting bill of material so that orders could be placed through the Purchasing Division.
- (c) June 20, 1942, letter from Father Serrurot to Mr. Hoey advising that orders for the required material had already been placed by the R.C. church authorities with their reason for so-doing.
- (d) July 28, 1942, letter from Mr. Hoey to Father Serrurot requesting invoices and expressing regret that Departmental purchasing regulations were not followed.

My comment is as follows:-

- (1) The unit prices charged by J.H.Ashdown Hardware Co., Edmonton, for the roofing material, and by McInnes Products Corporation, Waterways, Alberta, for dimension lumber are fair and reasonable. This material was for use in repairing the Atlatvik school.
- (2) The chief item of expenditure for the Holy Angels School at Fort Chipewyan was an electric lighting plant consisting of a Lister Diesel engine, generator, steel base, switch board, etc., at \$1,452.00. The balance \$613.88 was spent in electric fixtures and supplies for wiring. The money was voted for necessary repair work, but was spent on new equipment of non-essential classification.
- (3) No convincing reasons are given for placing the orders contrary to Mr. Hoey's instructions, and without reference to this office.

In view of the above, will you please advise if you wish us to arrange for payment of the accounts in question.

Dear Sister:

On the requisition which you recently forwarded for supplies for the Aklavik R.C. School you request 12 new desks, also 4 fronts, 4 rears and 2 teacher's desks and chairs. School desks are difficult to obtain at the present time and before ordering them I desire to know if they are really necessary for the Indian children at the Aklavik R.C. School. The December quarter return from your school only shows 24 Indian children enrolled and we were under the impression that you had sufficient desks for this number.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir,

Answering your letter of the 12th. inst., which has just come to hand, would say that we are really in great need of the desks we are asking the Department to supply our school.

Although we have had only 24 Indian pupils enrolled this year, please note that we also had 40 Eskimos and 5 day scholars, besides 7 boarders. I beg to state also that the teachers have never been supplied with desks and chairs. In one of the chasses, the teacher's desk is a kitchen table which has become very shaky with age. In the other class, the teacher's desk is a home-made one which would be better placed in another department in our school.

Trusting that you will see fit to procure these desks for us as requested and thanking you for past favors,

I beg to remain,

Yours respectfully,

Sister J. Dussault

Mr. A.L. Cumming, Supt. Mackenzie District and
Secretary Yukon Affairs, Lands, Parks & Forests
Branch, Dept. Mines & Resources, Ottawa, Ont.

On a recent requisition Sister J. Dussault, Principal of the Aklavik R.C. Indian Residential School, requested 4 single school desks No. 5, 4 No. 4, 4 No. 3, 4 fronts No. 5, 4 rears No. 3, 2 teacher's desks and 2 teacher's chairs. The December quarter return only showed 24 Indian children enrolled at the school and our records indicate that we have supplied desks for all the Indian children. We wrote to Sister Dussault on March 12, 1943, for an explanation regarding her request. We have just received a letter from her dated March 24, copy of which I enclose. From this letter it would appear that in addition to the 24 Indian pupils enrolled as residential school pupils, there are 5 day pupils, a total of 29 Indian children for whom, as stated above, our records indicate we have supplied desks. It would, therefore, appear that the desks are being requested for the 40 Eskimos and the 7 boarders. I presume that the latter means white children. Under the circumstances I am submitting the request to you for your consideration.

Your File - 141-2-5

Referring to your memorandum of April 9 addressed to Mr. Cumming, this Administration does not furnish equipment for any of the day or residential schools of the Northwest Territories. Our assistance is confined to payment of grants of \$200 per annum for day schools operated in Indian or southern territory, \$250 for day schools maintained in Eskimo or northern areas, \$400 for all residential schools and expendable school supplies.

If a departure were made in the case of the Aklavik R.C. residential school it would mean that we would be called upon to furnish equipment for the other schools as well.

AIR MAIL

Reverend Sir:

We have had considerable correspondence with the Principal of the Aklavik R.C. Residential School requesting 4 single school desks No. 5, 4 No. 4, 4 No. 3, 4 fronts No. 5, 4 rears No. 3, 2 teacher's desks and 2 teacher's chairs. There are only 24 Indian pupils at this school and, while our records may not be exactly accurate, they indicate that we have supplied desks for the Indian children. It would, therefore, appear that these extra desks must be required for Eskimos or white children. I took up the matter with the Northwest Territories Branch, but they state they do not supply desks at residential schools.

Even if the desks were installed they would involve a considerable expenditure and would reduce the amount available for repairs and improvements at this school during the fiscal year 1943-44. If the desks were supplied, there would likely be considerable trouble having them transported to Aklavik this summer, as the boats will probably be busy. Under the circumstances I thought it advisable to submit the matter to you for your opinion.

Bishop Trocellier was in the Department recently and requested beds for one of the schools in the Diocese. I am not certain whether it was Holy Angels, Providence Mission, Fort Resolution or Aklavik. I should appreciate it if you would let me know which school it is, also the number necessary. Beds are difficult to obtain and practically the only size available is 6' x 3'. It is,

Dear Sir,

As I have not yet received an answer to my letter regarding my requisition for school desks, I take the liberty to ask you again if it would not be possible to send at least the 12 pupils' desks requested. We could wait another year for the teachers' desks, but for the pupils we are certainly in urgent need of desks, having had to use empty cases to this effect for the last two years.

Thanking you in advance for complying with our request

I beg to remain,

Yours respectfully,

I have your letter of the 17th instant, with reference to desks requested for the Aklavik Residential School. For your information I quote from a letter forwarded to Rev. R.L. Lafleur, O.M.I., on April 17 last:

"We have had considerable correspondence with the Principal of the Aklavik R.C. Reverend Sister:

I note on your requisition for supplies for the academic year 1944-45 that you again include the desks, also the teacher's desk and chair for the Aklavik R.C. School.

In this regard I would refer you to official letter of July 28, 1943, in which it was pointed out that our records indicate that school desks have been supplied for the full quota of Indian pupils authorized at this school. We are, therefore, under the impression that the additional desks are required for Eskimo children for whom this Branch is not responsible. We would appreciate having a reply to official letter of July 28 before considering the matter further.

Department of Mines & Resources,

Dear Sir:

We acknowledge your order No. 1429, File, 57044-15-20-1, for Model 6A washer, as specified thereon.

By this time you will have received our letter of March 5, with reference to the same matter. The only thing we can do under the circumstances, is to try to get delivery of the necessary D.C. motor and then make delivery of the machine complete with motor as soon as possible. This is very indefinite we know, but under the circumstances, there appears to be nothing else we can do.. We suggest you therefore write to the party placing the order through you, advising him that delivery date is uncertain and not even an approximate delivery date can be suggested now. If therefore he can secure his requirements from any other source, it will be quite all right with us and we think he should have that privilege, in which case of course, we should be advised to cancel the order.

Yours truly,

BEATTY BROS. LIMITED.

Re: Purchase Order No. 1429,
March 5, 1945.

In connection with the above, I am in receipt of a letter from Beatty Brothers, Limited, with whom the order was placed. It refers to a letter, apparently forwarded to your office, dated March 5, and it is evident that the firm is not extremely anxious to have the order and certainly will not be in a position to ship the washer in order to reach Waterways between April 5 and May 10 so that it may catch the first boat going north. Under the circumstances, it would be appreciated if you would make an attempt to purchase a washer of similar or equal design, if such is available from some other firm.

Dear Sirs,-

Re Purchase Order No. 1429

Last March you wrote us regarding the above order, stating that you had no 110 volt D.C. motors, that there were no prospects of receiving any in the immediate future, and that the possibility of early resumption of production on Model 6A was so remote that you could promise no definite delivery date. Under the circumstances, order No. 1429 is hereby cancelled.

Ottawa, June 21, 1945.

Dear Bishop Trocellier:

With reference to the electric washer for the Aklavik R.C. School, a copy of our purchase order No. 1429 was forwarded to you on March 8. However, the firm subsequently advised us that they could not supply that particular washer and it was necessary to obtain new prices. We have now secured a washer from J.H. Connor & Son, Limited, Ottawa, and I enclose, for your information, a copy of our purchase order No. 3873.

You will note that this particular washer will not reach Waterways much before August 9. This may mean that it will be too late to be shipped to Aklavik this year. I regret this delay, if it occurs, but I wish to assure you that it is due to circumstances entirely beyond our control.

When the washer does reach Waterways it might be possible for you to have the account certified and forwarded to this office so that payment can be made from the current year's appropriation.

Yours sincerely,

Dear Sir,

I have received your letter of June 21st, referring to the electric washer for our school at Aklavik. I sincerely appreciate your efforts in obtaining this machine.

Even though the washer reaches Waterways around August 9th, I think there may still be time to ship it to Aklavik before the close of the transportation season.

I shall notify the Father in charge of our mission at Waterways-McMurray, to see to the signing of the waybill and to the speedy shipment north, of the washer.

Re: Order # 3873, R.C. Boarding School, Aklavik

NOV 16 1945

Dear Mr. Phelan,

I have the pleasure to inform you that the washing machine covered by order # 3873 for the R.C. Boarding School at Aklavik, has recently reached Waterways, where it will be put in storage for the winter. Even though it will not reach Aklavik until next summer, it is a case of "better late than never."

Enclosed you will find invoices covering transportation from Ottawa to Waterways.

I take this occasion of saying that I would consider it a great favor if you would kindly let me know just what you have been able to order from the requisition lists which were recently sent to you from Fort Smith for the fiscal year. In the event that you are unable to obtain what we have asked for, we may thus be in a position to complete the orders ourselves. You can readily understand the importance of this information, especially when it is a case of building materials or repair work.

With sincere personal regards, I remain,

very truly yours,

Dear Bishop Trocellier:

I have your letter of the 12th instant in which you advise the washing machine for the Aklavik School has reached Waterways. You forwarded a certified account for freight but you did not send the account covering the cost of the machine itself. If you have this account I would appreciate it if you would certify and forward immediately.

I trust the following statement supplies the information requested in the last paragraph of your letter:

Aklavik R.C. School

Amount provided 1945-46	-	\$700.00
Amount expended	-	545.00
Balance	-	<u>155.00</u>

Providence Mission School

Amount provided 1945-46	-	\$800.00
Amount expended	-	414.58
Balance	-	<u>385.42</u>

Holy Angels School

Amount provided 1945-46	-	\$500.00
Amount expended	-	383.88
Balance	-	<u>116.12</u>

The above three schools show an unexpended balance of \$656.54.

A total amount of \$1,300.00 was provided for Fort Resolution but we have expended \$2,207.98 which means that \$907.98 has been expended over and above the amount specifically provided. This was due to the fact that account

for materials ordered in early winter of 1945 did not reach us until the books for the year 1944-45 had been closed and consequently we were obliged to pay them from the current year's appropriation.

In view of the above situation, we will be obliged to use the unexpended balance of \$656.54 of the three schools first mentioned to offset part of the over-expenditure of \$907.98 at Fort Resolution, consequently we are not in a position to incur further expenditure at these four schools during the current fiscal year.

However, the requests made on the requisition lists which you sent from Fort Smith are being included in our estimates for the fiscal year 1946-47. If they are approved by the Minister we will be in a position to place the orders early in 1946 but until our estimates for 1946-47 are approved no action can be taken. I can assure you that I will keep the matter in mind and if the approval is granted, the necessary action will be taken to order the supplies requested.

At the present time I am not in a position to give you definite assurance that all your requests will receive favourable consideration.

Yours very truly,

Philip Phelan,
Chief, Training Division.

END.

Dear Mr. Phelan,

I have received your letter of November 29th, with information relative to the various amount provided and expended in favor of our schools during this current year.

It is to be hoped that in future the goods destined for these institutions will arrive during the shipping season, to offset the difficulties arising from failure to deliver the materials during the year for which they had been ordered.

In the event that certain requisitions cannot be filled, I would be grateful indeed if you could notify us of such a shortage. As we depend very much upon all these articles for the smooth progress of our work, you can readily understand the importance to us, of knowing if one or more orders may be cancelled. This year, for example, we had looked for certain kinds of wood for the completion of interior construction work, which has already been going on for a long time, but it was only at the end of the shipping season, that we realized that nothing had been sent, nor had any notification been given in this regard.

With full appreciation of your kind attention to our requirements, I remain,

very truly yours,

Dear Sir,

I am returning 3 signed copies of invoices regarding the electric washer sent by the Department to our Indian Residential School at Aklayik, N.W.T.

This washer reached the rail terminus at Waterways, Alberta, too late last fall to be shipped immediately to its destination. However, it will go down to Aklayik by the first boat in spring.

Very truly yours,

J. Trocellier

Mr. R. Hoey, Superintendent,
Dept. of Welfare & Training,
Ottawa, CANADA.

Dear Sir,

A few years ago I took over with the Department of Indian Education the matter of procuring additional school desks for our pupils. As that Department had already supplied a sufficient quantity of desks for our Indian pupils, you wrote to me on March 1, 1944, and I inferred from your letter that I was to apply to another Department for procuring school desks for our Eskimo pupils. As the War was then raging, I let this matter drop, but I am now sending a requisition for additional desks to the Department of Mines & Resources.

However, as our school has never been supplied with teachers' desks and chairs, I have included these two articles in this year's requisition list and I would greatly appreciate it if you would take this matter into consideration.

Thanking you in advance for your kind attention to this matter and wishing you the compliments of the season,

I beg to remain,

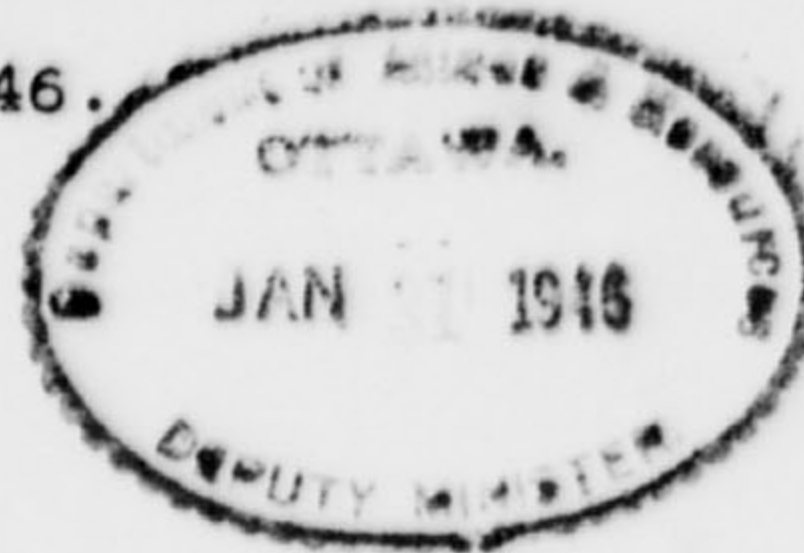

Yours very respectfully,

To the Superintendent,
Dept. of Mines & Resources,
OTTAWA, CANADA,

Dear Sir,

I have already taken up with the Department of Indian Education, a few years ago, the matter of procuring additional desks for our school.

We had already received from that Department 44 desks and Mr. R. Hoey pointed out to me that it was more than sufficient for the number of Indian pupils on my Report and that I should apply to another Department for procuring desks for our Eskimo children.

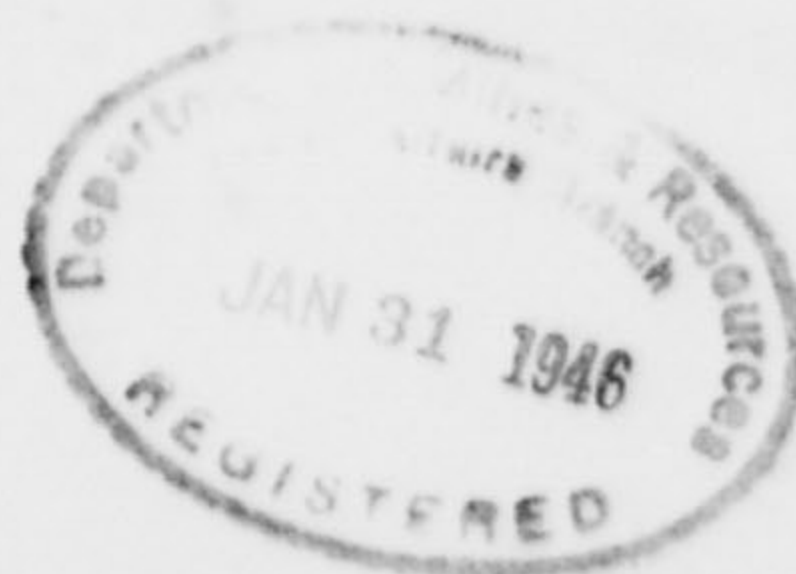

On account of the War, I have let this matter drop, the last two years, but I would greatly appreciate it if you would now take into consideration the enclosed requisition for additional desks. As the desks we already have in our school are Moyer's New Empire Single desks, we would be pleased to receive the same model which is giving entire satisfaction.

Thanking you in advance for your kind attention to this requisition,

I beg to remain,

Yours very respectfully,

Sister J. Dussault

Dear Sister Dussault:

With reference to your letter of 3rd January, our records indicate that we have supplied the number of desks required for the authorized enrolment of Indian children at the Aklavik R.C. Residential School. We can only supply equipment for Indian children and if the information given in the preceding sentence is not correct you can please let me know.

If the additional desks are required on account of the enrolment of either white or Eskimo children, it will be necessary for you to contact Mr. A.L. Cummings, N.W.T. and Yukon Branch, 150 Wellington Street, Ottawa.

Dear Mr. Phelan,

It was something of a surprise to receive your wire yesterday with regard to the requisitions I had sent you last fall. I am herewith enclosing copies of the requisitions in favor of our four Indian Residential Schools.

As it is imperative that these items reach their destination during the transportation season for river navigation, you will understand why it is important that I know for certain just which items you are sending, so that if substitutions must be made, or orders cannot be filled within the season, other arrangements of a temporary nature may be made.

In the case of the requisition for Fort Chipewyan, I have noted that the Range asked for, was really part of the requisition for the previous year. Now, in addition, all these requisitions are reaching you after the end of the fiscal year for which they were intended, but as you will notice by the date of the copy of each list, the requisitions were sent at an early date.

I ask you therefore to let me know whether we can expect to receive the various items which are asked for, so that we can depend upon the reception of same during the course of the summer.

Very truly yours,

J. Trocellier

Dear Bishop Trocellier:

With reference to your letter of the 1st instant, I am forwarding separate communications in order that we may keep the information in a proper manner on our file.

Re: Aklavik R.C. Residential School - Provision is being made in the appropriation for the fiscal year 1946-47 for an amount of \$3,000.00 for cementing the basement of the school. Please let me know the quantity of cement that you will require and what amount will be necessary for labour. It should be understood that \$3,000.00 is the total amount that can be allowed.

We will also have funds for the purchase of the Battleship linoleum and the Purchasing Agent is being requested to secure this.

It will not be possible for us to consider purchase of the trailer.

Dear Bishop Trocellier:

I have your letter of the first instant and, under separate cover, I am communicating with you regarding your various requests for the schools in your Diocese.

You seem to be under the impression that we have not expended the amount of money provided in the appropriation. Our books show the following expenditures during the fiscal year 1945-46:-

Holy Angels	-	\$390.00
Fort Resolution	-	2,207.00
Providence Mission	-	414.00
Aklavik R.C.	-	592.00
Total	-	\$3,603.00

The amount actually included in the appropriation for the four schools was as follows:-

Holy Angels	-	\$ 500.00
Fort Resolution	-	1,300.00
Providence Mission	-	800.00
Aklavik R.C.	-	700.00
Total	-	\$3,300.00

You will, therefore, note that we actually expended more than was specifically provided. Part of the expenditure was due to

Gentlemen:

We are enclosing herewith our Invoice No. 386, dated November 30th, in the amount of \$52.50. This invoice covers our transportation charges on a washing machine shipped to the Aklavik Residential School.

We have been advised by Father Gilles of the Roman Catholic Mission, at Fort Smith, to render this account to you as it is chargeable to the Department. He also advised us that this washer was purchased by the Department of Indian Affairs in 1945 but was received by us too late in that year to make delivery, therefore, delivery was completed in 1946.

We would appreciate receiving your remittance covering at your convenience.

Dear Mr. Phelan,

We have received your letter of March 26th, advising shipment of the cement and cement mixer, and have informed Rev. Father Lesage at McMurray of same.

As the writer himself will be in McMurray for several days immediately following Easter, it is very likely that the shipment will arrive during that time, if it does not get there this week. The certified account will be returned to you promptly.

Thanking you for your interest and assistance,
we remain,

very truly yours,

Re: Bread slicer

Dear Sir:

Enclosed please find invoice in triplicate from the Berkel Products Co. Limited of Toronto for slicer, serial No. 629535 supplied to the above school.

It is to be hoped that you will be able to issue a cheque for the amount involved in the near future as these slicers are sold on ten-day terms.

May I add that the above school had absolutely no mechanical device for cutting bread, vegetables, meat or other food products.

The Reverend Sister in charge of the kitchen would have liked to have a power slicer but these cost \$200 more than the hand operated machine and I told her that for the time that she would have to be satisfied with the machine supplied.

Yours very truly,

J. P. L. L. L.

1	Precision Light Weight Portable Power Chain Saw.		
	NOTE: This school is situated in a country where the winter is extremely long, the cold severe and consequently heating and the means to procure it are always a serious problem. The labour situation is very difficult at all times but principally so during the winter months when hunting and trapping supply sufficient work at remunerative prices for all the population. The school requires a very large quantity of fuel and depend on the few lay brothers attached to it. It is considered advisable to supply a mechanical device to facilitate and expedite their work. We are advised that the saw ordered on this requisition can be secured for \$443.20 for the 18" type model. This includes one extra chain, one filing tool and three spark plugs. We are further advised that the price quoted is subject to 10% discount. In order to make use of the machine this year, purchase should be made as soon as possible. Literature covering this saw is attached to requisition for Holy Angels School. (Precision Parts Limited, Montreal, Quebec.)		

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Re: Providence Mission, Holy Angels, Aklavik and
Fort Resolution Indian Residential Schools.

We have your memorandum of November 7th with reference to our requisitions of October 25th for a precision light weight portable power chain saw for each of the above mentioned schools.

As pointed out in our requisitions it has become increasingly difficult for these schools to secure wood due to the scarcity and high price of labour. We feel that it would be advisable to supply a saw to each of these schools and the funds for the purpose are available in the appropriation for the fiscal year 1947-48. The necessary order in council has already been secured authorizing disbursement of the amounts specifically provided in the estimates. This type of saw is especially useful in the districts in which these schools are located and should serve for many years.

I would like to recommend immediate purchase.

Re: Laundry Machinery for Aklavik
Indian Residential School

My dear Mr. Phelan,

On October 18 last, I wrote to the Department regarding the mechanical equipment of the above school and mentioned particularly that of the laundry.

Since then I have had occasion to secure approximate prices from both the Beaver Laundry and the Canadian Laundry Companies, which I take the liberty of listing below:

1. "Leonard" boiler 12 H.P., 100-lb pressure, complete with ordinary fittings \$ 664.00
2. 26" Beaver, motor driven, Laundry Extractor 962.00
3. 36 x 30 Beaver Heubsch laundry drying tumbler complete with $\frac{1}{2}$ H.P. motor 485.00
4. Scissel Sock Dryer - approximately 400.00
5. 56" Flat work ironer 480.00

The purchase of the above can be done by your Purchase Department. However, His Excellency Bishop Trocellier has offered to do the purchasing himself and supply the balance of the money if the amount standing to the credit of his four schools should be found insufficient.

Would you let me know as soon as possible what plan you desire to follow.

Thanking you in anticipation, I remain,

Yours very truly,

School

My dear Mr. Phelan,

I am enclosing invoice for freight on 1,000
sacks of cement shipped to Aklavik last May, on which
the Roman Catholic Mission had to pay freight in the
amount of \$4,375.00.

I do not know what can be done about re-
imbursing the Mission for this very large amount but
I hope that you will do your best to take care of it.

Yours very truly,

Re: Laundry Machinery at the following Residential
Schools - Aklavik R.C.; Providence Mission R.C.;
Fort Resolution R.C.; Holy Angels R.C.

In your letter of December 12th you stated that His Excellency Bishop Trocellier was prepared to purchase a boiler, extractor, drying tumbler, sock dryer and flat work ironer at an approximate cost of \$3,000.00 for each of the above schools, on the understanding that the Department would pay the amount unexpended in the current year's appropriation for the schools mentioned.

The Deputy Minister has approved this arrangement and you may notify Bishop Trocellier. When he submits the receipted accounts covering the cost of the machinery at each school, we will allow the amount still remaining which is as follows:

Aklavik.....	\$ 529.00
Providence Mission.....	\$ 1,745.00
Fort Resolution.....	\$ 1,954.00
Holy Angels.....	\$ 5,502.00
Total	\$ 9,730.00

Re: Aklavik Residential Schools.

For several years the Department refused to recognize the Aklavik R.C. Residential School. Our files, therefore, show no record of its construction. Right Reverend Bishop Breynet, O.M.I., in a letter dated October 6, 1923 offered to build a residential school to accommodate up to thirty pupils for a grant of \$30,000. He stated that with the help that was available such as carpenters and engineers he was able to construct the school for the above amount. This is the only reference to the cost of either of these schools. The only reference we have of the Church of England school is that on February 3, 1938 we gave them a grant for equipment of \$2,000.00.

Dear Sir:

Reference your letter of February 26th, 1948, under the above file No. in which you requested an investigation for an account of freight, on School desks forwarded to the R.C. Mission School at Aklavik. I wish to state that I wired Father M. Beauregarde of the R.C. Mission at AKLAVIK, and requested to know who had supplied the desks in question. The following is a copy of a wire received from Father Beauregarde. SCHOOL DESKS RECEIVED LAST YEAR BY GOVT STOP FREIGHT MUST BE PAID BY INDIAN AFFAIRS.

As the above wire from Father BEAUREGARDE, indicates that the desks were supplied by the Gov't. I inquired from Dr. J.P. Harvey, former Indian Agent and he informs me that he believes the desks were supplied to this school by the Northwest Territories Administration Branch.

In view of the above, I am returning herewith the copies of this freight account, with the suggestion that same be checked with the N.W.T. Administration, as it would appear from the information available that the charges for freight are the responsibility of that Department.

Yours truly,

DEPARTMENTAL PURCHASING AGENT

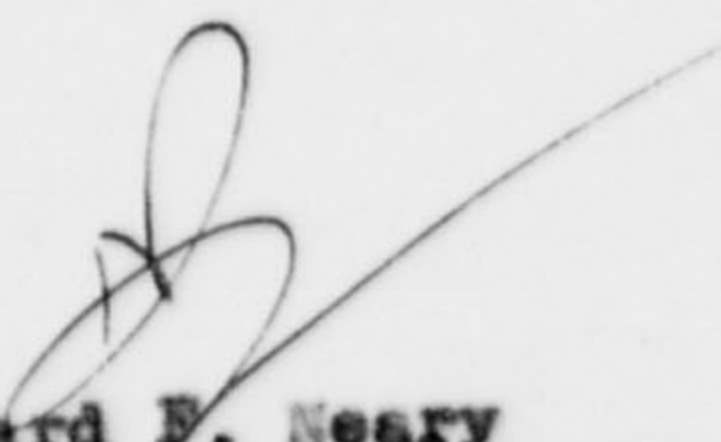

Re: Bricks for Four Northern Residential Schools

Your memorandum of July 21st, 1948, file 83258-15/3, gave authority to Mr. Superintendent Robertson at Winterburn, to make the best possible arrangements for the local purchase and shipment of the bricks required at our four Northern Residential Schools.

Please find attached an account for \$499.73 covering the purchase of these bricks. The total cost should be split among the four schools concerned. These are:

Aklavik R.C. Residential School No. 915
Fort Resolution Residential School No. 916
Providence Mission Residential School No. 918
Holy Angels Residential School No. 755

The other coding is as follows: 517-10-691.

Attention: Mr. P. Phelan.
Re: Furniture and Supplies for Aklavik R.C.
Indian Residential School.

Dear Mr. Phelan:

The above school is in serious need of the following items of furniture for the school kitchen.

- 1: Large kitchen stove: 3 ovens, 2 fire boxes for wood, water front and warming closet.
- 2: Large frigidaire: As this School has not the Electric Power necessary for a large frigidaire, His Excellency Bishop Trocellier suggests that you supply the largest home Frigidaire available. This could be operated with the present electric power plant.
- 3: Cement: Last year you supplied one thousand sacks of cement, for a new foundation under the school. Another five hundred sacks are necessary to complete this work.
- 4: Paint: The school has not been painted for over ten years and it is felt that it should be done during the coming summer. The estimate of the quantities of paint needed is as follows:

- 1: One hundred gallons of white paint for exterior work.
- 2: Fifteen gallons of lionoil.
- 3: Ten gallons of Turpentine.
- 4: Four 4" paint brushes.
- 5: Four 2" paint brushes.
- 5: Lionelum: Two hundred and fifty ^{square} yards of battleship lionelum to cover worn out floors. It is estimated that this will be cheaper than laying new floors.

Dear Sirs:

Replying to your letter dated January 27th we attach hereto receipted copy of our 1947 bill of lading No. 2030 in the amount of \$4,375.00, covering 1,000 sacks of cement taken from Waterways to Aklavik for the R.C. Mission at that point.

We believe this to be the shipment to which you refer in your letter and would advise that we already issued a duplicate bill of lading personally to Father Gilles covering this shipment sometime in November of 1948.

We trust, however, that the attached copy will enable you to obtain the reimbursement to which you refer.

Yours faithfully,

For The HUDSON'S BAY COMPANY,

Dear Father Plourde:

We have submitted a memorandum to the
Deputy Minister regarding Bishop Trocellier's request.

I am returning the letter and circular
from the Medland Machinery Limited, which we do
not require. I am also returning your letter of 23rd
February, 1949. Presumably, you wish some or all of
the articles ordered from the appropriation for 1949-50,
and you might discuss the request with us at a later
date.

I am returning your letter so that there
will be no doubt as to where it is.

Yours sincerely,

Re: Laundry and Electrical equipment
for Aklavik and Résolution Schools.

Dear Mr. Phelan:

The Aklavik School requires a Lighting Plant comprising a Diesel Engine, a Generator and a set of batteries.

The Fairbanks-Morse Co, of Montreal have quoted the sum of \$3088.00 for a 20 H.P., two cylinder, four cycle, 1200 R.P.M. Diesel Engine and a D.C. Generator 10 K.W., 120 volts, complete with rheostat. A suitable set of batteries for the above will cost \$1200.00, making a sum of \$4288.00 for the complete Plant. The above prices are F.O.B. Montreal.

The Resolution School requires a Washing Machine, the description of which follows:
"New 30" x 48" Beaver Handy Laundry Washer, monel metal outercase, with soap door. Monel metal cylinder, fitted with direct connected reversing type motor and controls. 110 volts Direct Current, with thermometer, and water level indicator."

The price of this Washing Machine is \$1609.00, F.O.B. Toronto.

The same school also requires 500 Sq. Yd of LINOLEUM to cover floors which otherwise will have to be replaced.

We estimate the above to be worth \$1250.00. The amount now standing to the credit of the group of schools in Bishop Trocellier's territory, is \$6301.69. But he is willing to supply the balance out of missionary funds, provided he is authorized to purchase the above and he will submit receipted invoices, on receipt of which your Department will issue a check for the amount standing to the credit of his schools.

Thanking you in anticipation, I remain,

Yours very truly,

Memorandum:DEPUTY MINISTER

Re: Aklavik R.C. Residential School
 Fort Resolution R.C. Residential School
 Providence Mission R.C. Residential School
 Holy Angels (Fort Chipewyan) R.C.
 Residential School

The above mentioned schools are Church-owned and are in the Diocese of the Most Reverend J. Trocellier, O.M.I., Vicar Apostolic of Mackenzie. Bishop Trocellier has obtained estimates of the costs of the following items which he states are urgently required at the under-mentioned schools.

(1) Aklavik R.C. Residential School:

- 1 Lister Diesel Engine driven
 generating unit, approximate cost...\$4,045.00
 1 Set of Batteries for above.....\$1,200.00

(2) Fort Resolution R.C. Residential School:

- 1 Beaver "Handy Laundry Washer",
 30" x 48", with necessary attach-
 ments.....\$1,609.00
 500 Yds. Linoleum, approximate cost.....\$1,250.00

The purchase of the above items involves an expenditure of slightly over \$8,000.00.

In the appropriation for the fiscal year 1948-49, there is still unexpended slightly less than \$7,000.00, from

.....2

the amount specifically provided in the current year's appropriation for the four schools in Bishop Trocellier's Diocese, namely, Aklavik R.C., Providence Mission R.C., Holy Angels (Fort Chipewyan) R.C., and Fort Resolution.

Bishop Trocellier requests authority to proceed immediately with the purchase of the items shown above for Fort Resolution and Aklavik, with the understanding that the Department will allow towards the cost of the items, the amount unexpended at the four schools in his Diocese. In other words, he is prepared to purchase the items for Fort Resolution and Aklavik R.C. Schools, and will pay their cost and their transportation to the two schools over and above the amount of \$7,000.00. Before the Department's payment is made, Bishop Trocellier will submit receipted Invoices for the expenditures he incurs.

I feel that his proposal is reasonable and similar authority has been granted previously. Therefore, I would appreciate it if the Minister would approve Bishop Trocellier's request.

Re: R.C. Indian Residential School

In a memorandum under date of the 22nd instant regarding the above, this office advised you that additional information was being sought regarding the likelihood of obtaining electrical power from the local privately owned plant.

Replying to a telegram on the matter, Bishop Trocellier wired Col. Neary of Indian Affairs as follows:-

"Aklavik Town power twenty cents per KW very expensive we would save money with our own diesel plant STOP If Aklavik Power Company gives more reasonable prices we could take power there and then give the diesel plant to our Residential School of Providence"

At Aklavik, in addition to the R.C. school, another Indian Residential School is operated by the Missionary Society of the Church of England in Canada. Canon Cook, Superintendent of the Indian School Administration, M.S.C.C. was contacted by Col. Neary, for information in connection with the matter of power, and conditions which likely apply to both schools, were described by Canon Cook as follows:-

The Aklavik Power and Supply Co. Ltd., has two diesel operated machines, with a capacity of 37½ K.W. each. The Company has in mind adding a third unit, which would raise capacity to between 80 and 90 K.W.

Mr. Peffer of the power company canvassed the Church of England school authorities and offered to supply 110 volt, single phase 60 cycle A.C. power for a flat rate of \$175.00 per month, provided the school load did not exceed 3240 kilowatt hours per month. The company would install power line, transformers and meter if required. Charges for metered current would be as follows:-

	Current for Power Operated Equipment	Current for Lighting Purposes
Up to 100 K.W.H.	10¢ per K.W.H.	20¢ per K.W.H.
From 100 to 200 K.W.H.		18¢ per K.W.H.
Above 200 K.W.H.		16¢ per K.W.H.

This office has never been in possession of record drawings or data in connection with either of the schools mentioned, and Indian Affairs are unable to furnish data on the demand imposed. Consequently we are not in a position to make an intelligent recommendation on the action that should be taken until a thorough inspection of the R.C. residential school has been carried out, and an investigation of possible arrangements with the power company made. To date no request for such action has been received from Indian Affairs.

In his memorandum dated March 16th to our Deputy Minister, the Director of Indian Affairs indicated a degree of urgency, regarding purchase of the lighting plant, and if available funds are to be used approval must be given in the next few days.

It is the opinion of this office, nevertheless, that if purchase of the unit can be deferred without endangering the heating plant of the school, and as a result, the health of the pupils and staff, the time should be taken to investigate the matter thoroughly.

T.S. Mills,
Chief Engineer.

Re: R.C. Indian Residential School, Aklavik,
- Additional Power Unit.

Attached you will find a report from the Chief Engineer, Engineering and Construction Division, respecting the purchase of a Lister Diesel engine driven electrical generating unit for the above school.

In conversation with Colonel Neary the urgency of this purchase was emphasized and consequently the Minister's approval was secured.

Mr. Mills has suggested that the power situation at Aklavik should be thoroughly investigated. Will you please have the matter of proceeding with an investigation taken up with Mr. Gibson.

The Deputy Minister has forwarded to this office Mr. Mills' memorandum of March 28th addressed to Mr. R.K. Odell regarding the above.

It is noted that your Branch does not possess record drawings or data in connection with either Aklavik C.E. Residential School or Aklavik R.C. Residential School. We would appreciate it if you would arrange to have both schools inspected and a thorough investigation made regarding possible arrangements that might be made with the local power company to supply electricity to these schools.

It should be kept in mind that both these schools are Church-owned, and the cost of the electric current consumed is paid by the school management from their per capita grants and other receipts. Consequently, both of them will be interested in the cost of securing power from a local company.

916-5
918-5

Further to our letter of April 4th. at which time we sent you invoices covering the above purchase order. We also advised you at that time that we were unable to furnish the bills of lading as we could not deliver the material to the water transportation company until they were opened to receive the goods.

These materials have now all been shipped and we are attaching hereto original copy of bills of lading and copies of our packing slips covering these invoices.

We trust that you will find these all in order and that we may have these accounts now passed for payment.

Thanking you for past favors, we remain,

Yours very truly,

Dear Mr. Cody:

Re: Purchase Order 41708

The above was issued on April 11th, 1949, ordering a range to be shipped to the Most Reverend J. Trocellier, O.M.I., c/o McInnes Transportation Company, Waterways, Alberta. We would appreciate it if you would let us know if this range has been shipped and if so, the date.

It is important that the range should reach Waterways at the earliest possible date, so as to ensure delivery by boat from that point while the navigation season is open.

Sincerely yours,

Bernard F. Neary,

Dear Sirs:-

RE YOUR FILE 915-5 (E.I.)

We have your letter of June 23rd addressed to Mr. F.W. Cody
Ottawa. Our Adelaide Plant Foundry advise us that your order was
shipped on July 6th, and we think that this range must have been received
by now, at Alberta.

Dear Bishop Trocellier:

Re: Purchase Order 41708

In letter dated July 13th, we are advised by General Steel Wares that the range ordered on the above requisition for the Aklavik R.C. Residential School was shipped on July 6th and should have reached Waterways by this time.

No doubt the firm will also forward the account. As soon as you receive the range you should certify the account and return for payment.

Honourable Sir:

I beg to inform you that our new school is nearly finished. It contains large Class-rooms and dormitories well lighted and well ventilated. Consequently we are in a position to accommodate and educate about seventy-Children. Having permission to admit only twenty-five Indians I beg you to authorize me to increase the number to sixty. You understand so well the advantages these Indian Children derive from the training and education they receive from us, that I hope my request will be granted without hesitation.

I have also made considerable improvements at the Boarding School, Fort Providence which enables me to accommodate a much larger number. So I would ask you to increase the number to sixty Indians for this school also.

I beg to renew my demand which

Right Reverend Sir,-

I have the honour to enclose herewith Agreements, in duplicate, between Your Lordship and His Majesty the King, represented by the Superintendent General of Indian Affairs, for the future maintenance and management of the Fort Resolution (St. Joseph's Mission) Boarding School and the Fort Providence (Sacred Heart) Boarding School; and I have to request that you will be good enough to sign these documents in the presence of a subscribing witness and affix thereto your official seal, returning same to the Department at your earliest convenience, as the Agreement will go into effect on the 1st. of April next.

On the return of these documents the signature of the Deputy Superintendent General will be affixed and a copy of each will then be returned to you.

Certain alterations and improvements may be necessary at both these Schools to bring the buildings up to the required standard, and arrangements will be made to have an inspection made during the coming summer by an officer of this Department, who will report on the improvements required. A reasonable time will be granted by the Department to allow you to have these improvements made, and in the meantime the increased per capita grant will be paid each school at \$125.00 from April 1st. next, provided these Agreements are completed.

Child, and a new wing 22 x 30, three stories high, is now under construction which we hope to occupy next Summer.

Our Class-rooms and dormitories as you are aware are well ventilated and lighted, and the school being built on the banks of the lake give us every chance of receiving good fresh air. All our Children are in perfect health, and there has not been even one case of sickness in the school all year. I think this is sufficient proof of the healthy location we are in and how the school is ventilated.

We have not only the Indians of Fort Resolution depending on us for care and education, but also those of Fort Rae, Fort Smith and Hay River, which in all count sixteen hundred. This will give you an idea Honorable Sir, how many poor little Indian Children are in need of care and education and the enormous school it would take to contain those

RESOLUTION

At Resolution the Roman Catholic Mission erected a new school building, which has only been occupied a year. An addition is shortly to be added, which will make it the largest building north of Edmonton in Treaty 8 District.

At present it is three stories high: a main building measuring 40 x 30; and two of 20 x 40 each. It is an exceedingly well-built frame structure, with a good stone foundation.

The ground floors of both wings are used as class rooms: the second floor of one wing is the chapel, with the dome obliterating the third floor. The second floor of the other wing is the recreation room, and the third floor the girls dormitories. The boys dormitory is the third floor of the main building.

The building is on the whole, well divided, though the staircases are a little dark, and pretty narrow and steep. However, there are outside staircases descending from the dormitories and recreation rooms, so there is practically no danger of accident in case of fire.

The ventilation of dormitories and class rooms has been well attended to. The windows open at both top and bottom, and are so arranged that a good current

air can be obtained at any time. Doors open onto spacious galleries from dormitories, class rooms and recreation rooms. Eight large windows in each of the above rooms give ample light, coal oil lamps, of course, are used at night.

Ordnance made 2/22/12

The class rooms are equipped with two blackboards two maps. Three long desks accommodate twenty four pupils: the rest sit at long tables. They are in need of a geography globe; two maps each of the world, the Dominion of Canada and the North Country. They need also two blackboards and brushes, and a couple dozen slates.

The Department last year sent in 25 iron bedsteads and springs but no mattresses. Each child now has four good blankets and a feather pillow. They have of course, their individual towel, comb and basin.

Must be supplied by School

They require a dozen ordinary tubs: and if possible a dozen iron bedsteads.

Water is supplied from a well under the kitchen and is pumped to the kitchen and the girls dormitory. I understand that when the new wing is built, a system of pumps will be extended to the rest of the main rooms.

Two rooms are reserved as infirmaries, one for the boys, one for the girls. They were not used this year, as there was not a single case of illness.

Two cellars 40 x 16: 18 x 16 both 8 feet high and joined by a passage 22 x 4 keep the building from dampness. These are neither floored or walled as yet but that will be attended to later on. The cellars are used as store rooms and contain also two large hot air furnaces which give every satisfaction.

Resolution con.

Besides the school building there are two ice houses, two store houses, one barn two closets, a large house for the priests and one now used as a store house, formerly the old school.

The stock comprises five milch cows, four oxen and two spring calves.

The garden is good. The soil seems to be exceptionally fertile, and under systematic cultivation, yields a surprising crop of vegetables. About four acres are under garden at present, but this area is steadily being added to. This years crop of vegetables included beans, peas, turnips, onions| cabbage, cauliflower, carrots and tomatoes, which latter| however| did not ripen on the vine, though they grow to a fair size. Cucumbers and squach were tried without success; but last autumn saw close on to four hundred bushels of potatoes in the store houses.

The grounds around the school building are kept clean and tidy. The building itself is on high ground; and the hundred yards between it and the lake have been cleared, so that the school is the most prominent landmark at Resolution, and I would strongly recommend that the present grant be materially increased. The accommodation will be greatly increased by the erection of the new wing to be occupied next autumn. This wing is to be 22 x 50: three stories high, and will contain three large class rooms. This will necessitate purchasing blackboards, desks, maps, a globe, etc. The present rooms are not too extravagantly equipped in these respects, to say nothing of providing equipment for three more rooms.

The dormitories measure as follows:-

Girls dormitory	8268	cubic ft.	accom.,	16
Boys " 	11890	" "	" "	23
Small boys " 	6270	" "	" "	-

Resolution concl.

Regular fire and military drill vary a curriculum which follows strictly along the lines set down by the Department. The boys help in the garden, and with the wood and furnaces: the girls do all the sewing and knitting for the school. Each girl over twelve takes her turn in the kitchen for a month, and at the end of that time they have learned to do all the cooking for the childrens refectory. The food is as good and as plentiful as could be desired anywhere in civilization.

For fire protection as stated before, there are outside stairways from the dormitories, class rooms and recreation rooms. There are also two chemical engines provided by the Department, and pails of water are always ready and filled in convenient places.

Mr. Pedley, -

The pupilage at present provided for at the Fort Resolution Boarding School, Treaty 8, is 25. An application has been received from the Principal in which he asks for an increase in this number to 50. Mr. Inspector Cenroy has reported very fully upon the accommodation at this school and it is shown that they have proper accommodation for the number asked for by the Principal. I am attaching herewith a photograph of the existing building. I may add that they are at present erecting a new wing, which will be ready for occupation next autumn. The present policy of the Department is to pay the grant for the number of pupils for which a school has accommodation and I would recommend that the request of the Principal of the Fort Resolution Boarding School be complied with and the grant paid for 50 pupils from the first of the current quarter.

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's communication of the 17th ultimo and referring again to official letter of January 26th, last, I beg to say that funds being now available, a further increase of fifteen is hereby made in the pupilage of the Fort Resolution Boarding School to date from April 1st, last. This will make the total pupilage fifty. As Your Lordship is aware this grant is to be made only for purely Indian children, not half-breeds.

I have the honour to be, Right Reverend Sir,

Your obedient servant,

EXD. 5486

Sir:-

I have the honor to report upon the condition of the Indian (Roman Catholic) Boarding School at Port Resolution, Great Slave Lake, which I visited, accompanied by Dr A. L. McDonald the Department's medical officer, upon the 5th inst.

This School is conducted by the Grey Nuns, and is under the direct supervision of Bishop Breynart. The building, which is a frame one, three stories high, consists of a main building 40 x 70, with a wing at either end, 30 x 40; it fronts upon the Lake, with a well kept and fertile garden between; all kinds of vegetables and flowers were in a flourishing condition and totally uninjured by frost.

There are seventy five pupils, who appear to be, as a rule, healthy bright children. The Sanitary arrangements are excellent, and cleanliness is evident, both in the persons of the children and in every department of the building. There is a well equipped Laundry, and the Kitchen is large and well appointed; the Dormitories are clean, well ventilated and comfortable, and the heating arrangements are ample, consisting of a large basement wood-heater with radiators.

I would recommend that Fire escapes be provided for the upper stories.

Five cows are kept at the Home Farm, and Potatoes and Roots are raised in large quantities.

The children learn English and French, and appear to be equally proficient in both languages. My wife, who accompanied me, was greatly pleased with the sewing and leather work done by the Girls.

Sister McQuillin attends to the medical requirements of the establishment, and is quite proficient in Dentistry; there is a well equipped infirmary and isolation ward. No epidemics have occurred in recent years.

The Institution, as a whole, is a magnificent one, and entirely worthy of the support given by the Department.

I have the honor to be, Sir,

Permit me to draw your attention to a Supel which we received at the above mentioned school last summer. Rosalie Denkeys, three years old of Fort Rae who has been abandoned by her parent and through neglect had one of her feet so badly frozen that we were obliged to amputate half of the foot. The child gives every proof of intelligence and is in perfectly good health. I talked the matter over with Mr. Purroy last summer and he advised me to write and explain the matter to the government to try and obtain a small grant for the maintenance.

MEMORANDUM:-

Mr. Scott.

Referring to the letter from Bishop Breynat hereunder, I may say that the child mentioned is a non treaty Indian girl, who, through neglect, had one of her feet so badly frozen as to necessitate amputation. In view of the fact that she was abandoned by her parents, and would probably have died had not the Sisters taken care of her, I would recommend that the Department allow the Mission the sum named, i.e., \$6.00 per month, as grant towards maintenance until the child reaches school age.

Right Reverend Sir,-

I have the honour to acknowledge the receipt of Your Lordship's communication of November 13th, last, in which Your Lordship asks the Department to make a grant for the maintenance of a young Indian girl named Rosalie Denkeya, whom you found it necessary to take into the Fort Resolution Boarding School for reasons given, although she is under the age limit.

In reply I beg to say that in view of the exceptional circumstances of this case the Department has decided to pay for the maintenance of this child at the rate of \$5.00 per month from June 26th, last. Payment of the account for the first ^{five} ~~xxx~~ months will now be made and at the end of each quarter hereafter it would be well to enclose the account with the quarterly return from the school.

While upon the Treaty trip last Summer I made a thorough inspection of the Indian Boarding Schools at Resolution and Hay River, the pupils in both these institutions were in excellent health, the gardens and potato fields looked well, the buildings as reported before at Resolution are very good but work has not yet commenced upon those of the Hay River School.

In this connection I might say that we have an ex-pupil of the Hay River School as a domestic servant at the Agency, she is clean, neat and obedient, and thoroughly understands English.

EXTRACT FROM THE ANNUAL REPORT OF INSPECTOR H.A.CONROY ON
THE SCHOOLS IN TREATY..S. for the year ending March 31st, 1916.

RESOLUTION BOARDING SCHOOL.....

A considerable addition has been recently made to the buildings of the Resolution school, comprising a large wing, 35 ' by 65' in length. Accomodation is now provided for 75 scholars and the ventiaition, heating and dormitory arrangements are everything to be desired.

A goos supply of water is provided by a well in the kitchen of the school, although the water from Great Slave Lake is excellent for drinking purposes.

The general school equipment is a little lacking in some respects, especially blackboards, maps, class-books, desks, etc.

At the time of inspection there were 17 boys and 33 girls at the school and all exhibited a well cared for appearance. The proficiency of the scholars was well up to the standard, especially with regard to writing and reading.

The boys have been receiving physical and military drill at the hands of C.Stephens of the R.N.W.M.P. at Resolution and take a keen interest in the training.

The girls receive instruction in hohsekeeping and needlework and many articles, such as dresses, moccasins and fancy work of caribou and deerskin were to be seen.

Nearly four acres of land in the vicinity of the school are given up to gardening and the different crops of vegetables and roots are sufficient for the upkeep of the school. Facilities are provided for the boys to take part in the fishery and trapping with a view to prepareing them to earn their livelihood after leaving the school. The health of the scholars was in every way satisfactory, for, although two rooms in the school have been set asides as infirmaries for the boys and girls they are very rarely occupied.

Right Reverend Sir,-

Referring to Your Lordship's personal application for an increased number of grant earners in the Fort Resolution Boarding School I beg to say that, as the additions recently made to the school buildings will afford accommodation for more pupils than the number now authorized, the Department will consent to ten more pupils being enrolled as grant earners. This will bring the number up from fifty to sixty and you are at liberty to recruit up to this limit.

RESOLUTION BOARDING SCHOOL. (Roman Catholic) *m*

This large school is now well able to accomodate 75
scholars, as the right wing has been completed. ^

The school itself is perhaps one of the most up-to-
date, and the ventilating and heating arrangements are
everything to be desired. The water supply is derived
from a well on the school premises.

At the time of my visit the pupils were having va-
cation. The total number of pupils at the school at this
time was 47.

The school dormitories are light and airy and the
general living rooms provide ample space for the require-
ments. Spacious playgrounds are also provided.

There is a certain amount of laxity in the manner in
which Indian children are brought into the schools from
their homes. No medical inspection is made and at the
time of my visit to Resolution, a band of no less than 14
children of the Dog Rib tribe was brought all the way from
Fort Rae in an open York boat and admitted to the school
without an inspection. In my opinion there is a consid-
erable risk attached to such conduct, as any contagious
disease once contracted by the pupils would be very hard
to check or eradicate.

At present the standard of health is very good.

A list of the present pupils and a record of the ex-
pupils is attached.

Dear Sir,

Having the permission to admit only sixty Indians, I beg you to authorize me to increase the number to seventy which had been partly promised me during my last interview with you.

Our new wing will be completed about the last of March, and we shall then be able to accommodate seventy pupils comfortably, as may be seen by Mr. Bury's last report on our school.

Dr. Doctor,-

During the month of February the epidemic of whooping cough broke out in the fort and school. I am happy to say it is now almost exterminated, and we have very few deaths to report. Three infants in the Fort and two school pupils fell victims.

RE Losses of boats and fishing
implements by the Indian B.
Schools at Fort Resolution
and Providence, N.W.T.

During the last three years exceptionnally heavy losses in boats and fishing implements have been sustained by the Indian Boarding Schools of Fort Resolution and Providence, N.W.T., as the following facts readily show:

1918-Loss of 2 scows;
1919-Loss of 3 scows, 150 nets and accessories;
1920-Loss of 1 tug boat, 3 scows, 1 large barge
with steel frame.

Those losses have occurred through extraordinary storms and have placed the Schools in a rather bad plight as the above were being used for fishing purposes in connection with our Indian Boarding Schools at Fort Resolution and Providence.

Consequently, we have been in the necessity of ordering:

1 tug boat (42 ft) for Providence	\$3.500.00
1 Schooner (50 ft) for Fort Resolution with auxiliary engine	\$2.000.00
3 Scows (\$250.00 each)	\$ 750.00
150 nets and accessories (\$8.00 each)	\$1.200.00
making a total of:	<u>\$7.450.00</u>

Dear Sir:-

Following our conversation of yesterday I herewith enclose a MEMORANDUM showing the losses sustained by our Indian Boarding Schools of Fort Resolution and Providence, in connection with fishing apparatus and operations, during the last three years.

As you kindly requested I am also including an estimate of expenses entailed in ordering new material. The Steamer and Schooner, both built by the M.B.E.Co. of Edmonton, are on their way to destination. We have still to order our nets and scows.

If you find in order to give us any help in this matter amount could be forwarded to the undersigned or, as usual to Rev. Fr C.J.Lefebvre O.M.I. 9948-110th Street, EDMONTON, ALTA

Thanking you for your kind attention and court

I remain,

Yours very sincerely,

Dear Father Guy,

I have given consideration to letter from His Lordship Bishop Breynat enclosing a memorandum showing the expenditure entailed by the Indian boarding schools at Fort Resolution and Fort Providence, N.W.T. in replacing boats and fishing implements lost by these institutions during the past three years, amounting in all to \$7,450.00 for which His Lordship asks to be recouped.

While I sympathize with the management of these schools in the losses sustained, I regret exceedingly that I am not able to find funds to assist them in replacing this equipment.

MEMORANDUMHonourable Charles Stewart.

Rt. Rev. G. Breynat, O.M.I., Vicar Apostolic of Mackenzie River Diocese, forwards a statement regarding the loss sustained by the Indian residential schools in his Diocese during the past three years as a result of the damage to the boats and fishing gear used by the schools through exceptionally stormy weather. These schools are located at Fort Resolution and Providence Mission.

In order to obtain food supplies for the use of the pupils and staff, which consist principally of fish, the boats and fishing gear had to be immediately replaced, thus entailing an extraordinary and unforeseen expenditure. His Lordship states that an expenditure of \$7450 was incurred in replacing the boats and nets, and he requests that some financial assistance be granted to recoup him.

His Lordship asks that the unearned portion of the per capita grants provided for these schools for the present fiscal year be applied towards this purpose. This unearned grant represents the difference between the amount provided in our estimates for each of these schools and the amount of the grant as actually paid, which latter is calculated on the average attendance as shown by the quarterly returns.

The returns for each of the quarters of the present fiscal year are not to hand, but, based on those received, it is estimated that there will be approximately \$3000 of unearned grant at the end of the present fiscal year. There was a falling off in the pupilage enrolled at each school occasioned chiefly by sickness among the Indians, and, as a result, there was a lower number of pupils in residence at each school than the per capita grant is provided for. The schools did not, on that account, receive the full grant provided by our appropriation for Indian education.

His Lordship's request is an unusual one, but, owing to the difficulties encountered in conducting these schools, and the cost of their maintenance in this northern country, I am disposed to favourably consider the Bishop's request, and recommend for your approval that at the end of the present fiscal year we transfer the unearned portion of the per capita grants for these two schools towards the cost of reimbursing the church authorities for the expenditure incurred by them in replacing the boats and fishing gear lost through the exceptionally stormy weather.

His Excellency

The Governor General in Council.

The undersigned begs to report that, owing to the prevalence of exceptionally stormy weather during the past three years the boats and fishing gear used by the Providence Mission and Fort Resolution Indian Boarding Schools, N.W.T. for obtaining food supplies for the pupils and staffs of the schools, have sustained losses which, according to a statement furnished by the Right Reverend the Vicar Apostolic of the Roman Catholic Diocese of the Mackenzie River, cost the church authorities \$7450. to redeem.

In order that the church authorities may receive financial assistance in this connection, the Vicar Apostolic has requested that the unearned portion of the per capita grants provided by Parliament for - among others - the two schools above mentioned during the last fiscal year, and amounting to \$5130.30 (Providence Mission \$2643.32; Fort Resolution \$2486.98) be devoted to this purpose.

Although the request is an unusual one, the undersigned is in favour of acceding thereto to the extent of \$5000.00 and would accordingly recommend that Your Excellency be pleased to approve of that amount being charged to the vote for Indian Education for 1922-23 for the

purpose.....

Herewith is a recommendation to render financial assistance to the R.C. church authorities in connection with losses sustained during the heavy storms of the last three years among the boats and fishing gear belonging to the Providence Mission and Fort Resolution Indian Boarding Schools, N.W.T.

The Rt. Rev. G. Breynat, O.M.I., Vicar Apostolic of the R.C. Diocese of Mackenzie River, has requested that the unearned portion of the per capita grants made to these two schools during the last fiscal year be applied towards reimbursing the church authorities for the losses among the boats and fishing gear which, according to a statement signed by the Vicar Apostolic, cost \$7450. to replace. The records of the Department show that the unearned portions of the Providence Mission school amounted to \$2643.32 and of the Fort Resolution school to \$2486.98, last year, amounting in all to \$5130.30. There was a falling off in the enrolment of pupils last year, due chiefly to sickness, and the religious body conducting the schools of course lost in proportion to the lack of pupils on the roll.

RRB
The request is an unusual one but owing to the difficulties and expense experienced in conducting schools in the northern district in which these two schools are situated the question of the partial reimbursement might properly be favourably considered in this instance.

INDIAN AFFAIRS:-

The Board had under consideration a memorandum from the Honourable the Superintendent General of Indian Affairs, reporting that owing to the prevalence of exceptionally stormy weather during the past three years the boats and fishing gear used by the Providence Mission and Fort Resolution Indian Boarding Schools, N.W.T., for obtaining food supplies for the pupils and staffs of the schools, have sustained losses which, according to a statement furnished by the Right Reverend the Vicar Apostolic of the Roman Catholic Diocese of the MacKenzie River, cost the church authorities \$7,450 to redeem; that in order that the church authorities may receive financial assistance in this connection, the Vicar Apostolic has requested that the unearned portion of the per capita granted provided by Parliament for - among others - the two schools above mentioned during the last fiscal year, and amounting to \$5,130.30 (Providence Mission \$2,643.32, Fort Resolution \$2,486.98) be devoted to this purpose.

Although the request is an unusual one, the Superintendent General is in favour of acceding thereto to the extent of \$5,000 and accordingly recommends that this amount be charged to the Vote for Indian Education for 1922-23 for the purpose above referred to, on the understanding that this payment is not to form a precedent for future requests of a like nature.

The Board concur in the above recommendation and submit the same for favourable consideration.

WITH CHEQUE

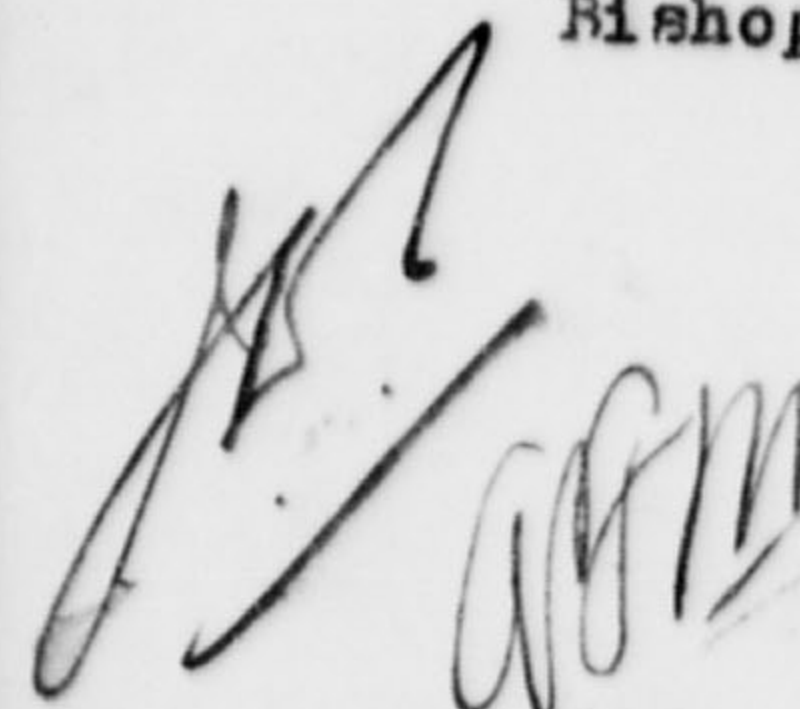

I enclose herewith cheque No. 1421 for the amount of \$5,000.00, in payment as compensation for loss sustained to boats and fishing gear at the Providence Mission and Fort Resolution Indian Boarding Schools.

In May, last, the Vicar Apostolic of the Diocese of McKenzie River requested that the unearned portion of the per capita grants for these schools for the fiscal year ending March 31st, last, be applied towards the granting of assistance to recoup him for the loss sustained. Although this request was an unusual one, the Superintendent General is in favour of acceding thereto, to the extent of the above amount, on the understanding that this payment is not to form a precedent for future requests of a like nature.

I shall be pleased if you will inform the Rt. Rev. Bishop Breynat of this payment having been made.

Memorandum:

Dr. Scott.

Mr. Moran, of the Northwest Territories Branch, Department of the Interior, has shown me their files with reference to hospital wings in the Fort Resolution and Hay River Indian Residential Schools. That Department has refused to designate these schools as hospitals, the Department of Health having advised them that it would be "an extremely dangerous situation to set up. Children are potential subjects of all of the infectious diseases, and having such a focus near a school seems to me to be contrary to all the recognized principles of health protection. I certainly think a hospital (separate building) is required and should be insisted upon." On these grounds, the Interior Department are not paying grants for the hospitalization of patients being treated at the Fort Resolution or Hay River Indian Residential Schools.

Our Department is allowing grants for patients at both schools (Files Nos. 74-139 and 50-139). The Department has written to Dr. Bourget, the Indian agent, regarding the advisability of keeping a patient with an infectious disease at the Hay River School. As a matter of policy, should we allow hospital patients in our residential schools? There is no question but what the authorities of the school were prompted solely by charity, as they have kept this patient for 24 years without grant.

I presume that the Interior Department will probably cooperate with us in the provision of funds and in the erection of hospitals which may be found necessary in the Northwest Territories. The present discussion leads me to believe that a hospital, to be conducted either under Protestant or State auspices, should be established at Hay River, where the land is suitable for gardening. Further, it appears that Fort Resolution requires a hospital and this fact was brought to our attention by His Lordship Bishop Breynat in October, 1923 (134-4-5). There is a physician at Resolution but not at Hay River. Bishop Breynat's scheme was a combined residential school and hospital, which was changed eventually and which would certainly not be a proper arrangement.

If funds are provided by either the Department of the Interior or this Department, or by both, the Department of Health would submit plans for suitable buildings.

This memorandum has been written, following Mr. Moran's visit, in the interests of the health of the Indian children in residential schools and in the interests of all members of communities who require hospital treatment.

Sir:

I have the honour to report on conditions of the Agency during the month of November 1925.

x

x

x

An inspection of all the classes was made, and good progress appreciated at Resolution. Even in the youngsters the way they learn the language is very encouraging, showing good talent in the children and patience from the teacher's part.

32 children, new comers this year, were immunized against diphtheria, during the month of November, keeping all the school children safe against that disease.

The winter promises to be hard for the Indians and old people especially. The rabbits are very scarce, the ptarmigans were also few this fall, and apparently the fur animals are not getting much food, mice which were so numerous last year are not seen this fall, either extient or migrated.

The mode of living of the Indians in this country is changing with time and, they now have ambition to build houses, and possess gas boats, leaving all the old industries of building canoes aside, and I often wonder if industrial school should not be more important than the teaching of English, French grammar and Geography, etc. The knowledge of one language and the rest of the time devoted exclusively in teaching some thing that would be practicable to the Indians would make them more self dependent and it seems to me this style of education would appeal more to the Indians. Certain branches of industry specially adapted to their needs with the idea of improving their abilities in making a living. Their talent is good and they have good ability in carpenter's work, mechanical talent well on the way to progress, and if science could be brought in their way of fishing, trapping and even stock raising or "fur farming" could do a great deal towards the improvement of their life. As soon as they leave school, under present conditions they have no means of keeping in touch with what they have learnt, and forget everything in no time; besides they are handicapped when trying to make their living, and this is the fear of the Indians when sending their children to school. Only very few positions on interpreters are needed and the supply is always great. Of course the knowledge of the two languages is an asset to a man, but their time in school is too short for them to learn from the beginning the two and master them well enough to remember them well, so that if one was learnt well, and all other time devoted to industries for their living, they would be better equipped for life, from their point of view.

I have the honour to be,

Sir,

Your obedient servant,

I should be grateful if you would discuss with the Rev. Principal the advisability of giving more vocational education to the boys and explain that the Department favours the half day system, i. e., morning or afternoon in the classroom and the other part of the day in farming, gardening, care of stock, carpentry, or whatever will assist them when they graduate. If instruction can be given along lines which will make the graduate a better trapper, fisherman, etc., it should receive an important place in the school life. This should be the practice at all Indian residential schools and I will be very pleased to learn that some steps have been taken at Resolution to make the training more practical.

Dear Mr Scott:-

The authorities of Fort Resolution Indian Residential School have advised me of the sad plight in which they are placed during this present year on account of the low earnings of the school.

You are perhaps aware that twenty seven children from Fort Rae did not return for the school term of 1926-27. I can not help but state that the school authorities are not solely to blame for this misfortune.

Therefore, taking into consideration this fact and the heavy expenses incurred in the management of such a distant school, I take the liberty of asking from you if a special consideration could be given in order to alleviate the burden.

Yours very truly,

Dear Sir:

Up to the present, the two Indian Boarding Schools of Resolution and Providence have received a grant for, respectively 50 and 65 children. Owing to the fluctuation which always occur in those establishments, it happens sometimes that the pupils in one of those schools outnumber the total for which the grant is being paid, while they run short in the other. I would therefore respectfully suggest and recommend that a global grant for 120 pupils be arranged for, so as to enable us to maintain a good standard in any of those two schools.

A night letter dated the 16th inst. has just been received from His Lordship Bishop Breynat reporting the possibility of a serious shortage in the food supply for the Boarding School and Staff at Fort Resolution, owing to failures of both the fisheries and the potato crop. A copy of the night letter is enclosed herewith.

This is the first intimation that has been received here regarding the possible shortage of food at Fort Resolution. Perhaps your Agents have reported on this, not only as regards Resolution but Hay River and Fort Rae as well. Any information you may care to let me have will be appreciated.

Yours truly,

Dear Mr. Finnie,-

I have your letter of the 18th instant enclosing a copy of a telegram received from Bishop Breynat regarding a shortness of food supply at the Fort Resolution Boarding School owing to failure of the crops and fish supply.

I have had no report from the Agent since one dated August 11th in which he dealt with conditions generally throughout his agency including Hay River and Fort Rae as evidenced during the progress of his annuity payment trip. Dr. Bourget, in a very general way, appeared to be somewhat concerned as to the problem of food supply among these Indians but as stated above nothing further has been heard from him and no specific request made for any relief other than that usually accorded.

I regret that I cannot give you more definite information and that it is not possible to have immediate communication with Dr. Bourget. Should any report be received, you will be advised.

Yours very truly,

Deputy Superintendent General.

I beg to take the liberty of sending under same cover, three copies from the school children, compositions that they have to make every week, being the resumes of sermons that they hear on Sunday. The sermons are preached to them in English French or Chipewyan but they have to make a resume in English for the Monday school. This particular sermon was in French, and when we consider that the two languages are not their language, the age of the children it is a satisfaction to know that they learn to write letters fairly well when they come out of school. In this particular instance the best three copies were two Half Breed children and one Treaty girl, but often the Indian children are first

Dear Sir:

I presume you will be pleased to hear that our residential school at Resolution, is more and more popular amongst the numerous Indians of the Agency. We actually have over one hundred children.

May I ask you to be kind enough to raise the actual number of pupilage to 90, and have necessary appropriation included in the estimate for the coming fiscal year.

Inspector C.C. Parker is well acquainted with the conditions of our school. The building, (140' x 40') (in the average) amply supplies room and ventilation for the above number of pupils.

Sir,—

I have the honour to submit to the Department, for consideration, a question that Bishop Breynat, since his return from the Arctic, asked us to give our attention to:

The point relates to the possibility, in the near future that the Department may consider to take in treaty quite a few of our half breeds of Resolution, Rae and others and in that event, the number of children admitted to our Indian school, specially of Resolution, will be increased, or at least the proportion under our Department care should be augmented, and Bishop Breynat asked us if the time was not suitable to increase the grant of children, from sixty, as at present, to about ninety. We promised to submit this important question to the Department immediately, so that the change may be effected when the half Breeds are taken under the treaty protection. We hope that we are not too late, if the Department views are favorable to that increase of the grant.

The size of the building at Resolution would speak in favor of this innovation. The school is large, substantially built, and can accomodate that number of children, and be within the desirable amount.

There are three large dormitories, two for girls, one for boys, and two class rooms, one of which is rather large, and the other, smaller, is only for the beginners. Each dormitory has a fire exit direct outside, and the dimensions of each are submitted:

Room for 9 children
AM

Dormitory for boys:	56x36x10-	20.100 feet C.
1st Dormitory for girls	56x 36x 10-	20.100 " "
2d Dormatory for girls	40 x22 x10-	8.800 " "
1st Class room	56 x36 x10	20.100 " "
2 Class room...	28 x 36 x 10	10.680 " "

Many large windows in these dormitories and class rooms supply a good ventilation, and light is ample. We also understand that next summer the Mission has intentions of making extensive alterations to the roof, giving more room if any thing. We intend to exerce more persuasion every year in order to get more children to the schools, and we figure that the Indian children shall always have the preference, because the half breeds who are not on treaty yet, and these who who do not contemplate to join the treaty are sending their children to school, often without any remuneration whatsover, and as they are not considered destitutes in the full sence of the word, they are taking the place of Indians, at the expense of the various Missions.

00R-COPY

Up to the present many children, half Breeds, whose parents are alive, are in the three schools of the agency, these Missions do not get any compensation from the parents who can not afford often the expenses, and as they are not destitutes in the strict meaning of the law, nobody pays for them, and the Missions have to keep them and clothe them also, and it would be only fair that when some of the parents of these children do take the treaty, the grant would be included for these children. It would leave quite a few still kept, clothed and educated by the schools without any help. ~~Because~~ ^{as} the halfbreeds are not eligible, or will not take treaty, and often have large families with two or three children in boarding schools. If the Department favors this change, I would be pleased to inform Bishop Breynat of the increase.

We have started the violet rays treatment of many children, in the Convent, and have also inoculated all the new comers, first injection, the others to come every three weeks, before our departure if we have to go, and vaccination next. We hope to finish this before the middle of December. The majority of the children look fairly well, this fall, and all precautions are taken to avoid these severe colds. The food is very good, This Mission having killed fourteen steers, a good supply of frozen fish, and the diet will be combined with the best, to our liking, hundreds of sacks of vegetables, beets carrots, turnips, cabbages, and potatoes as much as the children can eat.

Dear Doctor,

I respectfully beg to call your attention to the fact that, owing to tremendous rates we have to pay for the transportation of our annual outfit from railways terminals to our residential schools in the Mackenzie District, we cannot give to our school children all the proper food and care they would need.

As a result, our annual accounts wind up with a serious deficit.

Consequently I instantly request that the Department raise the actual per capita grant to two hundred dollars a year for our two residential schools of Fort Resolution and Providence which are respectively 516 and 670 miles from the terminals of the Northern Alberta Railways.

From McMurray to Providence the actual freight rate is \$100.00 a ton, and to Resolution \$80.00 a ton.

Hoping for a favourable consideration of my demand,

I remain, Dear Doctor,

Yours respectfully,

Dear Bishop Breynat:

I have your Lordship's letter of the 3rd instant, asking for a substantial increase in the per capita grant at the Resolution and Providence Indian Residential Schools. I am aware of the difficulties of financing when transportation costs are high, and for this reason these schools get a higher grant than those near the railroads. I should like to make the grant still more generous if funds for the purpose were available, but there are so many claims on our appropriation that our estimates this year had to be prepared with more than usual care. Next October when we are striking estimates again, I shall be glad to keep your Lordship's request in mind.

Monsieur le Docteur C. BOURGET,
Agent des Indiens,
Fort Resolution, N.W.T.

Monsieur le Docteur,

A l'occasion de sa visite de notre mission, Monseigneur Breynat, a constaté ce qui suit:

Pendant ces derniers temps, Mr J. Donevan, domicilié au Fort Résolution, a entretenu, avec une de nos jeunes filles de l'école, Augustine Boucher, enfant du Traité, que nous a confié son Père, en mourant, des relations qui font brèche à la discipline et que l'intérêt de nos enfants et la bonne renommée de notre couvent nous interdisent de supporter plus longtemps.

Mr J. Donevan avait connu ladite Augustine assez familièrement lorsque, pour un certain laps de temps, elle vécut en dehors de l'école.

Dès la rentrée de la jeune fille au couvent, il commença à lui envoyer des fruits et lui en envoya à plusieurs reprises. Les envois se renouvelant, je crus bon d'avertir Mr J. Donevan que les fruits ne seraient pas leur destinataire.

C'est alors qu'arriva une première robe.

Comme mon attention avait déjà été mise en éveil par l'envoi répété des fruits, la robe fut gardée à la mission, et, en même temps que j'avertissais le donateur de vouloir bien mettre fin à des relations qui pouvaient devenir compromettantes, je l'invitai à venir reprendre possession de son bien. Ce qu'il se garda bien de faire.

Au contraire, peu de temps après mon avertissement, une nouvelle robe arriva pour la jeune fille. Sans hésiter, je la renvoyai avec la première.

Et voilà que la semaine dernière un kodak était apporté par Lois Brown, de la part de Donevan, pour être échangé contre un autre, envoyé précédemment. Augustine, qui s'avouait troublée par ces instances réitérées, renvoya tout simplement les deux kodaks au donateur.

Il y eut aussi des lettres introduites clandestinement. Augustine n'osa pas les montrer à personne et les brûla.

Or vous savez que cette jeune fille était engagée à un jeune homme, J. Laferty, à un tel point que la publication des bans était faite et que le jour avait été fixé pour la célébration du mariage... La veille du jour fixé, la jeune fille rompit ses engagements.

J. Donevan ne cacha pas la joie que lui causait cette rupture. Il se vanta même devant, plusieurs témoins, qu'il ferait casser d'autres mariages. Par cette bravade, ne se reconnaissait-il pas comme ayant causé cette rupture qui lui apportait une telle satisfaction?... On lui prête même l'intention de se marier avec Augustine à la sortie de cette dernière du couvent... Or tout le

monde sait que Donevan est déjà marié; que son épouse légitime est encore en vie, et... qu'il est âgé de soixante ans et au-delà!

Devant ces faits, Monseigneur me charge de vous demander s'il n'y a pas matière suffisante pour prendre action judiciaire contre J. Donevan pour sauvegarder l'honneur de notre école et prévenir tout renouvellement d'agissements aussi condamnables.

Dans l'affirmative, vous voudrez bien prendre les mesures nécessaires pour que l'affaire soit jugée au plus tôt.

En vous remerciant d'avance, je vous prie, Monsieur le Docteur, d'agréer l'expression de mes sentiments respectueusement dévoués.

St Joseph Mission, Fort Resolution, N.W.T.
April 18th 1931
To Mr. C. Bourget
Indian Agent
Fort Resolution, N.W.T.

Dear doctor -

At the occasion of his visit at our mission, Bishop Breynat, noticed what follows:

For sometime, Mr. J. Donavan, domiciled at Fort Resolution, has kept, with one of our young school girls, Augustine Baucher, a child of the Treaty, which was intrusted to us by her dying father, relations which are against the discipline and the interest of our children and the good name of our convent forbids us to allow such a thing any longer.

Mr. J. Donavan has known the said Augustine quite familiarly when, for a certain time, she lived out of school.

At the very beginning of her return at the convent, he started to send her fruits, and did so in several occasions. The sending being renewed, I thought well to warn Mr. J. Donavan that the fruits would not be delivered to the girl.

It is then that he sent a first dress.

As my attention had been drawn by the repeated delivery of fruits, the dress was kept at the Mission, and at the same time I notified the donor to put a stop to relations which might become compromising, I invited him to take back his belonging. This he dared not to do.

On the contrary, shortly after my warning a new dress arrived for the young girl. Without hesitation, I sent it with the first one.

Last week a Kodak was brought by Louis

from Donovan, to be exchanged for another which was sent previously. Augustine, who admitted she was troubled by such repeated attention, simply returned both Kodaks to the donor.

There were also letters introduced in a clandestine way. Augustine did not dare show them and burn them.

You also know that the young girl was engaged to a young man, J. Laferty, to such an extent that the church banns were published and the date set for the wedding. . . . The day before the fixed date the young girl broke the engagement.

J. Donovan did not hide the joy that the rupture caused him. He even boasted in presence of several witnesses that he would have other marriages broken. By such bragging was he not showing that he had caused the breaking off which was giving him such great satisfaction? Rumors even go to say that he intends to marry Augustine when she leaves the convent, yet, everybody knows that Donovan is already married; that his legitimate wife is still living and that he is over sixty years of age.

In presence of these facts, His Grace, has requested me to ask you if there is not sufficient reason to take judicial action against J. Donovan to safeguard the honour of our school and to prevent renewal of such condemnable actions.

In the affirmative you will kindly take the necessary steps to have the matter judged without delay.

Thanking you in advance, I beg you, Sir, to receive the expression of my respectful sentiments of devotion

Dear Doctor McGill:

I have the honour to report on my visit to St. Joseph's R. C. School at Fort Resolution.

At the time of my visit there were 75 children present, although it was holiday-time, and no school was being operated.

I found that the girls were being taught the usual household duties of sewing and mending, cooking, &c. The boys do the chores and gardening, and are also taught to make snow-shoes, do a small amount of trapping, &c. I saw samples of the work done in the class-room, and as far as I could judge, it was fairly well done. Of course these children are not kept in school for very many years, and the highest standing they attain is Grade V.

The main building of this school was erected in 1908, and has been added to periodically since that time. It is situated in the Fort, and is right near the lake, and they depend entirely on driftwood for their firewood.

They keep a few cattle and do a little farming, and the following is the stock that is kept there: 6 oxen, 3 horses, 10 cows and 6 other young cattle. The farm consists of 40 acres where oats are planted and also a large garden.

There are 10 Sisters of Charity Grey Nuns from Montreal at this school, and there is one priest at the Mission and 8 brothers. The mission is close by the school.

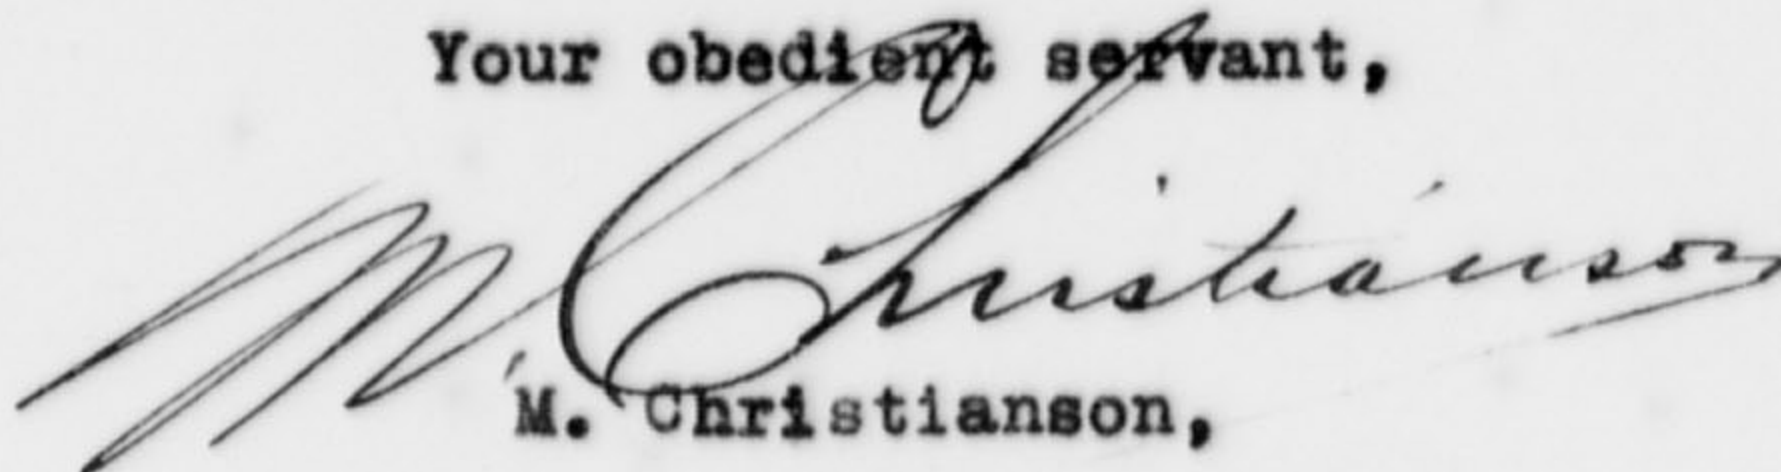

Requests made by the school will be forwarded to the Department in a separate letter.

From all appearances this is a well managed institution, and rendering good service, and the children looked bright, cheerful and in the best of health.

Dear Doctor McGill:

I have the honour to report on my visit to St. Joseph's R. C. School at Fort Resolution.

At the time of my visit there were 75 children present, although it was holiday-time, and no school was being operated.

I found that the girls were being taught the usual household duties of sewing and mending, cooking, &c. The boys do the chores and gardening, and are also taught to make snow-shoes, do a small amount of trapping, &c. I saw samples of the work done in the class-room, and as far as I could judge, it was fairly well done. Of course these children are not kept in school for very many years, and the highest standing they attain is Grade V.

The main building of this school was erected in 1908, and has been added to periodically since that time. It is situated in the Fort, and is right near the lake, and they depend entirely on driftwood for their firewood.

They keep a few cattle and do a little farming, and the following is the stock that is kept there: 6 oxen, 3 horses, 10 cows and 6 other young cattle. The farm consists of 40 acres where oats are planted and also a large garden.

Dear Sir:

I have been directed to acknowledge your No. 413-11A. R.C. of the 14th instant, reporting on your visit to the Fort Resolution Indian Residential School. It is noted that this is a well managed institution and is rendering a good service, also that the children were in the best of health and that they are receiving a good training at the school.

The request made to you by the Reverend Sister, for classroom desks, is receiving attention.

Yours truly,

School inspection and examinations were carried out and I am grateful to report that progress is noticeable in every way.

The three class-rooms and school grounds are large and well kept.

The pupils, numbering 96 are clean, bright and tidy. Their meals are prepared and served from a large kitchen, by the Nuns with the help of the industrial school girls. The food is of good quality and plentiful.

Dear Mr. Hoey,

I have been advised lately by the Supt. of the Oblate Catholic Indian Missions Ass. of a special notice sent by you to the Corporation.

I take pleasure to thank you for the part you took in the deliberation of such Act. I am certain we owe to your credit the benefit of the restoration of the full per capita in our Indian Schools.

I have been aware of the heroic efforts made by you, Mr. Hoey, as Minister of Education in Manitoba, during the depression years. Not one school was closed, because you impressed so deeply in our minds that education is the one important question for the welfare of a country.

It is to you again that we shall be grateful for the many advantages awaiting our Indian School: they shall flourish under your care and your protection.

I found the school children all-except for two exceptions in the best of health and judging from the bright singing and general proficiency in their classes they are being well trained. One of the exceptions was a little chap from Simpson who was recovering from an attack of Broncho-Pneumonia (the second in two years) and we can thank Nursing Sister Desrochers for his regaining his health. She never left him for more than twenty minutes during his entire illness. When I examined him I found him improving almost hourly and beginning to eat well, so I have every confidence that he is now entirely recovered. I also attended a number of the residents of Providence and extracted as always a large number of teeth. I have pulled so many teeth there that I almost think at times that one person does the chewing for all his nearest neighbors.

Vaccination against smallpox was done among the pupils and pre-school children, with good results. The School Children are all well and when out of class-rooms are enjoying outdoor life and games. The oldest pupils helped put in 80 bags of potatoes and a large quantity of carrots and turnips on the Mission farm.

With plenty of moisture in the ground and the long hours of sunshine, by which the North is privileged, the gardens should do very well this year.

Mr. Meikle

Re - Fort Resolution Roman Catholic Residential School

I inspected the above mentioned school on June 7th and 8th, examined the building and observed the instruction given by the staff.

Representatives of the Mission informed me that the school building is quite inadequate and should be replaced as soon as possible. After checking the building carefully I concur in this view. The building presents a real fire hazard. The foundation is decayed and heaved. The class rooms are small and unhealthy. It is therefore recommended that the replacement of this building be an item on the Educational Building Program for the Northwest Territories.

I encountered considerable criticism of the school on the part of Residents of the Settlement. Many complained that the children were not learning very much by attendance. While such statements are not uncommon wherever a school is functioning, I do feel that a good deal of such criticism could be mitigated by making the instruction in each class more practical and vocational. For example, the instructional program in every school ought to include some training in sewing, home economics, woodwork, leather craft, motor mechanics and machine shop practice. I have endeavoured to make an immediate start in this direction, and instructions have been issued to Mr. L.E. Drummond, Departmental Agent, to send forward to the various Residential schools in the Territories a bundle of mixed woods together with a kit of tools to be used in working same.

The members of the teaching staff are as follows:

Sister Edna Gagnon - holds a Model Diploma for the Province of Quebec, and has 18 years teaching experience. She teaches Grade 1 ~~and~~, and has 23 Residential pupils and 18 Day school pupils, making a total enrolment of 41. Attendance at the time of the visit was 23, most of whom were beginners. The teacher is conscientious and interested in her work. The reading is very good, the writing is excellent, and the pupils are making good progress in their number work.

Indian Affairs (RG 10 Volume 6474, file 916-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Sister Marguerite Bourlai - holds no teaching certificate but has fifteen years experience. She teaches Grades 1 and 2, has 25 Residential pupils and 16 day school pupils, making a total enrolment of 41. There were 29 pupils in attendance at the time of the visit. I examined some of the hand work being done by the pupils, listened to their reading, and enjoyed the singing.

Sister Oliva Lavoie - holds a second class permanent Alberta Certificate and has taught for 19 years. She has Grades 3 to 4. The total pupillage is 125, made up of 78 Residential and 47 day school pupils. The school is equipped with a silent film projector. It does not receive Radio Broadcasts. The children received a medical examination and are X-rayed for T.B. on their arrival at school. They also received Dental and Eye examinations. This teacher is very industrious. The children's notebooks were exceptionally good.

The teachers in the Territories quite understandably are not familiar with the enterprize method of education now being used so successfully in the Provinces. Its most valuable feature is that it encourages and trains the children in self expression. On subsequent visits I hope that there will be an opportunity to discuss this method fully with the teachers at the various settlements.

I would suggest that this school be furnished with a good set of Basic Readers. These are required in order that the native children may learn to read by the use of the most modern technique. The teachers have requested readers, knitting wool, prints for making aprons and dresses, and a sound film projector.

The teachers at these schools complain of the poor attendance and feel that some measures should be taken to remedy the condition. They feel that some authority other than the church should impress upon the parents the importance of sending a child to school. The teachers feel that school attendance is an important means of fighting the spread of T.B. They say housing conditions are very poor and that in many cases families are living on a starvation level.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Joseph School for the Quarter ended June 30 1939.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

Make cheque payable to:

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

I HEREBY CERTIFY that the within Return is a true and faithful statement of the

attendance and tuition at the St. Joseph School for the Quarter
ended March 31 1940.

Principal Charles Gillespie

Dated April 1 1940.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupil in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupil in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Saint Joseph School for the Quarter ended December 31 1941.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of day pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of day pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of the Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of day pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total No. of days pupils in residence during quarter."
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate No. of days pupils in residence during quarter" by the "Total No. of days in quarter."
9. The amount of per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Saint Joseph School for the Quarter ended March 31 1944

Principal Antoine S. Lapointe

Dated April 1st 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Saint Joseph's School for the Quarter ended March 31st 1945

Principal Sister Olivia Lavoie, S.J.M.

Dated March 29th 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the St. Joseph's School for the Quarter

ended Sept 30th 19 46

Principal L. O. Lavoie

Dated Oct 4th 19 46

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Fort Resolution Residential School for the Quarter ended Sept 30th 1948.

Principal Sister Marguerite Bourgeois S.J.M.

Dated Oct 4th 1948.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the ST. JOSEPH'S RESIDENTIAL School for the Quarter ended JUNE 30th. 1950

Principal.....

Dated JUNE 23rd. 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Saint Joseph's Residential School for the Quarter ended December 31st 1952

Principal Sister J. Dussault

Dated December 27th 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the ST. JOSEPH'S RESIDENTIAL School for the Quarter ended SEPT. 30th. 1951

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Handwritten calculations:

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Ft. Resolution ST. JOSEPH'S RESIDENTIAL School for the Quarter ended JUNE 30th 1952.

Principal Sister J. Dussault
Dated July 5th 1952

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.
